SiteID session for Aljawf support and identification of IDP sites	**Completed**
Matrix shall be formed for all NGOs' interventions	**Pending**

DISCUSSION

Agenda item 1: Update on partners interventions for the new displacement wave (Marib-Aljawf)

August 26th, 2021: RRM coordinator reported a new displacement in Al Hazm district, Aljafw, via IP there (YARD), the displacement has occurred due to the current conflict in the frontlines of Al Hazm district, and due to the lack of information the RRM team to conduct RNA for those 132 HHs of new IDPs during delivering the RRM kits. CCCM cluster raises the alert with active humanitarian partners in the meeting for support and to start directing humanitarian intervention, upcoming projects and activities in Aljawf government.

On August 24th, 2021: a new displacement alert shared from CCCM cluster to all partners in Marib hub that due to the last hostilities and conflict raises in Albaydha government, and as reported from ExU that a number of 40 HHs had been displaced from ALbaydha to Marib, families are reaching Marib in different districts and areas. A number of 13 HHs reached Marib located in different areas and sites, BNFs were shared with RRM focal point as an initial step for intervention and support to the displaced families.

CCCM cluster advocated all partners in the field along with coordination from other cluster sectors to support the newly displaced families and expectation of an increase of the displacement wave in the area.

On August 10th, 2021: an appeal from the CCCM partner in Sirwah district (SHS) for a displacement of 51 HHs from Arak to other IDP sites in Alrawdah area, families relocated due the ongoing conflict in the area. Verification process completed and WASH, RRM, Protection and SNFI partners started the intervention stage, IOM's WASH partner managed to shift all the belongings of the affected families, BFD's RRM partner supported 32 HHs, H.A's protection team conducted PSS for 24 HHs and SHS's SNFI partner started distributing for 19 HHs and to complete within the next few days. SHS coordinator advocated for other active partners in the area to support the affected population and intervene based on the capacity available. OCHA representee form the other side urges for quicker targeting in case of any new displacement and families shall not wait long time to be supported.

Also, ***On August 21st, 2021:*** a report on wind and rain damage in the displacement camps in Marib govt as shared from ExU, indicating that a number of 210 HHs had totally affected and number of 7643 had partially affected from the past heavy winds in 73 IDP sites across 5 districts in Marib government.

Agenda item 2: CCCM partners update in IDP sites (Gaps).

CCCM cluster in this meeting focused on two main CCCM activities that are practiced with difficulties in the field, the two activities are:

- Community Committees
- Referral Pathway

Community Committees:

In both CCCM managed sites or in other IDP sites that runs without SMC partner, the community committee aren't established in a standardized approach, members exists and they are in each site, formed by either camp administrator or camp management team each by its methodologies and terms. However, a gap noticed in reaching the correct members or

committee at the time of field visits, assessments, interventions and referral information, more than one line of assist and each member gives different values, places and needs.

CCCM cluster proposed to conduct a meeting with all SMC partners in the field to discuss the right standards for forming CC in each IDP site in the hub.

Referral Pathway:

the referral approach that were mentioned in this meeting were for the amount of correct information that are been raised through out the SMC partners in the field, as mentioned and due to the lack of information sharing from active partners in the field in each humanitarian sector, lack of cooperation and coordination from field teams at the event of intervention and not using the feedback mechanism (two ways approach) are the major reasons of deficiency of dependable information reported in the CCCM field.

CCCM cluster advised all partners to well coordinate and share information with SMC partners in the managed IDP sites for better referral and information trust paths.

OCHA representative from the other hand, urges all cluster coordinators to well coordinator between each other led by the RCT for the process of information collection form implementing partners in the field.

CCCM partners raised a complain in the meeting that other active partners in each area are not responding and attending on the CCCM area coordination meetings, many meetings were proposed from IOM and still with no presence from other partners.

Attending partners suggested to conduct a capacity building program for partners in the field to increase their understanding of CCCM approach and methodologies. CCCM cluster are in the process of conducting CCCM training for Ips in the hub from October of 2021.

Agenda item 3: Eviction threats in IDP sites.

On August 16th 2021, ExU – Marib raised a report of an eviction threat in number of IDP sites in Marib and Marib city districts, 13 IDP sites were mentioned each with different level of threat as the table below:

No	Site Name	Number of HHs	Eviction Threat	Comments
1	Kuliyat Almujtama	812	Medium	IOM managed
2	Masna'a Adhban	692	Medium	IOM managed
3	Al Salah Al Ryadhyah	23	Medium	
4	Almathaf	161	High	IOM managed

5	Maktab Alziraah	68	High	IOM Managed
6	An-Najah	152	Medium	IOM managed
7	Alnaser	247	Medium	IOM managed
8	Local council	23	Medium	
9	Altadamon	404	Medium	IOM managed
10	Alrakza	121	Medium	IOM managed
11	Alwehdah	64	Medium	
12	Al Maslaha	36	Medium	
13	Alkanteerat	50	Very High	

As per the table info mentioning the sites names, site population, eviction threat level and other comments of SMC managed partner. 10 sites are located in government buildings and government properties and remain 3 sites in private lands with different issues each.

In such cases related to HLP, local authorities are the first line response to support and looks for an alternative solution for the affected population in term of negotiations with landowners, finding of alternative settlements and relocation to other identified locations.

CCCM Cluster at the meeting raises the current issue with OCHA and Shelter cluster to conduct an ad-hoc meeting with authorities to address the possible solutions for each site, especially the high-level threat of them.

Agenda item 4: View the data produced from the SiteID activity

With support from REACH, National Cluster, volunteering Partners and Executive Unit of IDPs in Marib, the SiteID activity were finalized and under completion process for April cycle and REACH stared producing the factsheets of each site and district based on partners who supported the implement of this activity cover all 148 IDP sites in Marib.

You might find an example of the produced sheets in the link: https://reach-info.org/yem/cccm_sites/ . giving in notice that the factsheets upload is still under process and will continue to be updated in the site.
