

YEMEN

11 November 2021

Key Figures:

20.7 million people in need

Over **4 million** internally displaced

Over **80 per cent** have been displaced for more than one year

85,170 individuals (14,195 families) newly displaced in 2021

Children and women represent up to **79 per cent** of the total IDP population

129,531 refugees

12,075 asylum-seekers

Funding:

USD **271 M** required for 2021 operations

USD **173.7 M** received as of 1 November 2021

¹ IOM-RDT 25 October 2021

IDP Response

As frontlines approach the southern entrance of Marib city, hosting sites and civilian populations located in the city's outskirts face immediate safety concerns. On the western front, nearly 1,930 displaced families in IDP sites in Sirwah district are now five kilometres away from the ongoing clashes, with increasing concern for their safety. UNHCR's partner in Marib, Society for Humanitarian Solidarity (SHS), in coordination with the Camp Coordination and Camp Management Cluster, is currently seeking relocation plans for these households to safer areas in Marib al Wadi, should there be a sudden displacement.

Since the beginning of the year, UNHCR has distributed more than \$62 million in cash assistance to over 175,000 displaced Yemeni and refugee families (some one million individuals). A large portion of this assistance went to displaced Yemenis, four times more at risk of hunger than the average Yemeni population. The latest [post-distribution monitoring data](#) reveal that up to 91% of beneficiaries spent the assistance on food and over 20% on rent.

As part of the ongoing efforts to respond to the needs of some 1,260 newly assessed families (more than 7,000 individuals), SHS provided non-food items (NFI) to 585 families (3,041 individuals), and emergency shelter kits to 340 families (1,747 individuals) recently displaced from Rahba, Al-Abdiyah, Al-Jubah and Jabal-Murad districts into Marib City and Marib Al Wadi districts. Since the start of the new offensive in Marib this September, UNHCR has reached over 2,000 displaced families with emergency relief assistance such as blankets, sleeping mats, kitchen sets, plastic sheeting, and emergency shelter kits. Additionally, UNHCR has provided cash assistance to over 66,500 families in Marib so far this year. Together with partners, UNHCR also provided critical protection services for women and children through community centres and mobile interventions

Refugee Response

More than 2,800 refugees, asylum-seekers, and Yemeni nationals received primary healthcare at the UNHCR-supported clinics in Sana'a, Basateen, and Kharaz. Febrile illnesses and upper respiratory tract infections continued to be the leading cause of out-patient consultations. Community health workers led COVID-19 awareness-raising sessions that reached over 7,300 people in Sana'a, Aden and Hadramout governorates and Kharaz refugee camp.
