## PROTECTION: MONTHLY UPDATE January - April 2021

In 2021 the Protection Sector targeted 2.5 million people in 61 LGAs across the BAY states. Based on monitoring and vulnerability screening, the Sector's interventions will mitigate the harm caused by violence, exploitation or serious neglect. This includes psychosocial support, legal counselling, in-kind and cash assistance, case management and referral services. The Sector will also seek to prevent and reduce the risk of violence and abuse, and to counter negative coping mechanisms. These actions involve raising awareness of explosive hazards, improving access to civil documentation and basic services and sustainable durable solutions.

## **OVERVIEW BY SECTOR OBJECTIVES AND INDICATORS**

1. To stop or mitigate the harm caused to persons who have suffered violence, coercion, exploitation, serious neglect or discrimination, and to restore - as much as possible - the person's capacity to live safe and dignified life

## **CHILD PROTECTION**

January- April 2021

REACHED

TARGET

A total of 1 million children (53% girls, 47% boys) and caregivers will be targeted with child protection services to prevent and respond to abuse, exploitation, neglect, violence and discrimination in north-east Nigeria. Forty-three per cent of the targeted population for the child protection response is in Borno state, 33% in Adamawa and 24% in Yobe. Among the LGAs in Borno, Maiduguri has the highest number of targeted children and caregivers. Overall, the Sub-Sector will aim to reach approximately 8,000 children living with disabilities with child protection services.

# Protectionsector GENDER BASED VIOLENCE NIGERIA NIGERIA

January - April 2021

24

The GBV Sub-sector response plan's main goal is to ensure safe and multi-sector services to those affected by gender-based violence and facilitate the recognition that GBV programming is the responsibility of all humanitarian actors and needs to be addressed with adequate, comprehensive and coordinated actions. Three approaches guide the response plan: life-saving response to survivors and those at risk of violence; GBV prevention and integration of GBV risk mitigation aimed at promoting dignity and safety in humanitarian action; and emphasis on upholding zero tolerance for sexual exploitation and abuse (SEA) across the humanitarian system through promoting accountability, prevention measures and support to survivors.
