Of the 2,361 individuals found with at least one specific need, 80% are females, 20% males and 9% are children.

States of origin of Vulnerable IDPs

Unity 99%

Of the 2,289 households identified with vulnerabilities, 514 (22%) expressed their intention to leave the POC and return to their communities of origin, or relocate elsewhere in South Sudan.

95% of vulnerable households are considering to return to county of origin

OVERVIEW

UNHCR in close collaboration with humanitarian partners, UNMISS and IDP community has conducted vulnerability screening and return intentions at Bentiu Protection of Civilian (POC) site. The exercise commenced on 24 November 2020 and successfully ended on 20 January 2021.

METHODOLOGY

The screening/verification exercise was conducted by UNHCR with support of community leadership. The leaders participated actively in mobilizing and sensitizing the households. Due to the sensitive nature of the information collected at household/individual levels, all interviewers were trained on data collection and protection of sensitive information. Data was collected using mobile devices. The interviews were conducted by trained enumerators and community workers from protection partners under the supervision of UNHCR protection staff.

Geographic scope:
The screening/verification exercise was conducted exclusively in Bentiu POC site.

Verification/Screening methodology:
Mobilization for the exercise was conducted by UNHCR, partners, IDP leadership and community from Bentiu POC.Interviewers collected information at household level as follows:
- The exercise targeted vulnerable households at the site.
- Detailed interviews were conducted with the head of households/vulnerable persons identified. Interviewers used a vulnerability assessment tool loaded onto mobile tablets to capture extensive information on categories of core vulnerabilities, additional protection risks, needs, household composition and intentions to return/relocate.

Vulnerability database:
The Screening/Verification exercise provided updated information on the most vulnerable individuals, informing targeting basis for UNHCR and partners’ operational response, including psychosocial support, SGBV intervention and protection-based material assistance. Humanitarian agencies can utilize the vulnerability data to provide interventions responding to pressing protection risks/needs of the most vulnerable households as well as tracking interventions to such households to minimize gaps and overlap, based on Data Sharing Agreement and protocols on confidentiality and data protection.

~ 100% of the screened households are Nuer

Vulnerability Screening and Return Intentions

**SOUTH SUDAN**

Bentiu PoC | January 2021

**PRIORITY NEEDS IN IDP COLLECTIVE SITE**

1st priority: Food | 2nd priority: Water | 3rd priority: Basic domestic/household items | 4th priority: Education | 5th priority: Safety and Security

Majority of households surveyed identified food as the first, water as second, basic domestic/household items as third, education as fourth and security/safety as fifth prioritized need in their current location.

**PRIORITY NEEDS AT RETURN/RELOCATION SITE FOR THE VULNERABLE INDIVIDUALS WHO EXPRESSED WILLINGNESS TO RETURN/RELOCATE**

1st priority: Food | 2nd priority: Water | 3rd priority: Medical care | 4th priority: Education | 5th priority: Safety and Security

Majority of households surveyed identified food as the first, water as second, medical care as third, education as fourth and security/safety as fifth prioritized need in their current location.

**DISPLACEMENT AND INTENDED RETURN LOCATION**

514 vulnerable households expressed their intention to leave the Bentiu PoC/IDP site. 468 of these plan to return to their place of origin.

55% of the households were displaced in 2014

1,535 (67%) of the vulnerable households reported being displaced more than twice

Displaced twice (10%)
Displaced once (23%)
Displaced more than twice (67%)
**Time frame for return**

- **When area of returns are safe, 62%**
- **Don't know, 33%**
- **When I hear from family members in area of returns, 1.2%**
- **Other reasons 0.9%**
- **When I have money to travel, 0.8%**
- **I am ready to leave immediately, 0.8%**
- **Ready to leave immediately, 0.4%**

*Percentage of HHs intending to return*

**Top return impediments (for those unable to return)**

- Transportation
- House damaged/destroyed
- Lack of access to basic services in location of return.
- Unlawful occupation of the house in the area of intended relocation/return
- Insecurity in the area of intended relocation/return

**Return factors for return**

- Security in intended area of return/relocation is good/has improved: 71%
  - Reunite with family in area of intended return/relocation: 61%
  - Health services are better in intended area of return/relocation: 22%
  - Education is better in intended area of return/relocation: 20%
  - Shelter is better in intended area of return/relocation: 19%
  - Livelihoods are better in intended area of return/relocation: 18%
  - Infrastructure is better in intended area of return/relocation: 8%
  - Road access to intended area of return/relocation has improved: 8%
  - Reunite with community/community support in return/relocation areas: 8%
  - Insecurity in the current relocation: 5%
  - Check on my house/land/property in the area of intended return: 4%
  - Insecurity in the current location of displacement: 2%

*Percentage of HHs intending to return*

---

**Protection risks & needs of vulnerable households**

- 90% of the vulnerable HHs lack legal documentation (national ID card, birth certificate)
- 86% of the vulnerable HHs cannot produce income for their households
- 77% of the vulnerable HHs experienced multiple displacement
- 60% of the vulnerable HHs reported property destruction
- 24% of the vulnerable HHs need psychosocial support or counseling services
- 14% of vulnerable HHs witnessed tensions/hostilities between IDPs & host community
- 2% of vulnerable HHs witnessed physical violence/abuse
- 1% of vulnerable HHs witnessed/heard reports of mines/unexploded devices in their current displacement
