Delivery of Essential Services to the Camps

- Risk Communication (as needed)
- Case Management
- Surveillance, Case Investigation and Outbreak Rapid Response
- Infection Prevention and Control (IPC)
- Food
- Protection and Advocacy (as needed)

Population Statistics

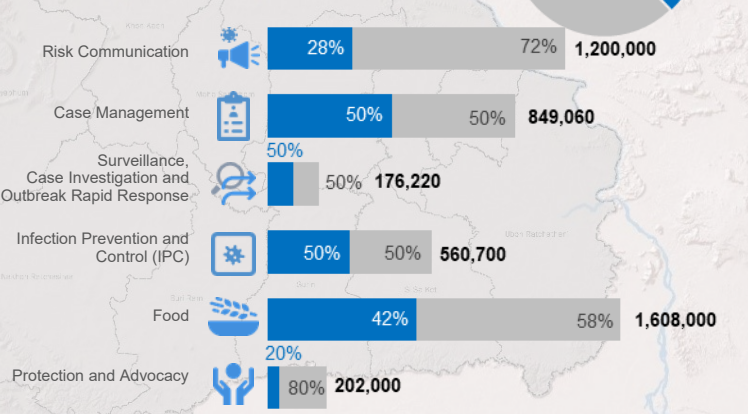

* UNHCR statistics as of 31 May 2020

Total population 93,355 Persons

	Age				Gender	
	below 5 years	5-17 years	18-59 years	60+ years	F	M
Ban Don Yang	10%	31%	52%	7%	51%	49%
Ban Mae Surin	9%	34%	52%	6%	50%	50%
Mae La	7%	32%	55%	7%	51%	49%
Mae La Oon	12%	32%	49%	6%	50%	50%
Mae Ra Ma Luang	11%	32%	51%	6%	50%	51%
Mai Nai Soi	8%	31%	54%	8%	49%	51%
Nu Po	8%	30%	56%	5%	52%	48%
Tham Hin	8%	34%	52%	6%	51%	49%
Umpium	7%	30%	56%	7%	50%	50%

Funding Situation (USD)

*These funding requirements are for 6 months based on current assessed needs.

Risk Communication

ADRA (ACTED, COERR, JRS, HI, IRC, SCI, FilmAid, MI, UNHCR, TBC)*

Key Issue *Timely outreach to refugees in context of social distancing; limited phone and internet access; maintaining vigilance on social distancing and movement restrictions*

- Ongoing sharing of COVID-19 prevention and response messages in Karen and Burmese languages with refugees, including those with specific needs, through over 7,000 small group dialogues, as well as distribution of posters, leaflets, PA system announcements, videos and web links. Weekly media monitoring reports communicated across networks and shared to camp committees and at information centres in camps
- Training provided for over 200 RCCE community engagement workers in all nine camps, including on home visit protocols from the protection working group along with session guidance
- Guidance on stress management and wellbeing in coordination with the health sub-committee and psychosocial working group completed
- Over 40,000 cloth masks distributed to refugees. Hygiene kits received by over 16,000 households and student boarding houses. Procurement process for 94,000 masks and 16,500 hygiene kits underway. Leaflet about hygiene kit content and guidance on using cloth masks developed and integrated into kit and mask distributions. Support provided to Vocational Training centres in Mae La and Umpium camps to produce cloth masks. Over 10,000 soap bars distributed to over 5,000 Extremely Vulnerable Individuals (EVIs)
- PSEA and SGBV messaging being integrated into loudspeaker announcements Development of IEC messaging package for community and religious leaders across 9 camps underway.
- Education messages under development
- Bi-weekly feedback and complaints mechanism developed and integrated into existing activities in camps. Over 1,700 refugees surveyed in 7 camps. Knowledge, Attitudes and Practices (KAP) survey being rolled out

Case Management

IRC (MI, CDC)*

Key Issue *Obtaining necessary equipment and staff to support surge capacity if current capacity is overwhelmed*

