Key Priorities

- **Institution building:** UNHCR pilots good practices, deploys staff and provides trainings and advice to help the State build systems and expertise on asylum, reception and solutions.
- **Access to territory:** UNHCR staff are at border locations to help new arrivals who need special assistance. A key priority for UNHCR is that those seeking asylum can access fair reception procedures.
- **Asylum procedures:** UNHCR promotes quality in asylum processing through deployed experts to the Asylum Service and offers legal aid through partners.
- **Advocacy:** UNHCR raises with the authorities and key actors critical matters that affect rights and well-being of refugees and asylum-seekers so as to trigger legal and policy change.
- **Relocation:** UNHCR supports the relocation of unaccompanied children and other vulnerable groups from Greece to other European States.
- **Integration:** UNHCR advises the State to ensure that refugees have in-practice access to rights; runs refugees integration projects and supports municipalities who lead in inclusion of refugees.
- **Persons with specific needs:** To those most at-risk, such as unaccompanied children or survivors of sexual violence, UNHCR provides psychosocial support, emergency shelter and/or foster care.
- **Community empowerment and self-reliance:** UNHCR mobilizes refugees to create support networks, from addressing mental health issues to empowering children to help their peers.
- **Emergency assistance:** UNHCR assisted the State after the 2020 Moria fires and helps address key gaps to improve conditions.
