Meeting participation of respondents

Satisfaction

Satisfied with meeting coordination

Satisfied with the agenda

Agenda - content suggestions

- better structuring between broader, strategic topics and topics related to daily operations
- involvement of 'crucial stakeholders'
- more 'technical discussions on criteria for assistance'
- coordination and exchange of information among organizations
- referral pathways
- joint reporting mechanisms for complaint and feedback
- update on the situation at the border
- views of local Ukrainian organizations
- winterization
- preparedness

Meetings - coordination suggestions

- more interactive and inclusive meetings
- partnership approach
- more predictable scheduling

Overall satisfaction with meetings

Frequency and duration

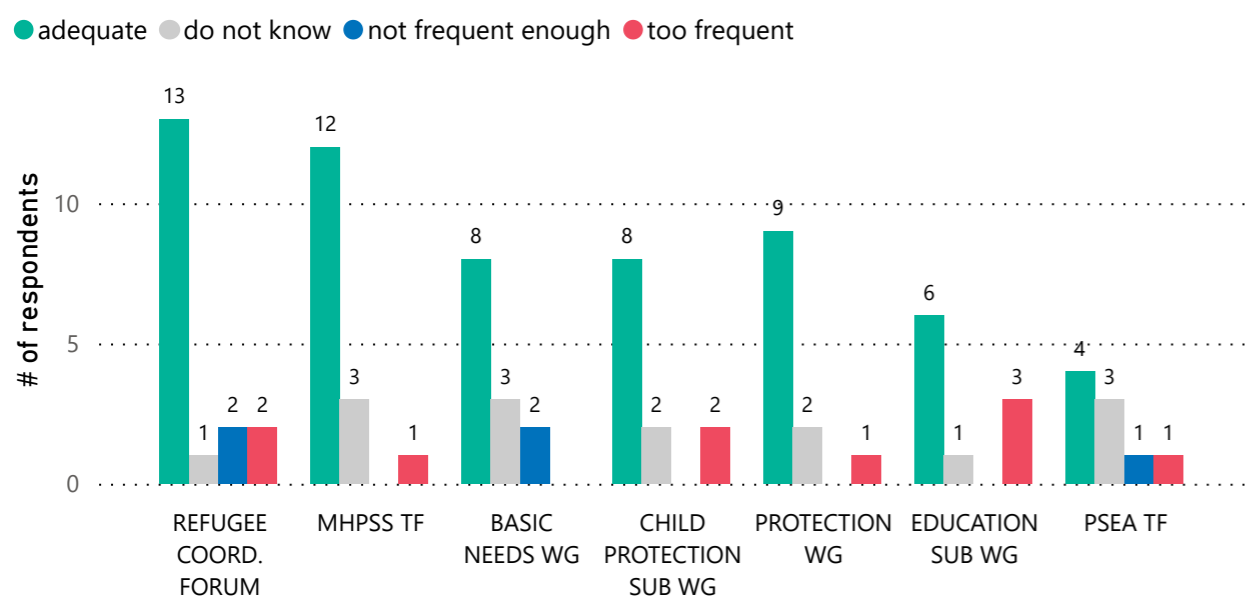

Frequency of meetings

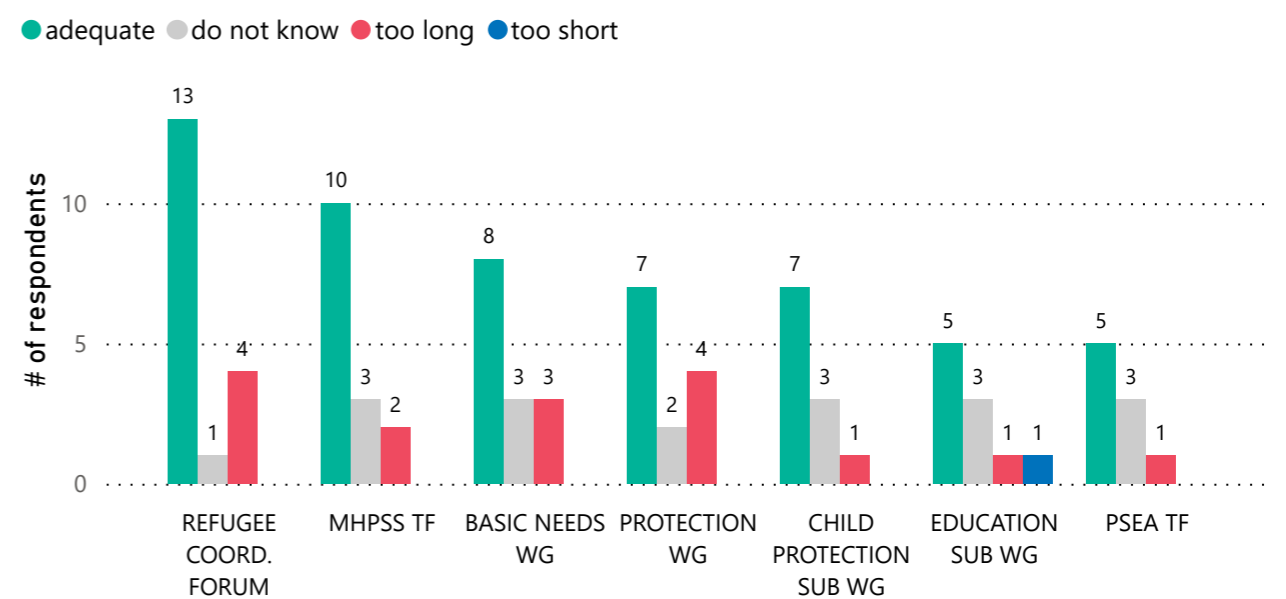

Duration of meetings

Frequency of meetings (by meeting)

Duration of meetings (by meeting)

Translation need

Simultaneous translation needed (by partner)

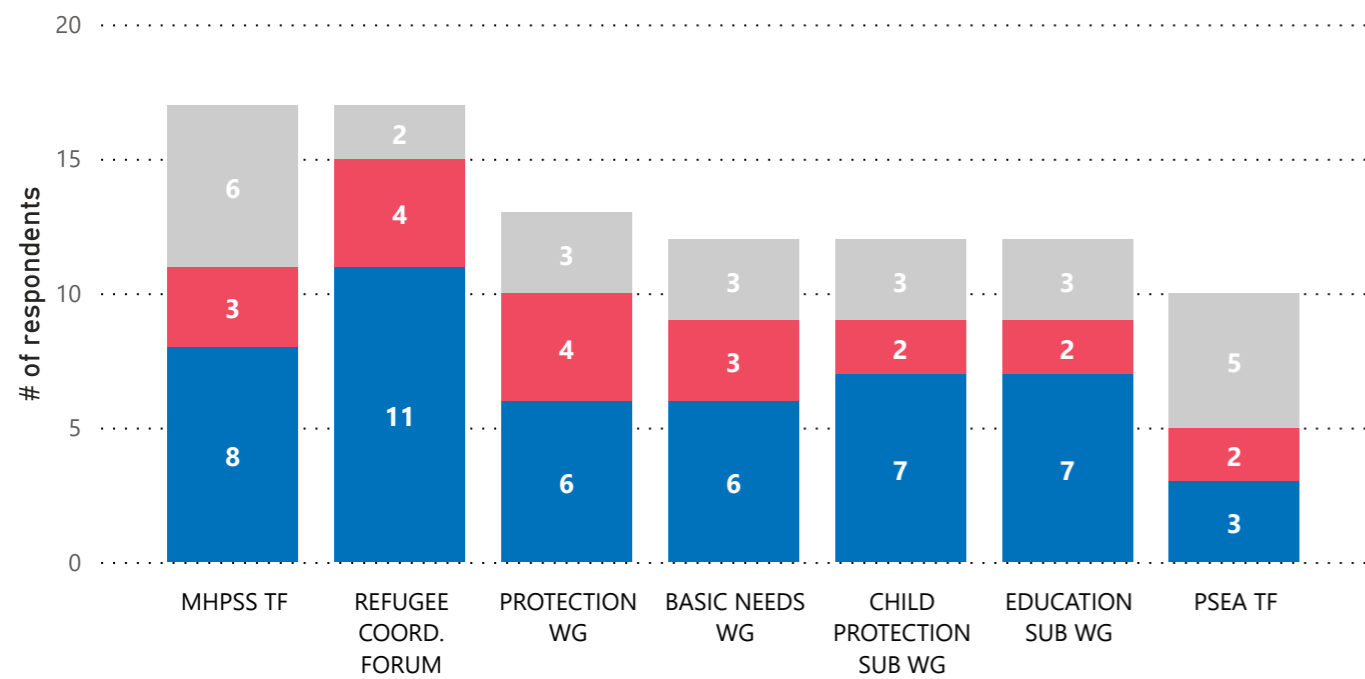

Simultaneous translation needed (by meeting)

