UKRAINE REFUGEE SITUATION RESPONSE

Coordination: The Government of Greece is coordinating the response to refugees from Ukraine with the support of UN agencies, NGOs, local authorities, civil society organizations, volunteers, and the private sector.

Needs: Long-term accommodation, finding work, accessing healthcare and education are among the top concerns of Ukrainian refugees in Greece.

Evidence-based advice: UNHCR led an inter-agency assessment of the needs of Ukrainian refugees to help inform the Government and organizations on how to address them. The exercise resulted in a **dynamic monitoring tool** available online.

Support to the most vulnerable: UNHCR scaled up its support in protecting children, preventing gender-based violence and communicating with refugee communities.

Key Priorities

- **Institutional strengthening:** UNHCR pilots good practices, deploys staff and provides training and advice to help the State strengthen systems and expertise on asylum, reception, and durable solutions.
- **Advocacy:** UNHCR raises with the authorities and key actors critical matters that affect the rights of refugees and asylum-seekers, including on access to territory and fair procedures, to trigger legal and policy change.
- **Protection:** With staff at six field locations and through a dedicated helpline, UNHCR monitors the situation of asylum-seekers and refugees, provides support to asylum-seekers with information sessions and makes interventions and referrals to services where they can get expert help.
- **Legal aid:** UNHCR offers personalized legal aid via specialised partners to help asylum-seekers and refugees obtain equal access to their rights.
- **Integration:** Engaging with refugee communities, UNHCR identifies skills and experience, maps intentions and needs and works with the public and private sector to create livelihood opportunities.
- **Persons with specific needs:** To those most at risk, such as unaccompanied children or survivors of sexual violence, UNHCR provides psychosocial support, emergency shelter and/or foster care. UNHCR also links refugees with disabilities to the national social protection system and job offers.
- **Community empowerment and self-reliance:** UNHCR mobilizes refugees to create support networks, from addressing mental health issues to training youth to help their peers.
- **Relocation:** UNHCR supports the relocation of unaccompanied children and other vulnerable groups from Greece to other European States.
