

Response to Q2 '20 feedback - 2019-2020 RRP Performance Tracking (Sept '20)

The following changes have been made to the ActivityInfo platform based on feedback received after the Q2 2020 reporting cycle.

General changes / clarifications

- Nothing to report (NTR) forms to be added to all sectors (Reported Quarterly)
- A user validation exercise was conducted, the following users have been removed:
 - Users who have not accepted their invite 1 month after it was sent
 - Users who have not logged in to their account for at least 6 months
- Include definitions to Indicators in activityinfo (especially WASH) <feedback from training>
- Change in boundaries
All the locations (settlements, Schools, E&E Locations, Institutions) in Rhino and Imvepi that were formerly under Arua district have been moved to Terego district (created July 2020)

Sector specific changes / clarifications

Protection

- Dis-aggregated indicator “# of feedback/complaints addressed through feedback mechanisms by age groups and gender

Education

- Aligned all indicators to ERP indicators (dis-aggregated some indicators by gender)
The specific indicators aligned include;
 - Changed Teachers recruited to **Teachers supported by salary by Partners**
 - Changed Teachers recruited by Government to **Teachers under Government payroll**
 - Changed Teachers in receipt of refresher teacher training to **# of teachers trained in refugees classroom context (induction)**

Environment and Energy

- Removed the question of “**Select Activity Status**” which implies that partners should report only completed activities
