Action Points:

- To set a timeframe of 24 months after the assistance or 6 months after completion of the project for keeping data in the de-duplication database
- To have the data-sharing agreement (DSA) as a joint agreement between members, rather than bilateral between UNHCR and other organizations
- UNHCR to translate the SOP and possibly the DSA into Romanian, later on, to be shared with local NGOs
- Methodology
- 5-minute per member briefing on the pilot and lessons learned be allocated for the next meeting for interested organizations (please reach out to the next chair – Mercy Corps)
- UNHCR to share the confirmation/written instruction on the increase of transfer value for refugees from 540 RON to 568 RON (*side note: the source of this news was a local partner and*

UNHCR is having it confirmed by GII and will revert). Once the transfer value is confirmed, CWG members aim to adopt the new transfer value for MPC as soon as possible based on their funding and programmatic consideration.
