communities. Radio talk shows were also conducted in Kamwenge district to educate people on preventive measures, including GBV prevention. Sensitization through using public address system / boda boda talk talk was		
also conducted	measures, including GBV prevention. Sensitization through using public address system / boda boda talk talk was	
	also conducted	

•	Also carried out other activities to respond to COVID-19, such as livelihood activities: hands-on training, internships, provision of start-up capital, production of 7,000 face masks, distribution of food (maize and beans) to isolated households,	
Rwa	mwanja Talented Youth Innovators	
•	Established in 2014, and uses members' talents to pass messages, including channels such as Youtube. Currently	
	has 30 refugee and host community members	Co-chair to share link to access
•	During the COVID-19 crisis, sensitization was conducted in both refugee and host communities through producing	video produced by Rwamwanja
	songs with messages on how people can protect themselves. The messages / songs were disseminated with	Talented Youth Innovators
	UNHCR support through Channel Africa, aired on radio, and public address systems. People were not taking	https://youtu.be/9s5zmaKh1YU
	COVID-19 seriously in the beginning, and they therefore used diverse means to reach people with the groups'	
•	messages. Events such as World Refugee Day and International Youth Day were also used for awareness-raising. Messages were produced in Swahili and English.	
•	Messages were produced in Swahin and English.	
Refu	igee Innovation Center	
•	Established in 2016 to enhance engagement of youth through training in basic computer skills and film making,	
	which has supported youth in producing and selling videos and photographs in communities.	
٠	COVID-19 disrupted usual activities and trainings. Instead, youth have used their computer skills in helping	
	organizations to disseminate COVID-19 prevention measures in local languages via audios and community drive-	
	throughs.	
٠	15 refugees were mobilized to conduct door-to-door sensitization to overcome language barriers, including	
	messages on how to minimize expenditures and use existing resources.	
٠	4800 face masks were produced and distributed	
٠	Conducted activities to minimize risks of COVID-19, including face mask production (4,800 masks), capacity-	
	building on digital skills and life skills.	
	3. Analysis of the Risk Communication Assessment (U-Learn)	
	3. Analysis of the hisk communication Assessment (0-Learny	
	Brief update was provided due to insufficient time for presentation. U-Learn and Ministry of Health are	
	organizing a Roundtable on the Risk Communication and Community Engagement (RCCE) Assessment	
	conducted by U-Learn with purpose of agreeing on policy recommendations. More information will be shared.	

	4. Draft TOR of AAP Task Team	
•	Discussion postponed to next meeting due to time constraints. Updated draft incorporating any further comments received will be shared prior to next meeting.	• Members to provide any further comments to the draft TOR by email by 11 December.
	5. AOB	
•	Members agreed to hold next meeting in January, on Monday, 11 January 2021.	

Endorsed meeting minutes, inter-agency rumour tracking bulletin and other key documents from the CwC Task Team can be accessed on the Uganda refugee response portal at: <u>https://ugandarefugees.org/en/working-group/253?sv=0&geo=220</u>
