

CCCM Cluster Somalia Dashboard

as of April 2022

General Updates

HIGHLIGHT: Site monitoring activities were done in 758 IDP sites covering 22 districts with 17 agencies administering this activity. 192 of these sites have received new arrivals within the last month.

Site Verification Assessments: #5 site verification assessments were conducted in #5 districts (Adado, Abudwak, Bal'ad, Wanlaweyn and Bardhere, districts). In the three districts (Adado, Abudwak and Bal'ad) where data analysis is complete, there are 32 IDP sites verified hosting a total of 22,793 HHs of 136,292 individuals. Comprehensive reports for each of the districts with Sex, Age Disaggregated Data (SADD) have been circulated to partners and respective authorities.

Capacity Building: Over 346 Camp Management Committees were trained on CCCM, fire safety and cross cutting topics such as conflict management, PSEA and gender-based violence. Participants who attended the trainings were drawn from IDP sites with minority and marginalized groups. The objective of the trainings was to strengthen CMCs capacity in understanding camp coordination and camp management activities and their roles in providing community linkages with the persons they represent, raising service gaps and awareness on their rights to services and holding duty bearers accountable.

Coordination Meetings: Partners coordinated with local authorities in Bardheere, Luuq and Ceelwaaq, Afmadow, Dhobely districts to support establishment of governance structure with IDP sites. Partners facilitated over 100 site level committee meetings to discuss the immediate needs, responses and challenges affecting the drought affected IDP communities at large. CCCM partners in Kahda and Daynile facilitated Area Based Coordination meetings aimed at enhancing coordinating response to drought affected populations in the two districts.

Service Monitoring: Site monitoring activities occurred in 758 IDP sites covering 22 districts with 17 agencies administering this activity. 192 of these sites have received new arrivals within the last month. Sector interventions targeting new arrivals in IDP sites included: 32/192 IDP sites received health services targeting new arrivals, 18/192 IDP sites received shelter support, 32/192 IDP sites received nutrition services, 34/192 IDP sites received FSL services while, 41/192 IDP sites have received GBV services targeting new arrivals.

For more details on Site Monitoring, please see the dashboard: <https://bit.ly/3zZQJxE>

Communication with Communities: Partners conducted awareness campaign on flood mitigation measures in the IDP sites that are located on flood prone areas. In Jowhar and Beletweyn partners covered over 10 sites with flood response preparation messages. Partners rehabilitated 21 solar-street lights in 7 IDPs camps in Bossaso with an aim of improving safety and security within the camps especially for women and girls

Cash Based Intervention (CBI)/ Cash for Work (CfW): Partners enrolled conditional cash distribution to most vulnerable households which enabled them to purchase necessary food and domestic items targeting more than 440 individuals mainly women, girls, minorities and PwD) through CfW site level activities.

Complaint and Feedback Mechanism (CFM): April featured 3,903 complaints raised which represented a sharp decrease (24%) of recorded issues compared to the number of complaints raised in the month of March which had 5,161 issues filled. Most of the complaints raised in April were from the Food Security and Livelihood (FSL) where 1,758 (45%) issues were recorded, 1,017 were registered under Shelter (26%) while under WASH, 485 issues were recorded (12%) totalling to 83% of the overall complaints raised and nearly half of them being recorded in FSL sector alone. This is consistent with the ongoing drought needs where most of the highlighted needs through the CCCM New Arrival Tracker are recorded under the FSL needs. It is also similar to previous months trends where most issues filed are in the life saving sectors.

