Türkiye-Syria Earthquakes 1 week in: 158,000 Evacuated, More than one million homeless in the region

International Blue Crescent Relief and Development Foundation would like to extend our sincere condolences to all those affected by the earthquakes this week. IBC employees in the region are safe and accounted for, though some have lost family members and loved ones and saw their entire homes destroyed. Thank you to all who are mobilizing and to the heroic search and rescue teams on the ground. Immense and continued cooperation is needed to prevent further loss of life and suffering.

IBC and partners support the Sanliurfa Exhibition Center, now home to approximately 9,000 earthquake survivors

Day 8 Developments

One week after 7.7- and 7.8-magnitude earthquakes hit southern Türkiye and northern Syria on Monday February 6th the lives of 36,070 people have been claimed so far, with that number likely to double in the ongoing recovery efforts.[1] According to the Ministry of Interior Disaster and Emergency Management Presidency AFAD with latest information from the General Directorate of Emergency Health Services (SAKOM), in Türkiye 31,643 people have lost their lives in Kahramanmaraş, Gaziantep, Sanliurfa, Diyarbakir, Adana, Adiyaman, Osmaniye, Hatay, Kilis and Malatya and Elazig[2]. Meanwhile the Assistance Coordination Unit (ACU) in Northwest Syria reported 4,427 deaths, with the most affected districts of Harim/Idleb with 2,304 and in Afrin/Aleppo 1,140 lives lost.[3] At least 80,000 people survived with injuries in Türkiye with the most affected provinces by deaths being Hatay, Kahramanmaras, and Gaziantep, and in Syria 8,551 reportedly injured with the most affected districts as 1,200 in Harim and 629 in Idleb, capital of Idleb governorate. AFAD has evacuated 158,165 survivors so far from the 10-city disaster zone under state of emergency in southern Türkiye and over 1,000 Syrian nationals who lost their lives in Türkiye have returned to Northwest Syria for burial.

[1] https://balkaninsight.com/2023/02/13/turkey-quake-cost-put-at-84-billion-and-72000-lives/
[2] https://en.afad.gov.tr/press-bulletin-29-about-the-earthquake-in-kahramanmaras
[3] https://acu-sy.org/periodic_imu_reports/syria-earthquake-situation-update/

The back-to-back quakes which spread across a 100-kilometer radius just hours apart have affected some 20 million people in the region including 7.2 million (2 million severely) in already war-torn Northwest Syria, and 13.5 million in Türkiye. Environment Minister Murat Kurum said that 24,921 buildings across the region had collapsed or were heavily damaged in the quake, based on assessments of more than 170,000 buildings in Türkiye[4], while in Northwest Syria ACU has so far reported 1,642 houses completely destroyed and 6,380 buildings and homes partially destroyed, most deemed unlivable. It is estimated that 1 million people in the region have lost their home[5] which emphasizes the urgent need for more shelter in the harsh cold winter temperatures for the few hundred thousand still unable to be accommodated in tents and designated centers at capacity, in addition to the 158,000 already evacuated. A total of 2,724 aftershocks have been reported since the two earthquakes, further prioritizing a scale up of psycho-social support in all relief efforts. AFAD reports 4 mobilized Social Service Centers in Kahramanmaras, Hatay, Osmaniye, and Malatya with 2,552 officers deployed providing a total of 193,494 persons affected with psychosocial support (166,703 inside / 26,791 outside of the 10-province affected zone). IBC community center tents will also provide psychosocial support. All stakeholders providing any relief must coordinate with AFAD.

Collapsing homes and buildings in Adiyaman

According to analysis by TURKONFED, a business confederation representing 55,000 businesses, the cost of the earthquakes may reach $84 billion, more than 10 percent of Türkiye's 2021 reported GDP.[6] However, with over 238,000 search and rescue teams still on the ground including some 8,000 personnel from other countries, the full scale of the disaster will need many further assessments.

International Blue Crescent Relief and Development Foundation (IBC) has been on the ground this past week in the familiar provinces of Gaziantep, Kahramanmaras, Kilis, Hatay, Sanliurfa, and

[4] https://www.reuters.com/world/middle-east/turkey-steps-up-collapsed-buildings-investigation-orders-113-arrested-2023-02-12/
[5] https://www.aljazeera.com/news/liveblog/2023/2/13/turkey-syria-earthquake-live-news-us-urges-un-vote-on-aid-access
[6] https://balkaninsight.com/2023/02/13/turkey-quake-cost-put-at-84-billion-and-72000-lives/

A'zaz/Northwest Syria implementing and developing a full response appeal and will continue with ongoing assessments this week in Adiyaman and Suruc in addition. Thousands of people who lost their lives are still under the destruction. Many people are still on the streets and need basic needs support especially winter items and some form of shelter to guard from the cold winter air especially in Hatay, which was completely flattened. In this area, full assessment and relief efforts could hardly be mobilized yet as most of the districts have been completely destroyed and the roads and infrastructure leading there are hampered by thousands of vehicles transporting aid from city to city in the region. As IBC has already been implementing humanitarian and development programs in most of these locations, we have worked together since the first hours after the earthquakes to coordinate with AFAD, Turkish Red Crescent (TRC), local municipalities and governance, and local stakeholders in our established networks in the most affected zones to provide emergency response including hot soup, hot meals, emergency items and basic health check from our Kilis Community Center. Full program including locations and status of relief efforts can be found further below.

