LOCAL REFUGEE COORDINATION FORUMs (LRCFs)
Local Refugee Coordination Forums (LRCFs) now are to be found at Cahul, Comrat, Balti, Palanca, Otaci, and Ungheni. Each LRCF presents an opportunity to hear the voices of local coordination in the form of local government and locally based organization.

Each meeting had the participation of local authorities, international and national organizations, refugees and other relevant actors.
The common themes across the country are:

• The oncoming winter, coupled with the realistic threat of increased fuel costs, made winterization a top concern; many local centers and NGOs will be challenged by utility costs and may have to close.

• The local governments reinforced the need to strengthen local communication and humanitarian coordination between actors of the local response.

• Tensions between the host-community and refugees are rising, the support to the refugees is larger than the support to the local community: Protection Sector conducted an assessments.

• Information needs about services (who is doing what, where), rights, and duties for refugees.
Main Issues:

• **There were challenges with food assistance:** The Accommodation and Transport Sector (Food security Working-Group) responded to the situations, engaging partners to address it.

• **Necessity of Non-Food Items (NFIs) and hygiene kits** distribution to the refugees and host communities. According to the Accommodation and transport sector, the Winter Planning NFIs distribution in the following weeks will take needs into consideration.

• **Requests for a Plan of Action** per sector: The Inter-Agency Coordination (IAC) team will conduct a specific Workshop to elaborate it in November 2022.
Main Issues:

- More information on Temporary Protection was requested by the Municipality and the refugees.

- More information and activities on local integration were required by the Municipalities.

- Many local centers and NGOs will struggle with utility costs and may have to close during winter.
Main Issues

• Need to **update SOPs** with the arrival of new actors and change of staff: Activity to be held during the next LRCF meetings.

• Need for **CASH enrollment** in some city: The CASH Sector is assessing support possibilities.

• **Information** on refugees, services, and the local community was requested by the Municipality: Inter-Agency Coordination Team (Information Management) is developing tools to collect data to present in the following weeks.
Chişinău

General Context:

• There is no LRCF in Chisinau, although it is required.

• 70% of the refugees in Moldavia are living in Chişinău. Chişinău is the city with the higher number of refugees in Moldova.

• Chişinău has a high concentration of services from the government and organizations (local and international).

Objective is to start Chisinau Coordination Forum in November.
Scope of the Response

The Country RRP includes the response delivered by UN Agencies and civil society and other relevant stakeholders in the country. This goes from humanitarian assistance to medium-term responses focused on resilience and solutions.

It should be noted that the RRP is not itself a (pooled) fund and having activities in an RRP is not a guarantee of receiving funding. Nonetheless, it is important to keep in mind that donors rely on RRP information when allocating/disbursing funds, and it also supports collective advocacy towards resource mobilization. Even if you are funded, we request you to submit your project to the RRP to ensure a comprehensive overview of the response by all actors and proper coordination.
Timeline

17 October
RRP Submission Matrix will be shared with RCF Partners.
Project Submission Workshops (online)

23 October
Deadline for Partners to share RRP Submission Matrix filled with the Inter-Agency Coordination Team.

26 October
Submission of ballpark figures to UNHCR Regional Office (Planning Figures, Targets and Funding Requirements)

In November, an online platform (ActivityInfo) will be open where there will be a possibility to adjust project submissions.