Location

Location of meeting appropriate?

do not know (grey) no (red) yes (blue)

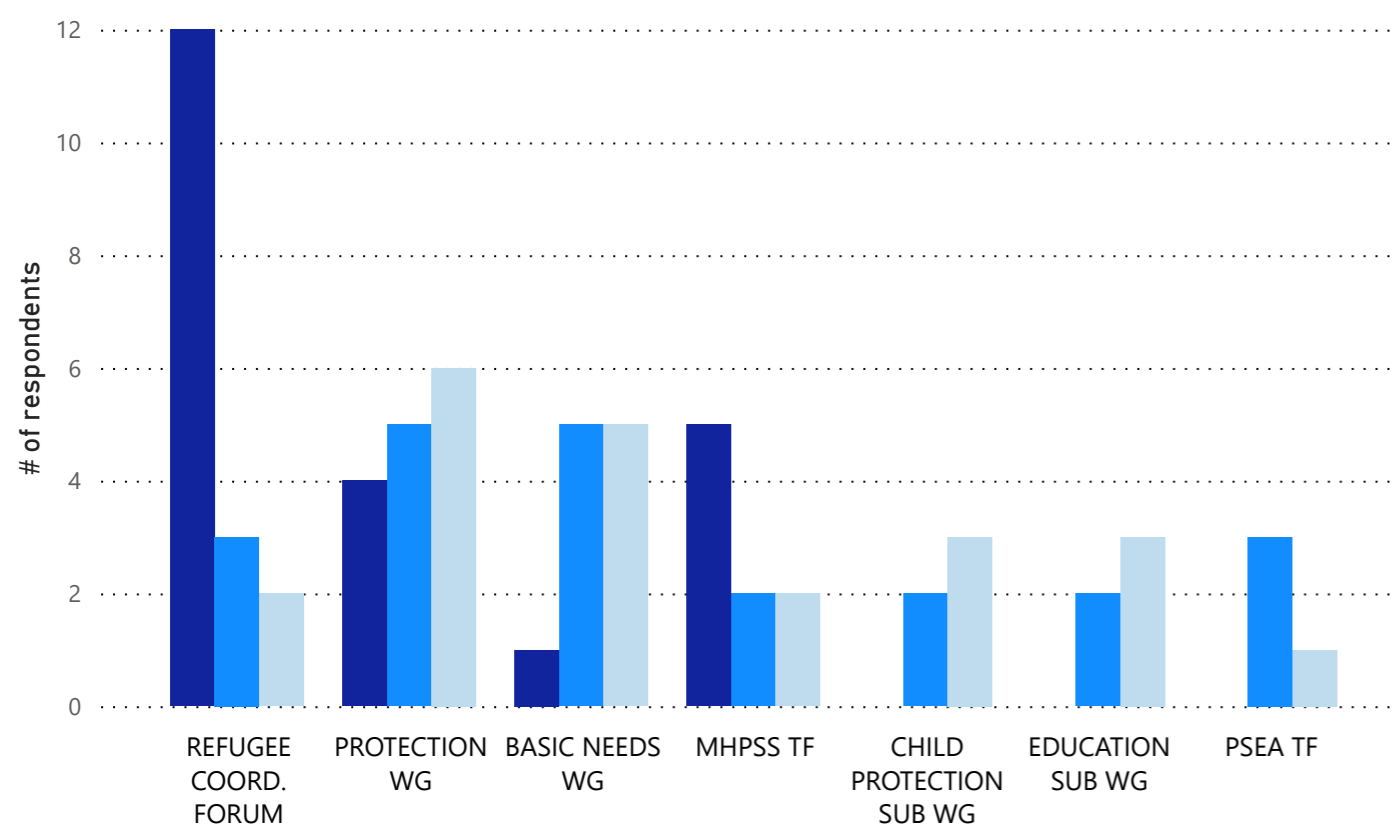

Location - issues and suggestions

- Duna Tower is 'far' from the city center/offices of partners
- Duna Tower is 'difficult to reach and access'
- More in-person meetings recommended

