BACKGROUND

• Since the onset of the Russian invasion, nearly one-third of Ukrainians have been forced from their homes. This is the largest human displacement crisis in the world today. Within Ukraine, over 7.1 million people remain displaced by the war. As of today, UNHCR estimates there are over 5.2 million refugees present across Europe, and over 3.5 million refugees from Ukraine have registered for temporary protection or similar national protection schemes in Europe. More than 8 million refugee movements out of Ukraine have been recorded since 24 February, while more than 2.8 million movements back into the country have been recorded since 28 February.

• Inside Ukraine, many people who are trapped are unable to meet their basic needs including for food, water and medicines. The delivery of life-saving aid remains challenging, with a lack of safe humanitarian access in areas where intense fighting is ongoing. UNHCR and partners continue striving to reach hard-hit areas with life-saving assistance as part of inter-agency humanitarian convoys.

Ukraine Refugee Situation
As of 21 June, the Office of the UN High Commissioner for Human Rights (OHCHR) recorded 10,308 civilian casualties in the country: 4,597 killed – including 313 children – and 5,711 injured. OHCHR notes that the actual figures are likely considerably higher. It reports that most of the civilian casualties recorded were caused by the use of explosive weapons with a wide impact area, including shelling from heavy artillery and multiple launch rocket systems, and missile and air strikes.

Four months since the war in Ukraine began, hostilities continue to escalate, particularly in Luhansk and Donetsk oblasts in eastern Ukraine.

The situation is particularly worrying in and around Sievierodonetsk, Luhansk oblast, with diminishing access to clean water, food, sanitation and electricity.

Ben Stiller, the actor, director, and long-time Goodwill Ambassador for UNHCR, visited Ukraine to give global visibility to the massive scale of displacement and humanitarian and recovery needs in the country. During his visit he met with the authorities emphasizing that sustained attention to and support for the Ukrainian people and communities that have been impacted by the war is crucial, especially in view of the approaching winter which will be very harsh for those whose homes are damaged or completely destroyed. Mr. Stiller also met with families in Makariv whose homes had been destroyed and visited a community centre in Irpin that UNHCR had rehabilitated in 2014 to serve as a meeting place for people who had fled from Donetsk and Luhansk.

In all the locations she visited (Chisinau, Warsaw, Rzeszów and Lviv), USG Lute met with PSEA Network members, Child protection and GBV actors as well as local authorities and refugees from Ukraine. From the onset of the Ukraine emergency, SEA risk mitigation was integrated into UNHCR's response in its operations, including at blue dots, border crossing points and cash enrolment sites.

Shelter

- UNHCR, together with seven partners is delivering a multi-pronged shelter response to support families whose homes have been damaged by hostilities or who cannot return home. Acute Emergency Shelter Kits, with items such as tarpaulin, wood and nails are being delivered to households to carry out provisional repairs. As of 21 June, 24,318 people have been reached with these kits.
- UNHCR is complementing government shelter repair programmes, by carrying out light and medium repairs in areas where the security situation has stabilized, namely in the Kyiv, Chernihiv, Sumy and Kharkiv oblasts with the goal of reaching 4,900 homes in the initial phase.
- In order to expand medium-term accommodation options for IDPs who are unable to return to their former homes, UNHCR is working with the local authorities to identify and refurbish reception and collective centres. The refurbishment works include structural repairs as well as the adaptation of spaces for older persons and people with disabilities. Water, sanitation and hygiene conditions are also being improved as part of UNHCR's winterization strategy, which involves the improvement and installation of heating systems and insulation. 104 assessments of collective centres have been conducted with local authorities and 8 buildings are already undergoing the initial stages of refurbishment and support. In addition, UNHCR partners are carrying out small refurbishment works in six centres in Zakarpattia.

- UNHCR continues protection monitoring at border crossing points and at registration centres, including the Uľba, Velke Slemence and Vyšné Nemecké border crossing points, at Košice railway station and at registration centres in Humenne and Michalovce. Key locations are visited three times per week to monitor access and reception conditions. To date, some 32 monitoring visits and assessments have been conducted. Regional Refugee Response

UNHCR has facilitated the establishment of coordination structures in line with the Refugee Coordination Model, in order to support the overall coordination of relevant governments. A Regional Refugee Response Plan (RRP) was developed in early March. A revised version of the RRP extending through December 2022 has since been published, bringing together the joint efforts of 142 partners. Inter-agency Refugee Coordination Forums (RCFs), led by UNHCR, and specific sectoral groups, have been established at country level in Belarus, Bulgaria, the Czech Republic, Hungary, the Republic of Moldova, Poland, Romania and Slovakia to support the efforts of the concerned governments. The structures are intended to be agile and will be adjusted as the situation evolves.