Hot soup and hot meals continue 3x daily for 6,000 people from multiple points at IBC Kilis Community Center

Over the past few days many aid workers on the ground including IBC staff reported some minor looting but they did not experience the security threats which had been making the news headlines and some attributed the situation to complete darkness without electricity at night. The President of Türkiye has announced harsher punishments for those committing crimes and has also deployed over 20,000 security reinforcements over the last 72 hours. IBC staff in Northwest Syria have been traveling from A'zaz to Gaziantep, Kilis, and other locations in development of community center tents where multiple needs have already begun to be met through food, blankets, and basic needs distributions with partners.

There were big developments in Northwest Syria today as Reuters reported that after meeting with the UN aid chief, the President of Syria has agreed to let the United Nations deliver aid to Syria through two more border crossings from Türkiye for three months, allowing for large and much needed scale-up of earthquake relief efforts in the hard-hit Northwest.[7] So far, UN-OCHA, IOM, and WHO have provided earthquake relief to the Northwest but efforts will now increase with today's news. The UN has stated that nearly 900,000 people are in urgent need of hot food in both Türkiye

[7] https://www.aljazeera.com/news/liveblog/2023/2/13/turkey-syria-earthquake-live-news-us-urges-un-vote-on-aid-access

and Syria. The Türkiye earthquakes hit the hardest in 5 governorates in Syria including Idleb, Aleppo, Hama, Latakia, and Tartus. According to the UN, over 115 schools have been destroyed and 446 are estimated to be damaged. Due to the damaged crossing, access was delayed in providing cross-border aid in the first days of the emergency. In addition, more than 30,000 displacement movements were recorded in the area during the week after the collapse of a dam caused flooding and further destruction of homes. Ninety percent of the population in Northwest Syria already depended on humanitarian assistance and the Northwest was amidst a rising health crisis before the earthquakes hit, as a shortage of medical staff was trying to navigate increasing cholera cases due to crumbling water, sanitation, and hygiene systems in the area.

IBC in the Field

IBC Team assesses structural damage in Soran/Northwest Syria

IBC continues to develop multi-purpose community center tents in six locations. Meanwhile, activities continue at IBC Kilis Community Center with provision of hot meals of 6,000 meals 3x per day at distribution points Cumhuriyet Square and Erdogan Meydani under agreement with Turkish Red Crescent, AFAD, and partner MSF. IBC is also providing food and basic needs distribution support to the 9,000-person capacity shelter at Sanliurfa exhibition center. Over the past few days, basic needs, winter items, baby care items, and thousands of blankets have been distributed with partners in Antakya/Hatay, Elibstan/Maras, and Islayihe/Gaziantep where IBC visited and started to set up community shelters with kitchen and continue doing distributions with support of partners. IBC will also implement a mobile component in these areas to reach nearby villages and are planning to visit Adiyaman and Sanliurfa Suruc district in the coming days for further assessment.

For immediate needs, based on IBC team field assessment, focus continues to be put on canned foods and other non-perishable food items. Hygiene packages, sanitary toilets, shower cabins, soap and dry shampoo, materials for mouth cleansing such as toothbrush and toothpaste or mouthwash are also essential needs and finally, underwear for all ages especially children is urgently needed. Shelter provision is still urgent as fatal gaps persist. Additionally, winter items are crucial to distribute as soon as possible including tent or prefabricated units, baby care kits, thermal clothes, blankets, generators, and fuel. Thousands of people are still homeless in the freezing cold conditions even

among evacuations. The 10-city zone was home to around 15 million people before, including 1.7 million Syrians living under temporary protection.

IBC Team assesses the destruction in Antakya/Hatay

In all locations where we are operating, IBC field staff has observed all stakeholders working in full force and coordination with a massive operation on the ground led by AFAD, UMKE (medical teams), Turkish Red Crescent, the Turkish Military, volunteers, NGOs, local municipalities and governorships. IBC team confirmed that soldiers are trying to support rescue teams and maintain control, everyone is trying to do their best and with over 20,000 security reinforcements on the ground 24/7, the security situation appears to be generally under control. It is also worth mentioning that transportation is still a bit chaotic as roads are still collapsing and there is heavy traffic on the highways continuously. Hatay airport has opened for flights, so transportation and incoming aid improvements are expected in the coming days.

