# Services advisor

## Services advisor training

- **8<sup>th</sup> of March (Mon) 12pm**
- Virtual Training

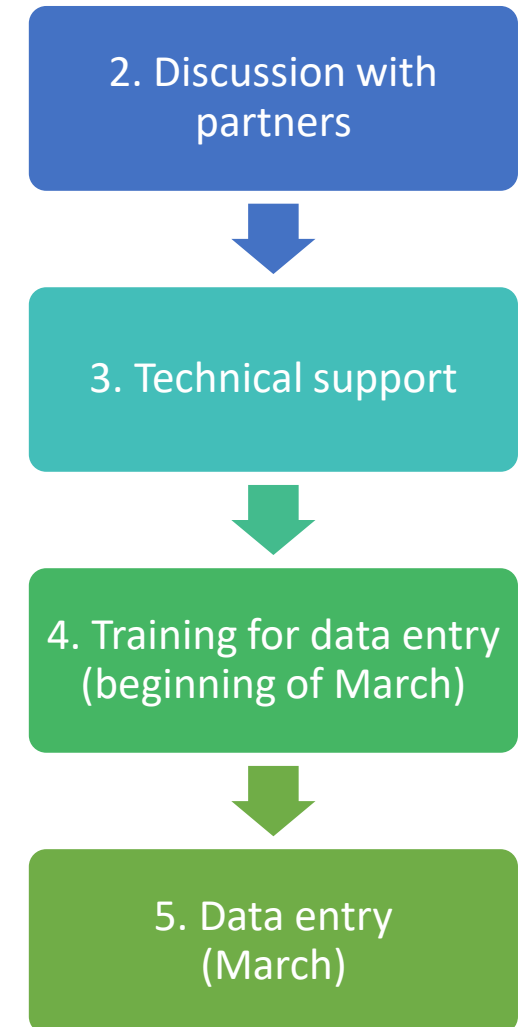

- 4<sup>th</sup> of March (Thu)

[Jung@unhcr.org](mailto:Jung@unhcr.org)

Name/Organisation/email

# Process

1. Plan and analyse
2. Modify and discuss with partners (Autumn,2020)
3. Send taxonomy to ISWG (Autumn,2020)
4. Provide a training for partners (1w)
5. Service providers to add their projects (2-3ws)
6. Send a SMS and post for refugees

- An online service mapping tool with geographical visualisation linking Inter sectoral coordinators & service providers and users.
- a bilingual page with English and Arabic
- Purpose: aiming for mutual communication with service providers and users, and among partners.

# Strengths of Services advisor

- With a country-wide geographical platform;
  - **Users:** can have increased access to and better knowledge of LH services, and actively search and reach out to demanded services.
  - **Partners:** can have a clearer picture of how the services/projects are distributed across the country. Additionally it can help to identify partners with certain LH service in a certain location.

# Features of Services advisor

- **Inclusive**: comprehensive web platform
- **Accessibility**: directly presenting services to PoC, service users
- **Partnership**: synergise among partners by sharing services information and cooperation
- **Efficiency** : United data set open to everyone
- **Effective**: Gap analysis by distributions and services: LH activities by governorates and type of services

THANK YOU
