

MOLDOVA CO - HOT MEALS COVERAGE REPORT

LAST UPDATE:
April 9, 2022

DAILY REPORT

	Number of centers	Refugee Population
WFP/NGOs/Private Partners	66	3,241
Centers empty or covered by an organization not affiliated with the food security WG	41	812
Grand Total	107	4,053

Refugee population reached by WFP and cooperating partners : 2,213

CENTERS COVERED PER COOPERATING PARTNERS

WFP is working with ACTED and Helpage as cooperating partners.

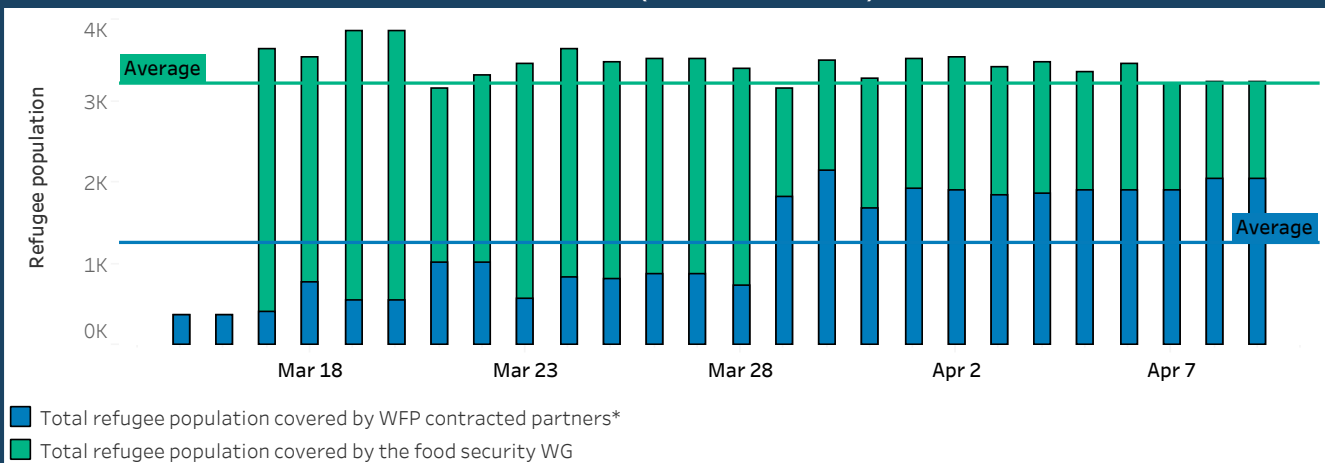

WFP and Cooperating Partners	40
Caritas Moldova/CRS	10
WCK	6
Private Organisations	6
SI	2
AAR Japan	2

REFUGEE POPULATION REACHED SINCE MARCH 15

Total meals distributed by WFP contracted partners*	97,938
Total meals covered by the food security WG	250,752

*Number of people reached may be repeated given the transitory nature of the refugee population. The government requires a standard of 3 meals per day per person, therefore the number of meals provided can be estimated at 3 times the number of daily beneficiaries multiplied by the number of days since the beginning of the programme.

REFUGEE POPULATION REACHED PER DAY (since March 15)

The data presented in this dashboard is updated at the end of every day and is collected through the food security sub working group. Beneficiaries are counted by adding up the population of the center covered by the members of the sub working group. This sum is extracted everyday but remains an estimation. This count is desegregated to estimate the population covered by the working group and by WFP and its contracted Cooperating Partners. The number of centers covered might vary in the daily and the global count as several partners can be covering the same center. **Contact Info:** felix.cucchi@wfp.org

Hot meals operations started on march 15. Data collection for the Food Security WG only started on March 17, data for other organisation than WFP are not available prior to March 17.