Relevant coordination bodies

Most relevant bodies for respondents' intervention

1st choice (dark blue) 2nd choice (medium blue) 3rd choice (light blue)

Main issues to work on

ASSISTANCE

- access to healthcare
- food and non-food provision
- helping with concrete issues, e.g. providing translators
- more joint information campaigns in coordination with or targeting non-humanitarian actors particularly outside of Budapest

COORDINATION

- better direct communication between partners
- Child Protection WG and Education WG should be merged again. A workshop-like, issue-based structuring of the cooperation would be more effective.
- circulation of more detailed information
- common action plans on problematic issues
- cooperation between different WGs
- coordination of activities and services
- less 'rotation' of UNHCR senior staff/chairs
- less bureaucracy/working load imposed by UNHCR
- more jointly organized advocacy initiatives
- more practical discussions and follow-up
- theoretical and practical cooperation

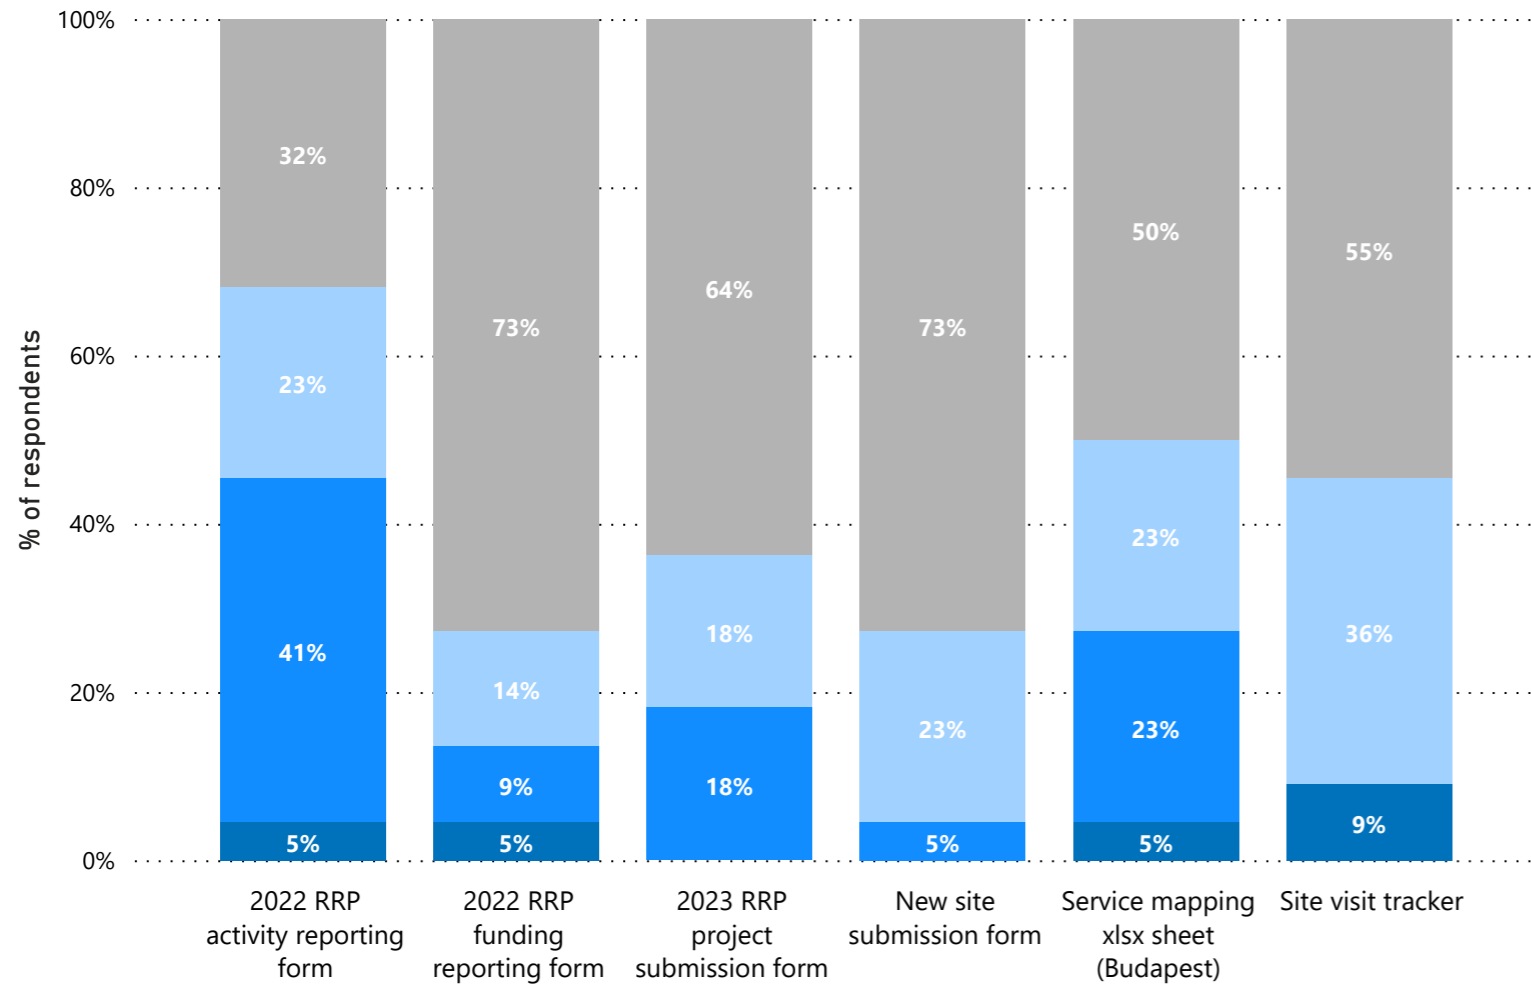

INCLUSION

- approaching more actors
- involvement of government
- involvement of local actors
- involvement of municipalities
- involvement of state agencies
- more room for local NGOs to participate and bring their insights

