Winterization & Recalibration:
See agenda point below
REACH:
• **MSNA**: the questionnaire has been finalized and some minor changes occurred, and the team is proceeding with the coding of the questionnaire. Data collection is planned to start on 25th August and will last one month, the first results are going to be out in the beginning of October.

The questionnaire as well as the TOR (Terms of Reference) will be shared on the operational data portal asap.

• **Site monitoring:**

There is still a need for agencies to support data collection. 2400 collective sites have been identified. IOM and IFRC have expressed their availability. Other organizations who are working on such sites are welcome to contact Jan Rusek at jan.rusek@reach-initiative.org or Thomas Rommel at rommel@unhcr.org to discuss how they can contribute.

**Assessment Registry**
See agenda point below

### 3. Registration of Assessments – Update on Kobo Forms

UNHCR operations, sectors, and clusters ongoingly develop an assessment strategy that is clearly linked to decision-making processes and other existing information systems. By linking several types of assessments within one assessment strategy, UNHCR can significantly improve response activities and our operational relevance. Assessment preparedness activities involve Maintaining an updated assessment registry that is consolidating the list of assessment and data initiatives for coordination and harmonization purposes.

**Poland IMWG: Assessments and Data Initiatives dashboard as of 25 Aug 2022**

![Assessment Registry Table]

Recently we have put a few additional questions on the form:

1. Geographic structure has been changed
2. Unit of measure has been added to "Who" section
3. Primary or secondary data collection category.

We highly encourage you to fill in the form.

### 4. Activity Info – Presentation of reported activities
• Agencies from 10 sectors have reported (100%)

• 30 different indicators (71%)

• 26 agencies reporting (23%)

• Dashboard to be available by 15.09.2022

We should try to promote reporting via Activity Info at each level (national as well as field level) and among partners of IMWG members. The objective is to be able to show a complete picture of the response. The Manual will be translated into Polish and UNHCR will offer training sessions in English as well as polish until the next reporting deadline (10. September 2022).

5. RRP 2022 – Recalibration & Winterization

The Recalibration exercise was carried out by 18 agencies until 25th of August. The deadline has been extended until 26th August 2022. The initial results show minor adjustments but the overall objectives, funding levels and target numbers remain unchanged.

More details on each element are shown in the attached presentation.

6. AOB

Registration of Assessments – Update on Kobo Forms

• UNHCR operations and sectors ongoingly develop an assessment strategy that is clearly linked to decision-making processes and other existing information systems;

• By linking various types of assessments within one assessment strategy, UNHCR can significantly improve response activities and, ultimately, our operational relevance;

• Recently we have put few additional questions to the form:

  1) Geographic structure has been changed;
  2) Unit of measure has been added to "Who" section;
  3) Primary or secondary data collection category.
Activity Info – Presentation of reported activities

- Agencies from 10 sectors have reported (100%)
- 30 different indicators (71%)
- 26 agencies reporting (23%)
- Dashboard to be available by 15.09.2022
RRP 2022 Recalibration and Winterization update on participation and process

- 18 Agencies submitted update on RRP & Winterization
- Overall budget needs remain stable
- No fundamental adjustments noticed
RRP 2022 *Recalibration and Winterization*

update on participation and process

- Cash will be key modality

- CWG working on clearer targeting (rural vs. urban, collective sites vs. rented accommodation)

- Energy prizes & access to heating/Shelter key issues to address
