Voluntary Repatriation of Afghan Refugees
South West Asia - Quarterly Update
January - March 2022

RETURNS PROCESSED AT ENCASHMENT CENTRES IN AFGHANISTAN

131 Returns from
Jan-Mar 2022*

74 from Iran
57 from Pakistan
0 from other Countries

573 Returns from
Jan-Mar 2021

433 from Iran
134 from Pakistan
6 from other Countries

Since 2002, close to 5.3 million Afghan refugees have returned to Afghanistan under UNHCR's facilitated Voluntary Repatriation programme. During the first quarter of 2022, 131 Afghans returned under the programme, of which 58% are children (under 18), the month of March registered the highest figure for returns in 2022, with 57 (44%). In the same period of 2021, 573 returns were registered, over three times higher than in this year, and during the first quarter of 2020, 278 returns were verified.

In 2022, 71% of the returns focused on two provinces Hirat (62) and Sar-e-Pul (31). Nearly a fifth of registered returnees interviewed at Encashment Centres (ECs) in 2022 reported that their children did not attend school in the country of asylum. At ECs in Afghanistan, returning refugees received a cash grant up to USD 250 per individual, as well as a range of services to support their reintegration in their places of origin.

ASSISTANCE AT ENCASHMENT CENTRES (ECs) IN AFGHANISTAN

USD $34,727 was provided in cash assistance to returnees at ECs in Q1 of 2022.
A total of $141,816 was provided in the same period of 2021.
Beside cash grants, a range of inter-agency services are provided for returning refugees, including basic health and malnutrition screening and vaccination, mine risk awareness, information on school enrolment, and overnight accommodation, if needed. In addition, UNHCR, in line with the measures recommended by MoPH and WHO, adopted a new SOP in all ECs, aiming to prevent the spread and transmission of COVID-19.

PROVINCE OF DESTINATION 2022 (Figures reflect returns processed at encashment centers in Afghanistan)

0 returns from other Countries

74 returns from Iran

57 returns from Pakistan

The data has not been independently verified and is subject to error or omission, deliberation or otherwise by the various sources.
Arrows reflected in the map do not reflect the routes but only indicate return movement.

* The number of refugees processed for return in Pakistan and Iran may sometimes be higher than those processed at encashment centres in Afghanistan. This is due to the presence of recycled cases applying for voluntary repatriation a second time and also persons not showing to collect the cash grant in Afghanistan.
REASONS AND INTENTIONS RELATED TO RETURN

Top 5 reasons for leaving Pakistan and Iran

- High costs of living/high rent: 28%
- No employment opportunities: 25%
- Fear of arrest and/or deportation: 6%
- Denied access to services: 6%
- Denied access to schooling/health facilities: 4%

Top 5 reasons for return to Afghanistan

- UNHCR assistance package: 29%
- Reunion with family/relatives in Afghanistan: 19%
- Improvement in security situation: 15%
- Land allocation scheme and/or shelter program: 9%
- Family matters (marriage, funeral): 6%