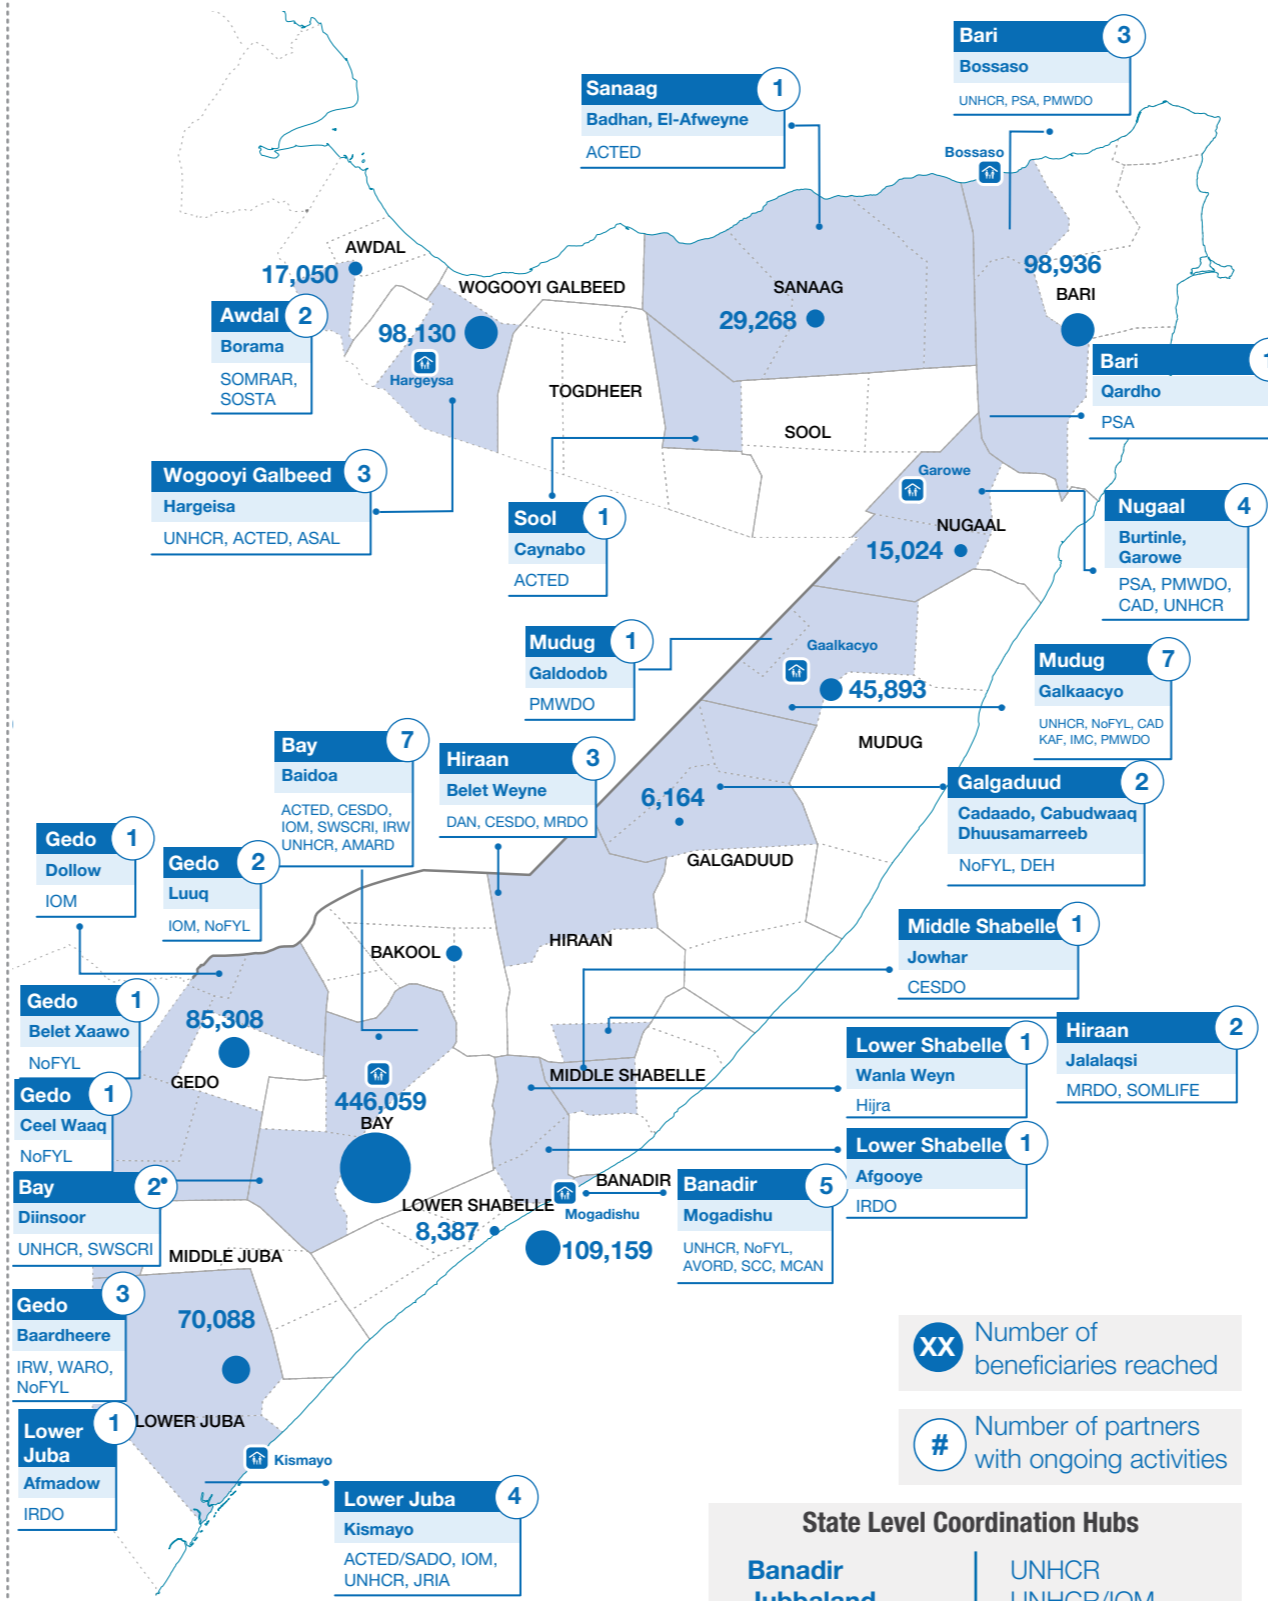

For more details on CFM please see the CFM Dashboard: <https://bit.ly/3DYAC5X>

Site improvement activities: CCCM Partners constructed two multipurpose community centers in Berdale to enhance access to information for IDPs, facilitate coordination meetings between partners, IDP community and local authority. The community structures also created room for complaint and feedback response mechanism as well as referral pathways. More than 600HHs were assisted with solar torches to improve safety, especially for women and girls in IDP communities, and provide the opportunity for school children to study at night. CCCM partner's outreach team conducted clean-up campaigns in Dollow and Baidoa IDP sites.

New Arrivals: CCCM Partners continue recording large numbers of displaced populations arriving in 345 IDP sites across 27 districts due to the continued impact of drought. At least some 45,253 New Arrivals were received in CCCM managed sites in the month of April as recorded through the CCCM New Arrival Tracking Tool.

For more details on new arrivals to IDP sites please see the New Arrivals Tool (NAT) Dashboard: <https://bit.ly/3HFYA7F>
