\*\* The estimated proportion of 18-24 youth enrolled in higher education or technical and vocational education and training (TVET).

Gross and Net Enrolment Rates (GER and NER) comparison by gender and by school year

**UNHCR'S EDUCATION RESPONSE AND ASSISTANCE**

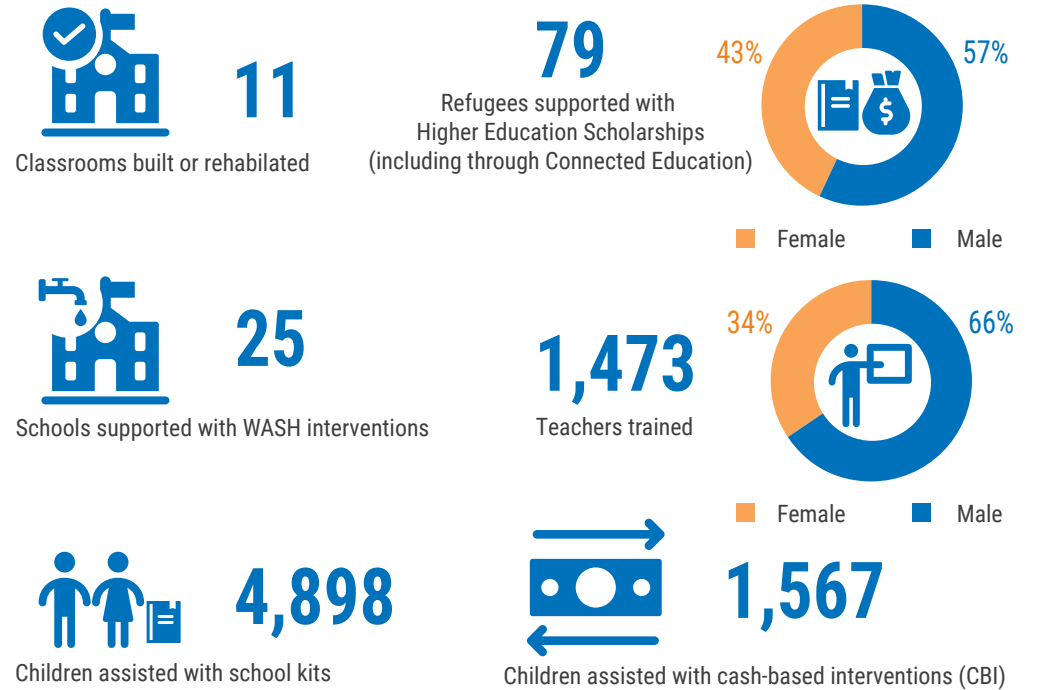

Children/youth reached by level

Children/youth reached by status

**KEY ACHIEVEMENTS**

**KEY HIGHLIGHTS**

- UNHCR partnered with ProFuturo Foundation to provide access to connected education, build teachers' capacity in digital education, and improve quality primary education for refugees in Cross River and Benue State. The majority of children supported live in refugee settlements due to budgetary constraints as they are more easily accessed by UNHCR and its partners.
- Refugee students in the host communities receive very little support due to limited funding and because they are dispersed across several communities in four refugee hosting states typically in rural underdeveloped and sometimes hard-to-reach locations. About 61% of the total refugee population live within these host communities yet are mostly left to fend for themselves.
- Huge gaps remain in tertiary education access as support is limited to DAFI, Progetto Mediterraneo, and UNICORE with limited scholarship opportunities.
