Objectives

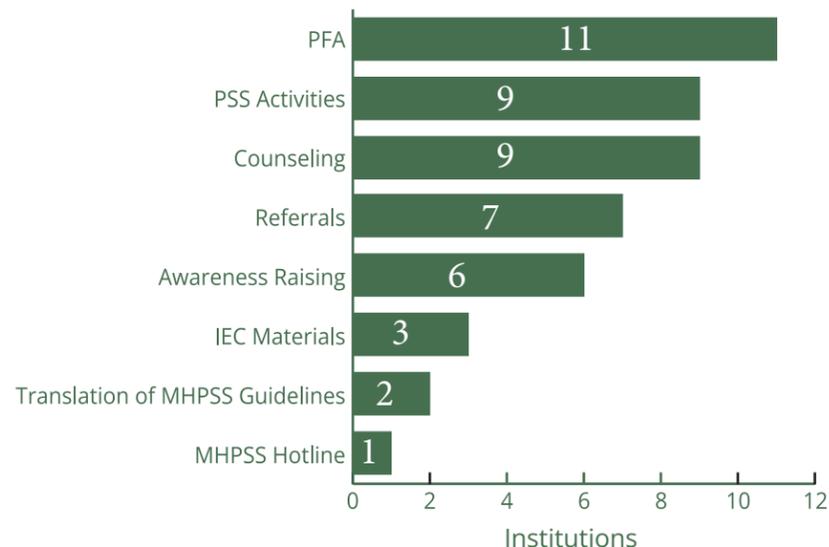

1. Provide a technical platform for better coordinated and focused inter-agency emergency response to the **mental health and psychosocial support (MHPSS)** needs of populations of concern in Hungary
2. **Strengthen safe and ethical service provision** aligned with Inter-Agency Standing Committee (IASC) standards, analysis and transparent sharing of data and information pertaining to MHPSS needs, priorities and activities in Hungary, including needs assessments
3. Promote and support **quality MHPSS interventions** through joint capacity building activities to ensure quality standards
4. Promote the **engagement and leadership of the government** and encourage the representation of diverse MHPSS partners and stakeholders within the task force, including government partners, UN agencies, and I/NGOs