IBC Team visits damaged buildings and sites in Soran/NWS

IBC Team collaborates on tent areas in A'zaz/NWS

For Northwest Syria, today according to the request of the Deputy Governor and the Turkish Red Crescent, IBC Cross-Border Programs Manager Muhammed Assaf and team went to Soran/Aleppo and a meeting was held with the head of the council and the engineers about the damage caused by the earthquake. An assessment was done covering Soran and 6 nearby villages namely Cafargan, Kafra, Bragide, Ihtimlat, Ra'el, and Dubiq. The total number of damaged buildings was 2,259 with the three most affected villages being Ihtimlat (680), Cafargan (355), and Bragide (352). There were 215 buildings completely destroyed including 80 in Soran, 50 in Bragide and 36 in Dubiq and 854 buildings examined were deemed unlivable including 213 in Ra'el, 176 in Ihtimlat, and 110 each in

Soran and Bragide. Total number of deaths reported was 49 including 33 in Soran, 9 in Ra'el, 6 in Ihtimlat, and 1 in Dubiq, meanwhile 165 people survived with injuries- the most in Soran. The main aim of the assessment was to look at damage to water sources, as it had been reported by some residents. To this end it was found that 1 sewage tank was destroyed in Dubiq, 1 water pump was destroyed in Bragide, one water well was damaged in Ra'el; 2 water tanks were damaged in each of the following locations- Soran, Cafargan, Bragide, and Dubiq and 1 destroyed in Ihtimlat. Water tanks that were damaged were reported as 2 in Bragide, and 1 each in Soran and Rael. Please see chart below for full details.

The report of the damaged situation in Souron and the villages nearby (NWS)

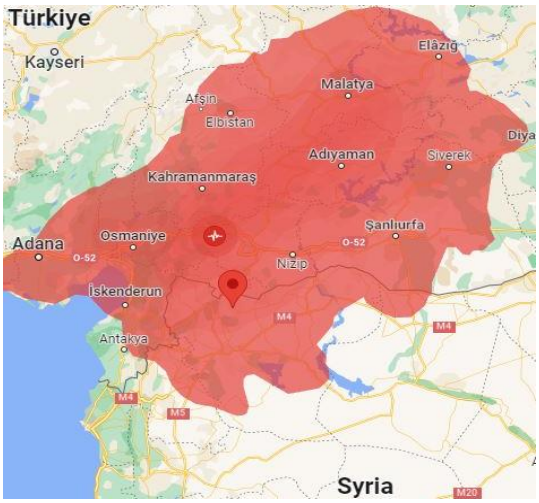
IBC Field assessment in coordination with TRC and Soran Local Council, Completed Monday 13 February 2023



Soran Village in Northwest Syria/Aleppo

While meeting with the head of Soran Council, the team discussed the losses and concerns of the village of Soran which has a population of approximately 25,000 people. The first reservoir there used to serve 60% percent of the city and the second reservoir covered the other 40% so, it was of great concern to quickly assess and act on the damage. After assessment, it was decided that one tank needs to be rebuilt and one can be restored- IBC and partners are discussing undertaking this task. After that, buildings destroyed by the earthquake were visited. Later, 300 food baskets and blankets were purchased for tomorrow's distribution in A'zaz.

IBC also attended the Northwest Syria Cross-Border Ad-Hoc Health Cluster meeting today and shared activities. Some major concerns stated were to make sure there is a functional health system and to set up service provision near previous hospitals. Water, sanitation, and hygiene is another major concern in the camps. Cluster partners discussed a high number of amputations resulting

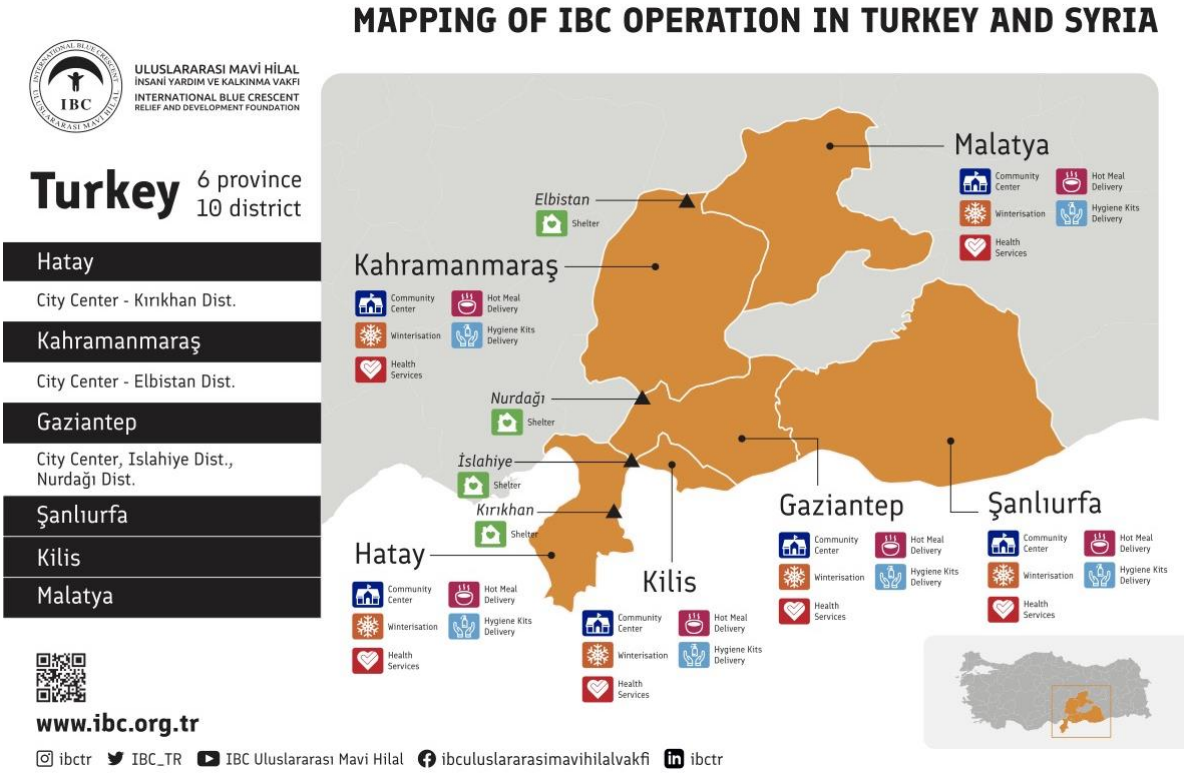
from earthquake rehabilitation response- medical devices and consumables are being provided from Idlib and Aleppo. There were 1,979 people received and 270 deaths confirmed by the Syrian American Medical Society (SAMS) at their 6 mobile clinics. IBC plans to continue implementing its mobile clinic in A'zaz, Afrin, and Al-Bab, and likely expand to Jinderes and Dabiq in the near future. It was emphasized to follow ACU as the main source for death toll in Northwest Syria as health facilities, communities, and Syrian Defense all report to them. Urgent need for more in-country specialists was expressed, as referrals to Türkiye are not possible, especially for ICU and cardiology.