Information Management / Tools

User frequency of IM tools

● 1 - weekly ● 2 - monthly ● 3 - quarterly ● 4 - never

User experience of IM tools

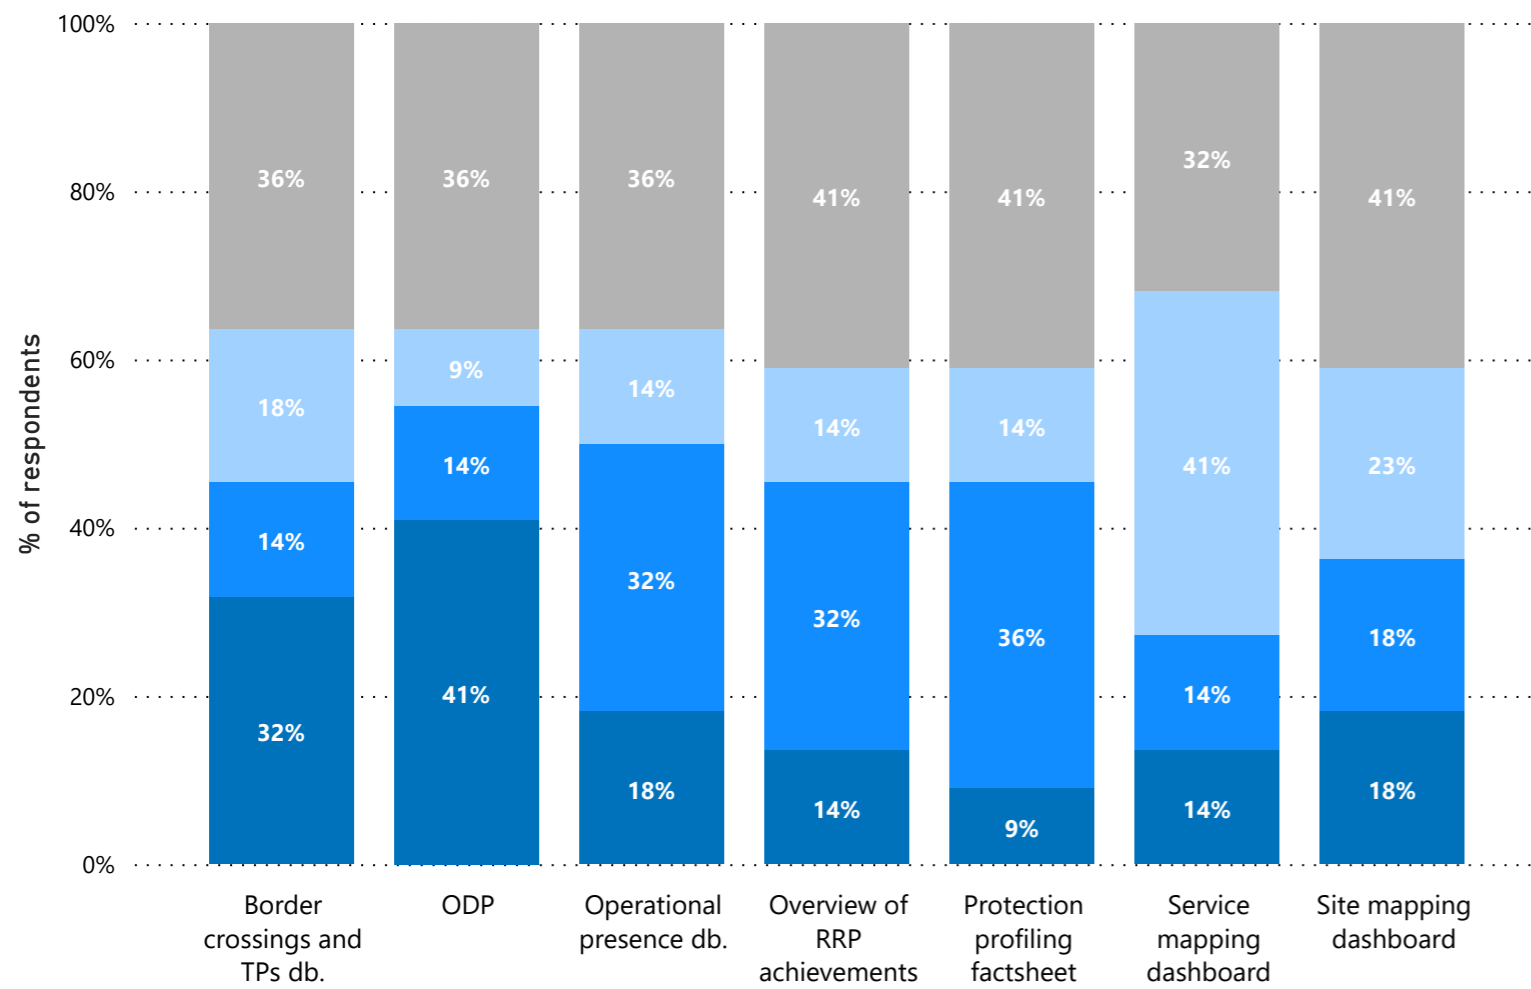

● 1 - bad ● 2 - neutral ● 3 - good

Information Management / Products

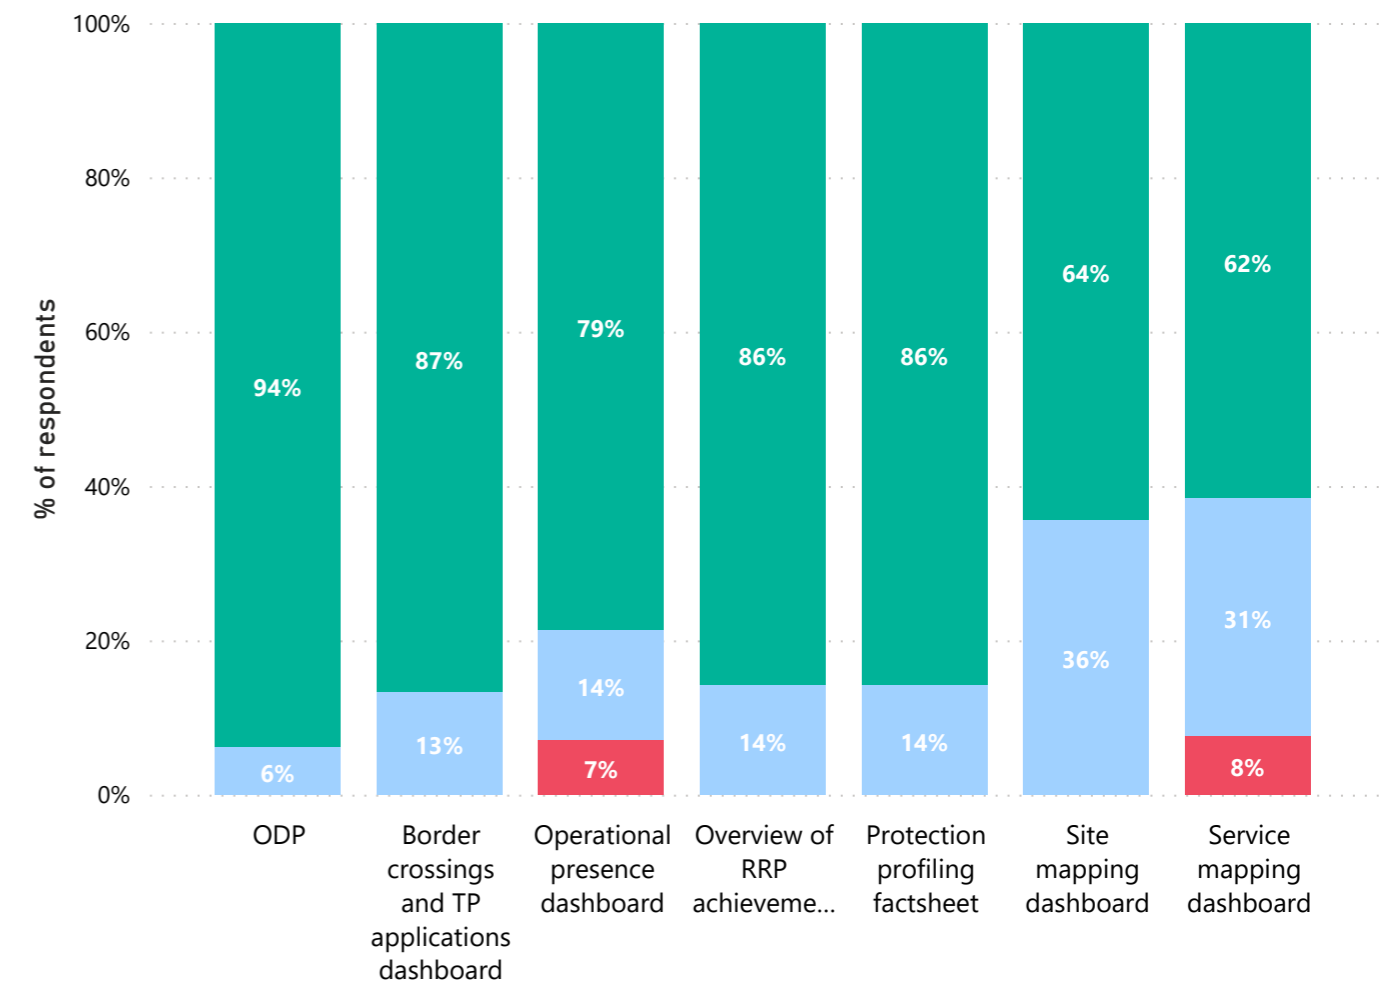

User frequency of IM products

● 1 - weekly ● 2 - monthly ● 3 - quarterly ● 4 - never

User experience of IM products

● 1 - bad ● 2 - neutral ● 3 - good

SUGGESTION FOR PRODUCTS

- border crossings data also in Excel format
- completion of service mapping, including validation of information
- include contact details of focal points in the Operational Presence dashboard or ways to reach out to the different organizations on operational level (maybe by connecting it with the service mapping)
- 'one-stop online space instead of multiple tools' for more user convenience
- promote / raise awareness of the different tools and products (eg. explain purpose of the Site mapping dashboard)
- technical training on accessing tools and products
