Agenda item	**Summary of discussions**	**Action points**
Welcome and action points	- Action points from previous meeting were reviewed - The meeting began with the presentation of the participating organizations and with discussions about their progress in the last two weeks and the problems they faced related to MHPSS field.	- N/A
Emergency Response Plan	- **Researched conducted and needs assessments**: WHO (Iana) presented the - preliminary findings of the Behavioural Insights research regarding the refugees access to servives..	- The complete analysis will be done by the end of July and we be presented to the stakeholder meeting.

	- **World Vision (Phiona)** appreciated the report, because there is always a need for this type of information set so that it can be helpful to us doing meaningful programming. - **WHO (Sorana)** emphasized some of the research findings that NGO's working in the Centers mentioned as well, they encountered are saying that people are changing their attitudes towards refugees and their availability is decreasing, people delivering services are getting tired. - **PARENTIS (Lioredana)-** presented their activities- they started as implementing partners of ACF to deliver MHPSS services in Iasi at a refugee center and working towards allowing access to the program for refugees in the host communities as well transiting into accepting refugees from host communities in Iasi and around Iasi into the MHPSS program. The team is fully trained now. And starting from this week they started the first baby massage with Mother group. - **UNICEF (Hendrikus)** mentioned their program educating parents how to deal with children and the typical problems they have. So they have organized trainings for trainers with specialists from the UK, in the entry points at the border. When parents enter the country they get an information package and if they need support, they also referred to the appropriate services.	WHO will present the specific key recommendations when the study will be compleat. WHO has upload on the One drive the data gathered so far in relation to Referral Pathways organized by type of beneficiaries and the types of services offered

	- WHO presented the opening of the MHPSS Center at Romexpo and the meeting with Councilor of State Madalina Turza.	
Webinars/ Workshops		- N/A
