 - 51 - 115
 - >116
- In South Sudan**

Individuals Traveling from Areas with COVID-19 Cases

- 1 - 10
- 11 - 30
- 31 - 60
- 61 - 230
- >231

Flow Monitoring Point

- IOM
- REACH
- UNHCR

Notes:

Data reflects the situation as of 30 April.

Data on individuals travelling from areas with COVID-19 cases includes both those entering from neighboring countries as well as internal movements within South Sudan.

The reported volume of individuals entering South Sudan from neighboring countries has decreased considerably in April compared to March due to several factors including:

- a reduction of population flows due to regional COVID-19 preventative measures
- a reduction of flow monitoring points
- more precise geographic data on areas with confirmed COVID-19 cases.

Data Sources:

Confirmed COVID-19 Cases: National Ministries of Health, compiled by UNICEF.

Population movement: IOM-DTM Flow Monitoring, REACH Port and Road Monitoring, UNHCR Refugee Returnee Border Monitoring.