IBC community tents being developed in 6 locations, here is an example of the ones set up in Ukraine and Moldova

For earthquake survivors, IBC is working tirelessly to provide food, water, shelter, warmth, and essential needs. Headquarters staff, in concert with global partners, are mobilizing flows of vitally important medical supplies, food, hygiene kits, and basic needs equipment to fulfill the needs of the earthquake victims. Personnel on the ground continue to operate crucial, lifesaving operations while plans to expand and intensify activities are finalized. For now, IBC Kilis Community Center continues to serve as a major hub for coordination and relief efforts, including for cross-border response into Syria.

As a result of the assessments undertaken by IBC field staff and partners so far, **IBC has been taking the following actions:**

- Daily hot meal distribution in Kilis, 6,000 meals 3x/day
- Hot meal and blankets distribution started in NWS- in total 40,000 including 20,000 in Türkiye and 20,000 in NWS
- Establishing hot meal and food parcel distribution center in Hatay
- Delivered 4,000 thermal blankets to Gaziantep
- Provide wheat flour to Sanliurfa Municipality Halk Ekmek, distribute bread freely
- Establishing a shelter center of 200 prefabricated components in Hatay and Kahramanmaras and undertake all needs
- Support municipality in Sanliurfa for shelter housing 9,000 people; deliver baby food and diapers, sandwiches, blankets

