AAR Japan	2
Solidarite Internationale	1

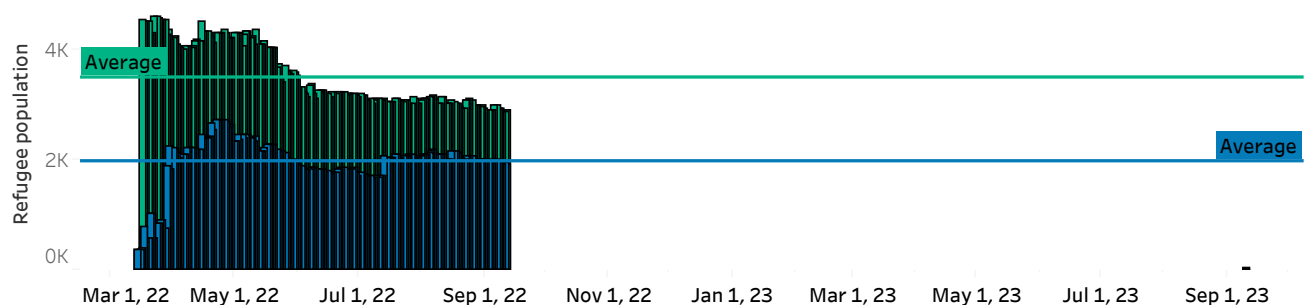

REFUGEE POPULATION REACHED SINCE MARCH 15

Total meals distributed by WFP contracted partners*	1,034,055
Total meals covered by the food security WG	1,722,039

*Number of hot meals is an **estimate** based on these assumptions: 1. Each refugee receives three meals a day 2. FSWG relies on the accuracy of the data reported by FSWG members, including operational statistics. 3. Data is recorded on daily basis, except for weekends (due to unavailability of the data), for which data of a previous date is taken as placeholder value.

REFUGEE POPULATION REACHED PER DAY (since March 15)

WFP is working with ACTED and Helpage as cooperating partners.

- Total refugee population covered by WFP contracted partners*
- Total refugee population covered by the food security WG

The data presented in this dashboard is updated at the end of every day and is collected through the food security sub working group. Beneficiaries are counted by adding up the population of the center covered by the members of the sub working group. This sum is extracted everyday but remains an estimation. This count is desegregated to estimate the population covered by the working group and by WFP and its contracted Cooperating Partners. The number of centers covered might vary in the daily and the global count as several partners can be covering the same center. **Contact Info: Genia@wfp.org**