UNHCR leads the Refugee Coordination Forum (RCF) at country-level in Hungary to ensure a harmonized response within existing government structures and among inter-agency partners, NGOs, volunteers and other stakeholders, with associated working groups (Protection, including Child Protection and Education, and Basic Needs – including Shelter, Food, and Non-Food Items) and two cross-cutting task forces (the Prevention of Sexual Exploitation and Abuse and Mental Health and Psychosocial Support) to effectively coordinate inter-agency partners’ response.

In Moldova, an Inter-Agency Coordination Group has been established with more than 70 participating members. UNHCR leads the RCF and co-chairs the Cash, Education, Information Management (IM), Protection, Accommodation & Transportation, and Logistics & Supply Working Groups; GBV and Child Protection Sub-Working Groups; the Gender Task Force; and the PSEA Network. The Government of Moldova has established a Single Emergency Management Centre under the Prime Minister’s Office, where UNHCR represents the Inter-Agency Coordination Group, ensuring coordination between the two.

UNHCR and UNICEF are jointly establishing ‘Blue Dots’ in multiple countries receiving refugees fleeing Ukraine. To date, a total of 40 are already operational including in:

- Bulgaria 5

UNHCR is rolling out an accessibility checklist to make sure Blue Dot locations are accessible to everyone, including persons with disabilities. UNHCR is developing a joint Monitoring Framework and Feedback and Complaints Mechanism for all Blue Dots, together with UNICEF and other partners.

UNHCR leads the Protection and Shelter Clusters as well as the Camp Coordination Camp Management (CCCM) Cluster which was activated as of 1 March in Ukraine. In addition, as co-lead of the Logistics Working Group in Ukraine, UNHCR is facilitating the movement of humanitarian convoys in coordination with OCHA. The UNHCR-led Protection Cluster has established a national coordination office in Lviv and plans to establish sub-national coordinators in Dnipro, Lviv, Uzhhorod and Vinnytsia. Both the Child Protection and GBV Sub-Clusters are similarly expanding their presence.
In Poland, UNHCR leads the overarching refugee coordination structure in Poland, in support of the Government-led response. The thematic sector working groups include Protection (with sub-sector working groups on Child Protection, Gender-based Violence, Counter-trafficking, Third-Country Nationals, and Mental Health and Psychosocial Support); Health; Education; Shelter; Basic Needs, including Food Security, Water and Sanitation and Core Relief Items; and Logistics. In addition, there are transversal working groups on Cash, Information Management, Accountability to Affected Populations and Prevention of Sexual Exploitation and Abuse.

In Romania, UNHCR has set up the Refugee Coordination Model structure made up of eight sector Working Groups, one Anti-Trafficking Task Force and a PSEA network, which are co-led by UNHCR and other UN agencies, government counterparts and NGOs. UNHCR leads the Protection Working Group and PSEA network, and co-leads the Child Protection Sub-Working Group, Information Management Working Group, Cash Working Group and Basic Needs Working Group. Leads and co-leads attend the governmental Working Group, Cash Working Group and Basic Needs, Protection or similar counterparts and NGOs. UNHCR leads the Protection Model structure made up of eight sector Working Groups, one Anti-Trafficking Task Force and a PSEA network, which are co-led by UNHCR and other UN agencies, government counterparts and NGOs. UNHCR leads the Protection Working Group and PSEA network, and co-leads the Child Protection Sub-Working Group, Information Management Working Group, Cash Working Group and Basic Needs Working Group. Leads and co-leads attend the governmental sectoral Working Group meetings. As such, governmental and humanitarian coordination structures are operating to mutually reinforce each other, under governmental leadership. A total of 23 international and national partners are part of the Refugee Response Plan for Romania.

In Slovakia, a response-wide Refugee Consultation Forum (RCF) is in place that meets alternatively in Bratislava and in eastern Slovakia and is co-chaired by the Government and UNHCR. Within the RCF, seven working groups and sub-working groups are operating (Anti-Trafficking, Cash, Child Protection, Health, Information Management, MHPSS, Protection and Inclusion) as well as a UNHCR-led PSEA Task Force while Accountability to Affected Persons (AAP) is mainstreamed across all groups and made an RCF standing agenda item. UNHCR also convenes a regular humanitarian and development Donor Group. In early June, the Prime Minister announced the reactivation of a Steering Committee dedicated to integration. This body, created in 2014, to ‘find solutions for foreigners and looking at ways to integrate them’, is now being reactivated and tasked with the inclusion and integration of Ukrainian refugees. RCF partners are furthermore supporting the ongoing engagement of the Slovak Republic with the Global Compact on Refugees (GCR) as a means of systematizing and sharing good practices with other countries facing similar challenges, and in view of cultivating pledges related to its national response for the Global Refugee Forum in 2023.