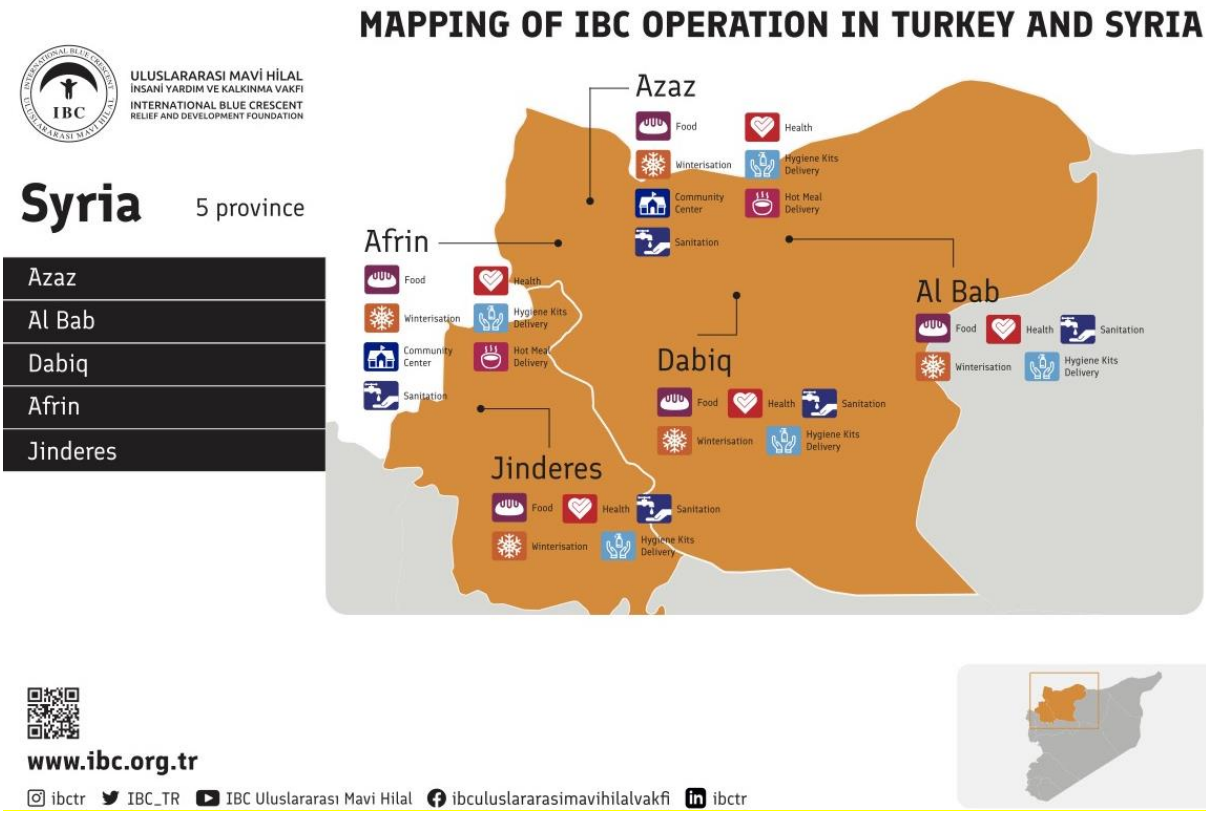


IBC Activities in development in Türkiye:

Multiple Locations

- IBC plans to be operational at Kilis, Sanliurfa Center, Maraş Center/Elbistan, Islahiye and Nurdağ/Gaziantep and 2 locations in Hatay Center and Kirikhan to be determined later in contact with local authorities
- In addition to community center tents already set up in Kilis and Sanliurfa, IBC will also establish in Kirikhan/Hatay, Elbistan/Kahramanmaraş, and Nurdagi and Islahiye Gaziantep, four community centers initial plan to run for 6 months
    - From each center, daily food, hygiene materials, blankets and hot meals for 1,000 people will be distributed
- Mobile teams of five staff are in five cities in Karahmanmaras, Gaziantep, Kilis, Hatay, Sanliurfa are continuing assessment for more programs
- IBC plans to establish prefabricated camps around the four community centers units of 100 prefab houses with all sanitation and other facilities with a potential to expand to 500 houses and run them for at least six months
- Immediate distribution of relief items in Hatay (blanket, food, hygiene, etc. to be decided by IBC according to ongoing assessments)
- Hot-meal distribution in Kilis IBC Community Center, Sanliurfa Community Center that already continue and at the newly established community centers in Kirikhan/Hatay, Islahiye and Nurdagi/Gaziantep, Elbistan/Kahramanmaraş and will continue for 6 months. Each community center will provide hot meals to 1,000 persons daily
- Medical checks, treatment, and provision of basic medicine will be available in the community centers too by employing a doctor and a psychologist

- Mobile health consultation (A team of a driver and a nurse ; to visit families living on the streets, to do health checks especially for children and elderly, to call an ambulance or organize the transport if deemed necessary); In each city in total four mobile health consultation teams will be in force
- Distribution of 20,000 blankets in Hatay, Gaziantep, Kahramanmaraş, Sanliurfa, and Malatya
- 20,000 Monthly food parcels distribution in Hatay, Kahramanmaraş, Gaziantep, and Sanliurfa
- 20,000 Hygiene packages distribution in Hatay, Gaziantep, Şanlıurfa and Kahramanmaraş
- 5,000 heaters to be distributed in all four provinces



IBC Activities in development in Northwest Syria (NWS)

Ad Dana, Sarmada, Atmeh together with Doctors without Borders (MSF)

- Support to 1,100 families left homeless providing arrival kits of 5,500 blankets and mattresses and 1,100: arrival items (tarpaulins, floor mat, insulating mat, fire extinguisher, rope), hygiene long-lasting kits (towels, sewing kit, comb, nail clippers, mirror, plastic jug for bathing, bucket), hygiene kit consumables (washing powder, detergent, kitchen dish cleaner, shampoo, hygienic pad, toothpaste, toothbrushes, soap, disposable razors, sponge), 6-person winter kits, kitchen kits
- Run one mobile clinic team in 5 Reception centers in the area by 1-day visit for each center per week, offering primary health services, dressing, mental health, and referral
- 5 OPD kit.; 15 trauma kits; 3 NCD kits
- 3,000 Gibson splints “Casting” (Plaster of Paris)
- Distribute 5,500 bread bags per day for 2 weeks for 1100 families
- Distribute 1,100 food basic items (including Bulgur, Sugar, Rice, flour, oil, tea, Helva, jam)

- Distribute tents for families doesn't have a place to stay (for 1100 families)

A'zaz

- Starting distribution of food and blankets in A'zaz and medical response through IBC-managed Public Health Units in A'zaz and Dabiq
- Establish community center tent and run for 6 months initially providing daily food, hygiene materials, blankets and hot meals for 1,000 people will be distributed
- 10,000 monthly food kits will be distributed
- 10,000 monthly hygiene kits will be distributed
- 10,000 blankets to be distributed
- 1,000 Heaters to be distributed

Al-Bab

- Mobile clinic in Al-Bab with food for 1,000 families for a month then extended 6 months
- Distribution of 10,000 blankets in total

***IBC would like to thank its generous partners, donors, and their networks so far who have allowed us to respond urgently to this devastation that has shaken the region to its core**:*
Action Medeor, Bridge, Committed, Corus International, GIZ, GlobalGiving, IDRF Canada, IMC, JDC, MSF, Muslim Charity, Together Rising, UMCOR, WHH, World Jewish Relief