- All isolation and treatment facilities located and renovation/furnishing nearing completion.
- Surge facilities identified and plans in development for rapid activation if outbreak occurs in camps
- Specimen collection and safe transport training completed and now rolled-out in the camps for camp-based laboratory staff. Testing capacity ready within second half of June
- Ongoing development of case management protocols
- Ongoing procurement of pharma and supplies

Surveillance, Case Investigation and Outbreak Rapid Response

IRC (MI, CDC, WHO, MOPH, MOI)*

Key Issue *Maintaining preparedness and capacity in case of future outbreaks*

- Displaced Persons in Thailand Guidelines for Prevention, Surveillance, Investigation, and Mitigation of COVID-19 under review by MOPH
- Enhanced Surveillance testing of patients with influenza like illnesses and respiratory tract infections approved by MOPH
- Position Paper on Quarantine Practices in the 9 Temporary Shelters developed, together with Food and Protection pillars finalized.
- All surveillance staff trained and applying current MoPH case definition
- Triage conducted at all camp hospitals to cohort and screen patients with symptoms
- Community surveillance systems operating, and community quarantine areas established in all 9 camps
- Ongoing support to Thai officials to conduct regular screening and screening at entry/exit gates
- Contact tracing training for community health workers completed in some camps and will be delivered in other camps soon

Infection Prevention and Control (IPC)

IRC (MI, CDC)*

Key Issue *Ensuring population compliance with IPC protocols governing contact quarantine and isolation facilities*

- Six-week stock of PPE equipment in place and monthly supply of surgical masks provided by MoPH for all 9 camps
- COVID-19 SOPs under ongoing development and ongoing training for all health care staff in 9 camps
- COVID-19 SOPs for isolation and treatment under development, facilities set up and simulation exercise and training ongoing
- Decontamination SOPs under development and training initiated in certain camps
- IPC detailed refresher training delivered to local authorities and camp security
- Soap and water supplies provided to support continuous operation of handwashing at camp entry/exit points
- Handwashing stations in place in public areas, prioritized for most frequently visited areas and schools
- Hand hygiene at household level supported by community engagement team
- Ongoing production of face shields and reusable PPE, including scrubs and surgical gowns

Food

TBC

Key Issue *Increasing vulnerability and dependency on assistance in the long term*

- COVID-19 transmission mitigation measures implemented by food vendors, suppliers and warehouses
- Food vendors provided with soap, alcohol and bleach to sanitize shops
- Handwashing stations installed at shops and warehouses
- SOPs for quarantine/isolation conditions developed, in coordination with nutrition teams, health actors and camp committees. Training of camp staff in kitchen operations to support health agency quarantine/isolation facilities completed in 7 camps
- Strategy developed to ensure refugees' continued access to basic food items and cooking fuel
- All households to receive Most Vulnerable food rations for a minimum three months (April to June) to help alleviate loss of informal income opportunities. Reductions to food card value for standard households likely from July onwards due to lack of available funding

Protection and Advocacy

UNHCR (CCSDPT agencies, KWO, KnWO, KRC, KnRC)*

Key Issue *Inclusion of refugees in national surveillance, response, and planning and protection mainstreaming*

- Continued advocacy on inclusion of refugees in the RTG's national surveillance, response and planning activities for COVID-19
- Supporting mainstreaming of protection in the work of other pillars, including mitigation of SGBV and PSEA risks
- Ensuring continued delivery of protection services for the most vulnerable, including through collection and review of vulnerability data
- Ensuring continued regular and effective protection monitoring, including access to reporting channels for SGBV survivors and other serious protection cases. Update of SGBV referral pathways completed in all camps, as well as provision of some material support
- Delivering technical support for remote case management to camp-based staff and CBOs to ensure continuity of protection services
- Development and distribution of child-friendly material on COVID-19, including learning materials, hygiene sets and guidance for parents
- Ministry of Education (MoE) guidelines on school reopening translated into English
- Strategy to support safe anticipated reopening of schools in camps including 'back to learning' campaign under development. Six-week programme of preparatory activities in place

*Represents lead and collaborating agencies for COVID response
