

A group of women, likely in a humanitarian setting, are sitting on the floor. They are wearing headscarves and traditional clothing. One woman in the center is smiling broadly. They appear to be engaged in a communal activity, possibly a craft or educational session. The background is slightly blurred, showing other people and a simple environment.

# PREVENTING AND RESPONDING TO CHILD LABOUR IN HUMANITARIAN ACTION

---

A global inter-agency toolkit with practical tools  
and considerations for the context of Moldova

# TODAY'S OBJECTIVES

To become familiar with global trends and facts preventing and responding to child labour