Sheltering in IBC Kilis Community Center

Food, blankets, basic needs in Sanliurfa Exhibition Center

<u>Urgent Needs in General:</u>

- **Tens of thousands of tents, shelter**
- **Heaters** for the tents, fuel
- Basic first aid kits
- Hygiene and Sanitary Kits (for children and adults); **Diapers**
- **Medicine and Medical Equipment**
- **Blankets & Winter Clothing**
- **Power banks**
- Wheat for Bread Production
- Drinkable water, **canned food**
- Bedding
- **Baby care kits**

Even after one week, needs in the region are overwhelming. Medical and general evacuations continue to take place; shelter/tents, thermal clothing, heat, water, power supply, and medical aid are still *urgently needed*. The damage done to roads and infrastructure has made many areas simply unlivable. As personnel on the ground are tasked with recovering the deceased and evaluating structural damage, the relief efforts to meet the hundreds of thousands of displaced residents must be scaled up immediately, especially for the most vulnerable women, children, elderly, persons with

disabilities, and persons facing protection issues due to legal status in Türkiye. IBC will keep all partners and potential donors appraised of the current situation daily.

We ask our partners and international civil society members to help us in these tragic days so that together we may overcome the suffering of our people.

Donate to help earthquake victims via IBC **at GlobalGiving:** http://goto.gg/58539

In-Kind Donations
IBC has started coordinating bulk or large in-kind items from international companies, individuals, and partner NGOs- depending on the quantity and needs in the field/specific location and transportation access. For in-kind donations, please contact partnerships@ibc.org.tr.

Volunteer
All independent individual and groups of volunteers should contact AFAD or UMKE, separate from IBC.

For urgent information and to help, you can reach:

This list of medical needs for **Northern Syria** has just arrived via colleagues from SGG :

Aldolan bulb
Adrenalin
Decort bulb
Lidon bulb
Metoclopramide bulb
Albumin
Potassium ampoule
Furacin ointment
Ampoule rif
Lactate wrestling
Parol syrup
Klavunat surup
Flagyl serum
Levosol surup
Well done syrup
Desefin i.v.
Rodinac bulb
Mannitol serum
Spanc
Gauze
Stretcher cover
Cotton under gypsum
Alçili guards
Batikon
Surgical suture (sharp, rounded)

Also, there are children who need antipyretic painkillers, antibiotics, blankets, etc., especially in earthquake zones there is a need for water, food, and heating.

General Medical Device Needs List
Portable Bedside Monitor
Newborn Bedside Monitor (Intensive Care)
Adult Bedside Monitor (Intensive Care)
Integrated Bedside Monitor (Neonatal, Pediatric, Adult)
Emergency Stretcher
Patient Transport Chair / Wheelchair
Defibrillator Device
EKG Device (Electrocardiography)
Aspirator Device
Anesthesia Device
Othroscope / Ophthalmoscope
Ventilator Device Portable
Ventilator Device Adult Intensive Care
Ventilator Device Neonatal Intensive Care
Ultrasonography Device
X-Ray Device Portable
Glucometer
infusion pump
Perfusion Pump
laryngoscope

General Medical Consumables Requirements List	
Trauma Board	Tourniquet
Surgical Suture	Foley Probe
Chest Tube	patch
Chest Drainage Set	Urine Catheter
Endotracheal Tube	Ambu Balloon
Oxygen Cannula (Nasal)	Ambu Set
OxyJen Cannula (Mask)	Injector
Serum Set	Skin Staps
IV Stand	Nasgastric Catheter
Stretcher Cover	Bleeding Stoppers
sponge	Laryngeal Mask
ped	Tissue Adhesive (Skin/Surgery)
Bandage	Bone Wax
Distilled Water	cautery pen
batikon	Aspiration Set
Hand Sanitizer	ECG Electrode
Collar	Boxing Shirt
Stabilization Materials	Examination Gloves
Plaster/Splint Materials	Surgical Gloves
Heater Balance	Cotton
IV Cannula	Diaper Diaper
Three Way Faucet	Body Bag
Drip Setting Set	Insulin Injection
Blood Donation Set	Injector Needles
airway	Urine Bag
Bacteria Filter	Gauze
Ventilator Breathing Circuit	Overshoe
Anesthesia Breathing Circuit	Bonnet
Transport Ventilator Circuit	Scalpel Bits
Elastic bandage	

