

COVID-19 Updates

National COVID-19 Statistics

As of 9 August 2021, the national cumulative COVID-19 statistics stood at:

Cumulative: **200,049 cases**

Recovered: **192,479 (96%)**

Those vaccinated under the 1st dose were **302,475** (AZ, J&J, Sinopharm)

The fully Vaccinated were: **191,592**

Deaths: **3,484**

Active cases: **4,086**

- On 7 August 2021, the government received 100,000 doses of Sinopharm from the People's Republic of China and so encourage those willing to get a vaccine to do so at the earliest possible time to better protect and prevent any spikes and future waves.

Refugee Settlement level

During the reporting period, no case of COVID-19 was recorded among the persons of concern (PoCs), hence figures remained the same **97** cases (M:44; F:53), recoveries: **95** with **0** Active and **02** death.

POCs Vaccinations

- In Meheba, the figure of vaccinated under 1st dose were **33**, while fully vaccinated PoCs were **32**.
- In Mantapala settlement, a total of **72** refugees received their first dose of COVID-19 vaccine, bringing the cumulative to **198** among the eligible individuals. In addition, **six** individuals received a second dose bringing the cumulative to **58**
