Estimated Gaps of services in Sites

As the cluster has the site reporting tool data for around 60% of the sites, using that we could also estimate the gaps for the remaining nearby sites in each subdistrict/district, the cluster is moving to a monitoring to which would give a larger insight on the situation in sites.

The Referral and Escalation System (RES) is to track site-level sectoral gaps until their resolution and to enforce the roles and responsibilities of each coordination structure involved in the process. This Referral and Escalation report captures only represents gaps in covered sites which were hard to solve by partners, and then were raised through the CCCM Referral and Escalation System, so the actual gaps are much higher on the ground.

Reported Referrals timeline

Reported Referrals per Hub

Population Referrals per Hub

Reported Referrals per Sector

Population Referrals per Sector
Current Referrals in the system

Pending Referral Coordination Levels

- **WASH**: 77 (32% Pending)
- **FSAC**: 72 (74% Pending)
- **Shelter and NFI**: 51 (21% Pending)
- **Protection**: 44 (7% Pending)
- **Education**: 17 (55% Pending)
- **Nutrition**: 7

These represented gaps are only those that were hard to solve by partners in the field, so they raised these gaps through the CCCM Referral and Escalation System, many of the represented referrals are currently being coordinated for at all levels.

**FSAC**

Pending Gaps Types

- IDPs not included in distribution / assistance list (caseload / individually / household) 100%

**SHELTER & NFI**

Pending Gaps Types

- Non-Food Items (incl. heating/cooking stoves and fuel, lighting, etc.) 40%
- Shelter maintenance and upgrade 32%
- Emergency Shelter Kit 28%

**HEALTH**

Pending Gaps Types

- Need for wheelchairs 100%

**PROTECTION**

Pending Gaps Types

- Lighting issues on supply or maintenance 57%
- IDPs lacking / missing legal documentation 29%
- Issues in capacity to report and support vulnerable cases 14%

**EDUCATION**

Pending Gaps Types

- Need for temporary additional classrooms 67%
- Overcrowded classes 33%

**WASH**

Pending Gaps Types

- Need for latrine
- Rehabilitation/maintenance 33%
- Need for transitional latrine setup due to relocation measures 31%
- Distance to water point too far from site (more than 30 min walking distance) 16%
- Need for water points maintenance 8%