Medication Needs List	
Generic code	**Generic definition**
J0020	Adenozin 5 mg/ml 10 ml IV Flakon
J0021	Adenozin 5 mg/ml 2 ml IV Flakon
J0024	Adrenalin 0.50 mg/ml 1 ml Ampul
J0025	Adrenalin 1 mg/ml 1 ml Ampul
J0091	Alteplaz (plazminojen aktivatörü) 10 mg IV Flakon
J0092	Alteplaz (plazminojen aktivatörü) 20 mg IV Flakon
J0093	Alteplaz (plazminojen aktivatörü) 50 mg IV Flakon
J0158	Amiodaron HCl 150 mg/3 ml IV Ampul
J0269	Asetaminofen (Parasetamol) 10 mg/ml 100 ml Infusion Solusion
J0218	Ampisilin sodyum 1 g + Sulbaktam sodyum 500 mg IM/IV Flakon
J0416	Atropine sulfate 0.25 mg/ml 1 ml Ampul
J0418	Atropine sulfate 0.50 mg/ml 1 ml Ampul
J0604	Budesonid 0.25 mg/ml 2 ml Nebulizer Suspansion
J0605	Budesonid 0.5 mg/ml 2 ml Nebulizer Suspansion
J0419	Atropine sulfate 1 mg/ml 1 ml Ampul
J5384	Centella asiatica 10 mg/g 40 g Merhem
J0636	Bupivakain hidroklorür 5 mg/ml 4 ml Ampul
J6072	Deksketoprofen 25 mg Film Tablet
J0734	Deksametazon sodyum fosfat 4 mg/ml 2 ml Ampul
J5663	Dextrose 10 % 500 ml Solution PE/PP/PVC Bottle for Infusion/Bag for Infusion (Set)
J0774	Dextrose 10 % 500 ml Solution PE/PP/PVC Bottle for Infusion/Bag for Infusion (Without Set)
J0781	Dextrose 20 % 500 ml Solution PE/PP/PVC Bottle for Infusion/Bag for Infusion (Set)
J5697	Dextrose 20 % 500 ml Solution PE/PP/PVC Bottle for Infusion/Bag for Infusion (Without Set)
J5820	Dextrose 3.33 % + Sodium chloride 0.3 % 500 ml Solution PE/PP/PVC Infusion Bottle/Infusion Bag (Set)
J0786	Dextrose 3.33 % + Sodium chloride 0.3 % 500 ml Solution PE/PP/PVC Infusion Bottle/Bag for Infusion (Without Set)
J5701	Dextrose 30 % 500 ml Solution PE/PP/PVC Bottle for Infusion/Bag for Infusion (Set)
J0794	Dextrose 30 % 500 ml Solution PE/PP/PVC Bottle for Infusion/Bag for Infusion (Without Set)
J5659	Dextrose 5 % 500 ml Solution PE/PP/PVC Infusion Bottle/ Bag (Set)
J5660	Dextrose 5 % 500 ml Solution PE/PP/PVC Infusion Bottle/ Bag (Without Set)
J0739	Deksketoprofen 25 mg/ml 2 ml Ampul
J0869	Diazepam 10 mg/2 ml Ampul
J0911	Digoksin 0.5 mg/2 ml Ampul

J0939	Diklofenak sodyum 75 mg/3 ml IM Ampul
J0944	Diltiazem hidroklorür 25 mg IV Ampul
J0963	Dobutamin 250 mg/20 ml 20 ml Ampul/Flakon
J5448	1500 ml Three-Chamber Parenteral Nutrition Solution for Adult Patients, Containing Amino Acids, Glucose, Fats and Electrolytes, 80% of Fat Content is Olive Oil and 20% is Soybean Oil, Suitable for Peripheral Use
J5452	1500 ml Three-Chamber Parenteral Nutrition Solution for Adult Patients, Containing Amino Acids, Glucose, Fats and Electrolytes, 80% of Fat Content is Olive Oil and 20% is Soybean Oil, Suitable for Central Route Use
J1103	Esmolol hidroklorür 10 mg/ml 250 ml İnfüzyon Solüsyonu
J1022	Efedrin hidroklorür 50 mg/ml 1 ml Ampul
J1228	Feniramin maleat 45.5 mg/2 ml 2 ml IM/IV Ampul
J1316	Flumazenil 0.5 mg/5 ml 5 ml IV Ampul
J1317	Flumazenil 1 mg/10 ml 10 ml IV Ampul
J1617	Gümüş sülfadiazin 1% 40 g Krem
J1618	Gümüş sülfadiazin 1% 400 g Krem
J1634	Hamamelis virginiana distilatı 25 % 30 g Merhem/Pomad
J1636	Hamamelis virginiana distilatı 5.35 % 30 g Krem
J1645	Heparin sodyum 5000 IU/ml 5 ml IV/SC Flakon
J7281	HYPOALLERGEN NUTRITION PRODUCT FOR BABIES BETWEEN 0-6 MONTHS AT RISK OF COW MILK ALLERGY 400 GR POWDER FORMULA
J7282	HYPOALLERGEN NUTRITION PRODUCT FOR BABIES FROM 6 MONTHS AT THE RISK OF COW MILK ALLERGY 400 GR POWDER FORMULA
J1805	İnsan insülini (Rek. DNA kökenli) 100 IU/ml 10 ml Flakon
J1837	İnsülin glarjin 100 IU/ml 3 ml Enjeksiyon Kalemi/Kartuş
J1424	Furosemid 20 mg/2 ml 2 ml IM/IV Ampul
J2020	Kalsiyum glukonat monohidrat 225 mg/10 ml + Kalsiyum levulinat dihidrat 572 mg/10 ml 10 ml Ampul
J3399	Lactated Ringer's Solution 1000 ml PE/PP/PVC Bottle for Infusion/Bag for Infusion (Set)
J3400	Lactated Ringer's Solution 1000 ml PE/PP/PVC Bottle for Infusion/Bag for Infusion (Without Set)
J3404	Lactated Ringer's Solution 500 ml PE/PP/PVC Bottle for Infusion/Bag for Infusion (Set)
J5795	Lactated Ringer's Solution 500 ml PE/PP/PVC Bottle for Infusion/Bag for Infusion (Without Set)
J2221	Klorpromazin 5 mg/ml 5 ml Ampul
J2379	Lidokain HCl 20 mg/ml 2 ml Ampul
J2380	Lidokain HCl 20 mg/ml 5 ml Ampul
J2472	Magnezyum sülfat 15% 10 ml Ampul
J2573	Metamizol sodyum (Dipiron) 500 mg/ml 2 ml Ampul
J2622	Metilprednizolon sodyum süksinat 250 mg Ampul/Flakon

