

Cash Enrolment Update

24 April 2022

Staff at Krakow Centre receive additional training

Highlights

This week, the deployment team travelled to Poznan to prepare the set-up of UNHCR's fourth cash centre. In Warsaw and Krakow, all three cash centres are running. Warsaw Mirow Centre and Warsaw Praga Centre received support to upgrade their internet connections and provide access for persons accessing the centres. Occupation and address in the Country of Origin have been piloted to add to the dataset.

33,052

Individuals (15,506 families) enrolled since 24 February 2022.

48%

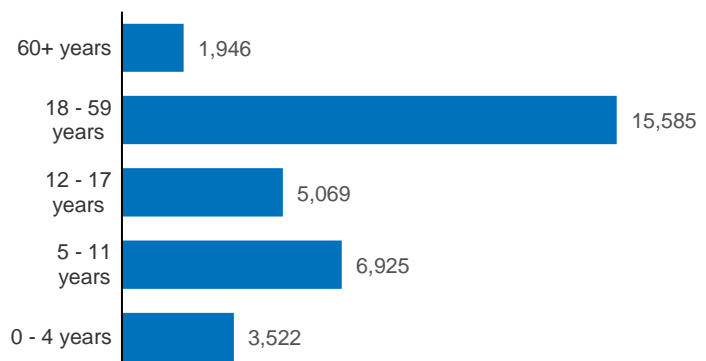

Are adult women and 47% are children.

\$4,830,823

Have been disbursed to assist people coming from the Ukraine to Poland after 24th February.

Total enrolled individuals, 17 April | 2022

Number of people

Cash Assistance

UNHCR continues to provide cash assistance to refugees coming from Ukraine in Poland. UNHCR is targeting 120,000 families through direct and partner implementation. Another 140,000 households will receive cash assistance through the other cash actors participating in the cash working group.

Funds Paid & Committed | 21 March - 24 April 2022

CHALLENGES

- With a growing number of international and national partners planning cash assistance, coordination is needed to avoid duplication.

96%

Of distributed funds have been fully withdrawn

14,707

Families have had their cash payment processed.

57

cash actors are attending the Cash Working Group for Poland

Enrolment

Enrolment centres continue to scale up activities. The deployment team has begun coordination and site identification in Poznan. UNHCR is also coordinating with several partners to support the launch of their enrolment activities.

ACTIVITIES

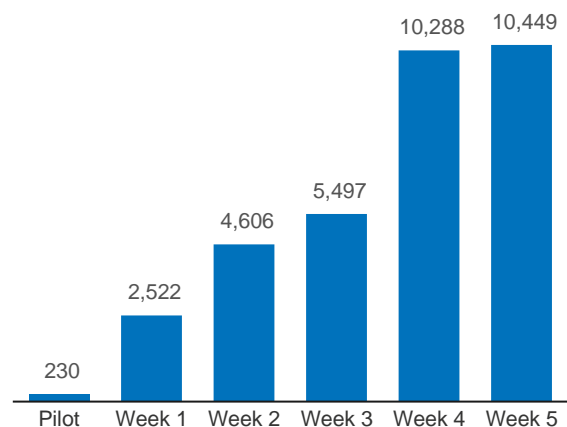

- During the week of 10 – 16 April, 10,449 individuals (5,202 families) were enrolled.
- The centres hosted several visits, including from the US Congress & Senate, Uber, BNP Paribas, and the BBC.
- A message to be sent to the 250,000 families has been developed. Families waiting for appointments will be requested to provide additional details on their location, family composition and specific needs to support scheduling.

CHALLENGES

- Technical difficulties with proGres disrupted enrolment on several days.
