

### Overview

The sector's main objective is to ensure full integration of comprehensive primary health care services for refugees into national and local government systems, in line with the Health Sector Integrated Refugee Response Plan (2019-2024), launched in January 2019.

76% of health facilities serving refugees are accredited with the remaining 24% fully dependant on partner support. There are existing gaps in human resource, medicines and medical supplies, infrastructure development that needs to be fixed. Health sector partners continue to respond to emergencies of refugees' influx and disease outbreaks in the refugee settlements and provision of primary health care and referral to tertiary institutions for better medical care. With this, Health sector partners support over 10 regional and district hospitals in the region of its operations

Health sector partners have continued to implement ICCM in the communities through the VHTs and this has helped to keep the under 5 mortality rates within acceptable standards. However, there is need to further build the capacity of VHTs to respond the evolving health needs of the communities

### Key indicators

Under-5 mortality rate per 1,000 children

Global Acute Malnutrition rate

Health facility delivery rate

Measles vaccination rate

### Objective: Provide emergency life-saving health and nutrition interventions for new refugee arrivals and strengthen outbreak preparedness and response

Indicator Actual Target/Standard ('20 Revised) Actual against annual target or standard

#### Under-5 mortality rate per 1,000 children per month

Indicator	Actual	Target/Standard ('20 Revised)
- Congolese and other refugees	0.10	1.5
- South Sudanese refugees	0.13	1.5
- Burundian refugees	0.23	1.5