J2623	Metilprednizolon sodyum süksinat 40 mg Ampul/Flakon
J2630	Metoklopramid HCl 10 mg/2 ml 2 ml Ampul
J2664	Metronidazole 5 mg/ml 100 ml Solution for Infusion (Set)
J5938	Metronidazole 5 mg/ml 100 ml Solution for Infusion (Without Set)
J2648	Metoprolol tartarat 5 mg/5 ml Ampul
J2677	Midazolam 1 mg/ml 5 ml IM/IV/Rektal Ampul
J2679	Midazolam 5 mg/ml 3 ml IM/IV/Rektal Ampul
J2769	Mupirosin 2% 15 g Merhem/Pomad
J2857	Nitrofurazon 0.2% 56 g Pomad
J2747	Morfin HCl 10 mg/ml 1 ml Ampul
J4689	Norepinefrin 1 mg/ml 25 ml IV Flakon
J2860	Nitrogliserin (Gliserol trinitrat) 1 mg/ml 10 ml IV Ampul
J5597	Ondansetron 4 mg/2 ml 2 ml IM/IV Flakon
J2874	Norepinefrin 1 mg/ml 4 ml IV Ampul
J2995	Pantoprazol sodyum 40 mg IV Flakon
J3116	Piperasilin sodyum 2 g + Tazobaktam sodyum 0.25 g IV Flakon
J3118	Piperasilin sodyum 4 g + Tazobaktam sodyum 0.5 g IV Flakon
J5593	Ondansetron 8 mg/4 ml 4 ml IM/IV Ampul
J3199	Potasyum klorür 22.5% 10 ml IV Ampul
J7292	NUTRITION PRODUCT FOR SPECIAL MEDICAL PURPOSE FOR PREMATURE OR LOW BIRTH WEIGHT BABIES 400 GR POWDER FORMULA
J3251	Prilokain HCl 20 mg/ml 20 ml Flakon
J3202	Potasyum klorür 7.5% 10 ml IV Ampul
J3277	Propofol 10 mg/ml 20 ml IV Ampul
J3390	Rifamisin SV 125 mg/1.5 ml + Lidokain HCl 5 mg/1.5 ml 1.5 ml Ampul
J3485	Salbutamol 100 mcg/dose 200 doz Aerosol İnhaler
J3489	Salbutamol sülfat 1 mg/ml 2.5 ml Nebul
J3536	Sefazolin 1 g IM Flakon
J3537	Sefazolin 1 g IM/IV Flakon
J3538	Sefazolin 250 mg IM Flakon
J3539	Sefazolin 250 mg IM/IV Flakon
J3540	Sefazolin 500 mg IM Flakon
J3541	Sefazolin 500 mg IM/IV Flakon
J3567	Sefotaksim 1 g IM/IV Flakon
J3568	Sefotaksim 2 g IM/IV Flakon
J3570	Sefotaksim 500 mg IM/IV Flakon
J3594	Seftriakson disodyum 1 g IM Flakon
J3595	Seftriakson disodyum 1 g IV Flakon
J3600	Seftriakson disodyum 500 mg IM Flakon

Additionally, on February 7th, IBC Cross-Border Programs Manager Mr. Muhammed Assaf and Ridvan Wesim of MSF Doctors without Borders held a meeting in IBC's Gaziantep office with the Chief Physician Dr. Fadıl Ersoy and his team about the health situation in the city of **Kilis.**

The patients' cases were as follows:
Intensive care patient 16.
Service patient 45.
There are currently 40 patients in the emergency department.
The currently death in Kilis 22.
In total, the number of patients who came to the hospital during the earthquake was 480.
The number of patients referred to Kilis is 120, and the referrals are from provinces close to Kilis (Hatay, Gaziantep, İslahiye, Kırıkhan, Nurdağı).

The most important medical and logistical needs of the hospital in **Kilis** are:

Medical need:
Baby diapers
Back board for 10 adults
1000 pieces of isotonic 1000
1000 pieces of isotonic 500
Diazem amp 200 pcs
Dextrose 5% and 10%-500 pcs each
Dextrose 20%- 150 pcs
Dextrose 30%-150 pcs
5% dex + 0.45 NACL 500 pcs
5% dex 500 – 1000 pcs

Logistics:
pad cups 5000 pcs
Plastic cutlery 5000 pieces
Plastic plate 5000 pcs
Heater – ufo 10 pcs
Chair is for waiting 100 patients in tent
Blanket 100 pcs
Uncooked food packet for 1000 people
water small 5000pcs.
