**CCCM YORKON REFERRALS AND ESCALATION REPORT: JULY 2022**

**CCCM YEMEN REFERRALS AND ESCALATION REPORT:**

A look back and forward at the week and their implications onto the site and responsibilities of the concerned humanitarian actors involved in Yemen. The referral and escalation report reflects only movements in site level issues in target sites in response to identified gaps. The data included in the CCCM National Referral System, in the current report, are from May 2020-July 2022. These represented gaps only those issues facing volunteers on the ground. For some issues, the gaps through the CCCM National Referral System, many of which are represented, are being fully coordinated by the humanitarian actors.