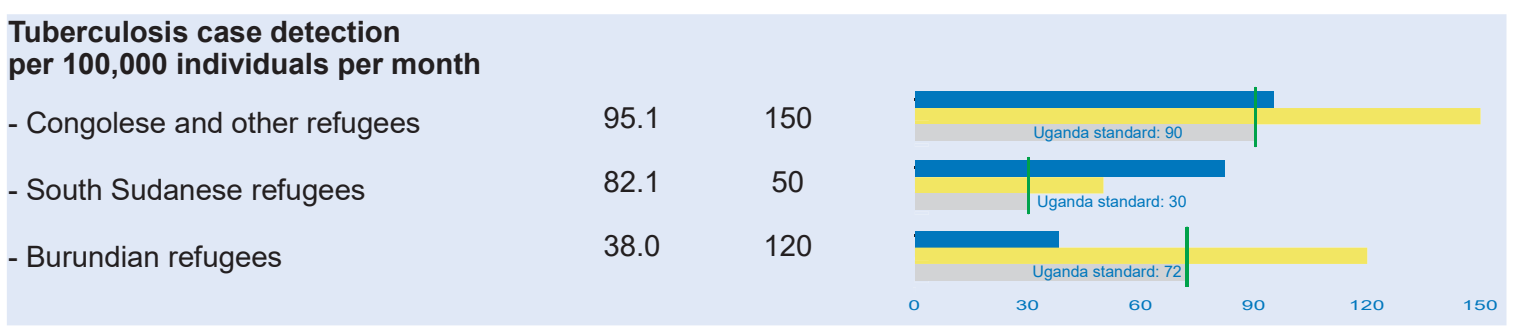

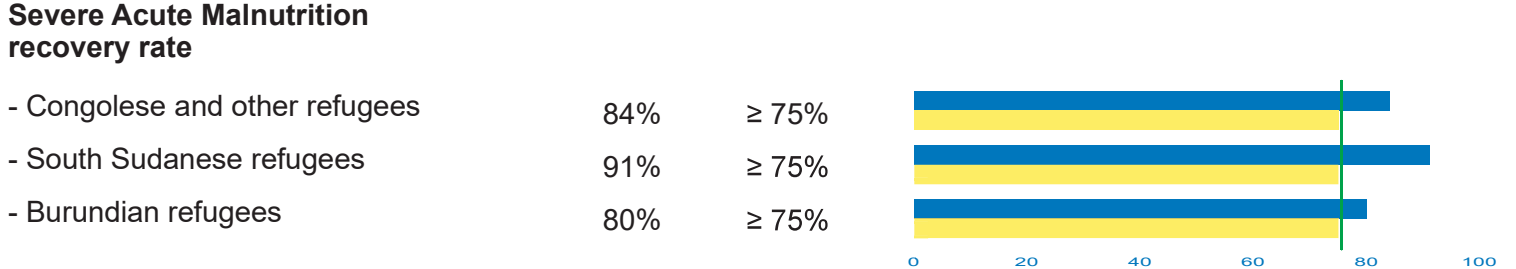

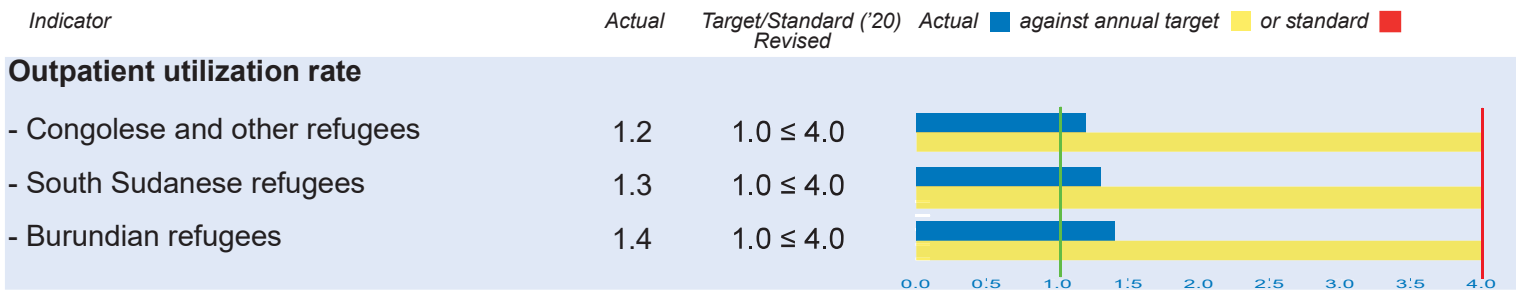

#### Global Acute Malnutrition rate

Indicator	Actual	Target/Standard ('20 Revised)
- Congolese and other refugees	1.39%	$\le 5\%$
- South Sudanese refugees	6.96%	$\le 5\%$
- Burundian refugees	2.77%	$\le 5\%$

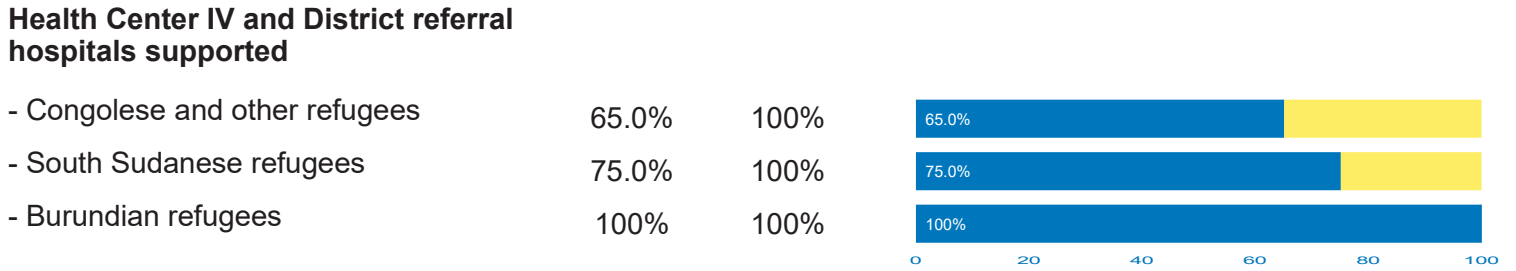

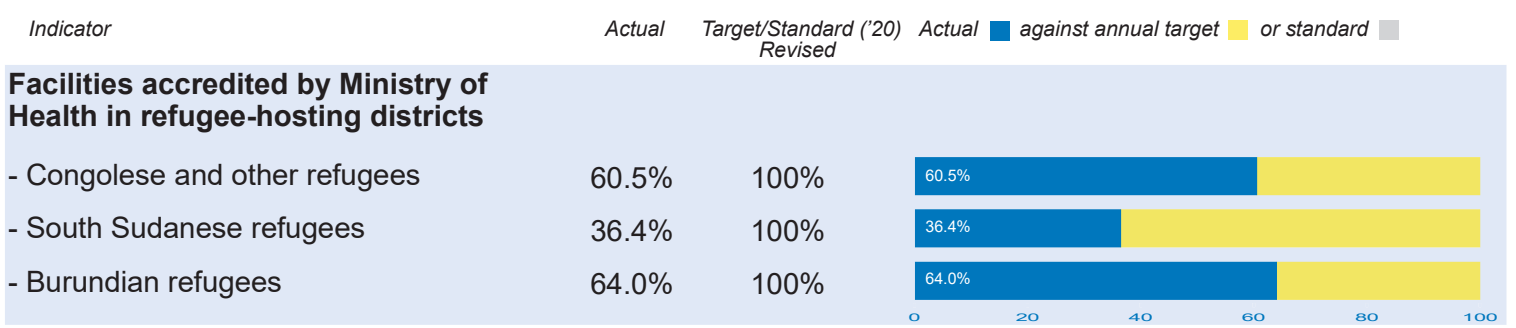

#### Sites holding monthly coordination meetings

Indicator	Actual	Target/Standard ('20 Revised)
- Congolese and other refugees	100%	100%
- South Sudanese refugees	100%	100%
- Burundian refugees	100%	100%

## Objective: Increase equitable access to and utilization of integrated quality health services for refugees and host communities across all the phases of displacement

## Objective: Strengthen the health care system to cope with the increased demand for health services by refugees and host population

Health and Nutrition Funding required (2021)  
Health and Nutrition Funding received (2021)

\$ 83.9M  
\$ 44.2M

## Operational Presence
