Patient Referrals and International Medical Evacuation

Collection Points
• Dnipro
• Kharkiv

Transition Points
• Vinnytsia
• Kyiv

Western Ukrainian Hubs
• Lviv
• Uzhhorod
• Chernivtsi
Current capacities

- 8 ambulances with ALS capacities
- 11 incoming ambulances
- 7 additional partners discussing support with EMT liaison and EMTCC should scale up be necessary
MEDEVAC from Poland

“Function” e-mail established in MoH for requests from medical practitioners for MEDEVAC out of Poland:

pelnomocnikUA@mz.gov.pl

Challenges:

Limited knowledge of this e-mail and related procedures among medical practitioners and hospitals in Poland
MEDEVAC from Ukraine, Polish perspective

- Establishment of MEDEVAC-hub with coordination-section in Rzeszow is strongly recommended
- EMTCC POL will support EMT-deployment for this function if approval for establishment comes from MoH
- EMTCC POL cooperate closely with EUCPT deployed to Poland
Thank you!
