| **Complaints Feedback Mechanism (CFM) Update and Plan for Community Consultations** | During the past 2 weeks, the network established multiple SEA complaint channels, including a dedicated hotline, email, and online SEA self-report form. Through partner engagement and community consultations, these reporting channels will be tested and adapted. UNHCR carried out a training for green line operators on how to handle PSEA disclosures, SEA reporting, protection referral mechanisms, and the use of an online data protected SEA complaints form. Guidance and scripts have been developed and will be continually updated and additional and refresher trainings to Green Line and other service partners who may receive disclosures will be provided. PSEA posters with PSEA awareness messages and linking to SEA CFM mechanisms were developed and printed. Posters are available in Russian, Romanian, and Ukrainian and are being distributed across the country, including cash sites. Connection was made with the WASH SWG for distribution, and it will be mainstreamed to all the other working groups. PSEA coordinator highlights there is a need to test this CFM's mechanisms through community consultations as PSEA awareness remains limited. Plan International as co-chair of the network encourages all the members to do joint advocacy efforts, to share the message on PSEA with every partner and also promote more participation of local partners within the network. | Email: moldova.help@unhcr.org

| **UN Special Coordinator on PSEA** | UNHCR together with the PSEA Network facilitated a high-level mission from June 14th-15th in Moldova. The visitors were Jane Holl Lute: Special Coordinator on Improving UN Response to Sexual Exploitation and Abuse, Diane Goodman: UNHCR’s Senior Coordinator on PSEA and Sexual Harassment, Wendy Cue: Senior Coordinator on Protection from SEA from OCHA, Eric Cottenoir: Senior Political Affairs Officer from OSCSEA, and Sofian Mossallam: Special Assistant/Political Affairs Officer from OSCSEA. Mission activities included a delegation and UN rep visit to Moldexpo cash, protection desk, blue dot, airlift, orange space, and other |
| ICVA, Interagency PSEA community outreach communication fund. | Alon Plato from ICVA presented the PSEA fund. The fund was established in 2020, as an UNHCR and ICVA initiative, after it was identified there was a gap identified globally on PSEA outreach. Communities are generally not aware where to report SEA cases.

The fund consists of $20,000 small rapid grants for local and national NGOs to create their own outreach communication on PSEA. The activities usually include a mix between PSEA, AAP and localization. In 4 to 5 months organizations can implement their projects in consultation with communities. The deliverables have to be open sourced online for the benefit of all working groups.

The call for application is opened until June 30th in August they are disposing the grants for the organization. Around 15 grants will be available.

Important points to be considered is that the application is only available in 3 languages (ENG, FR, SPA). This can limit the application of some local organizations. If possible, it is important to support local organizations in this regard. The deliverables of the projects can be in any language. The fund is not intended for international NGOs. | The application form is: https://forms.office.com/pages/responsepage.aspx?id=Ln70_cqdYEm33kihFhGnXGdJbckZS9JmR7oqe03eaRURjRWMkoyV1FWVVFhZQ0FOUTJSVD10RkxYRS4u

Deadline of the applications on June 30th.

If you have any question please contact, Kristin Schmitz, contact: schmitzk@unhcr.org |
| **Capacity Building and Training Update** | Last week, UNHCR, IOM and Plan International held a meeting to discuss details on future trainings. There is a number of trainings in the pipeline, mainly on PSEA awareness and training staff from partners organizations and service providers. Currently discussions are ongoing to carry out a training in Palanca and Otaci. If any organization would like to take part of the trainings, additional support is welcome. | If you have any question please contact, Kristin Schmitz, contact: schmitzk@unhcr.org |
| **Self-Assessment and Risk Assessment Plan** | PSEA network coordinator is preparing a Self-Assessment survey for organizations trying to understand their capacity and needs, in terms of SEA response. This, as a previous step to the risk assessments. Also, a desk review is being carried out analysing previous assessments, including the safety audit carried out by the GBV SWG and other relevant reports. | |
