

UNHCR 2022 - 2025 MYMP

- 01 Strengthening national capacities for the protection of refugees and internally displaced persons, including GBV, and child protection.
- 02 Community engagement and accountability to affected populations.
- 03 The development of partnerships to accompany and support the improvement of living conditions, foster autonomy, and promote peaceful coexistence between communities and social cohesion.
- 04 The search for durable solutions by emphasizing local integration, voluntary repatriation, and resettlement as a tool for protecting refugees.
- 05 Developing integrated durable solutions strategies for IDPs with the effective involvement of the state and all other relevant actors.
- 06 Maintaining an operational capacity to support state bodies in the management of IDPs and refugees in the context of the ongoing humanitarian crisis. In this domain, the promotion of the rights of affected communities will be central to UNHCR's interventions, fully aligned with its Age, Gender and Diversity (AGD) policy.

STRATEGIC PRIORITIES

SP2

Contribute to the consolidation of peace, security, and social cohesion through the strengthening of community-based protection mechanisms.

SP4

Contribute to improving access to quality basic social services in areas affected by forced displacement to support the inclusion of PoCs.

SP6

Contribute more to the search for integrated sustainable solutions for PoCs.

01

SP1

Contribute to the improvement of the protective environment for PoCs through the strengthening and enforcement of the international and national legal frameworks for protection.

03

SP3

Support registration, civil status, and identity documents for PoCs and host communities.

05

SP5

Empower PoCs and host communities, supporting local development and innovation.

06

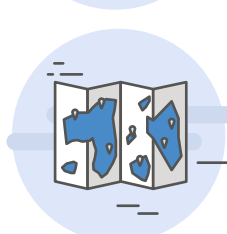

OUR APPROACH

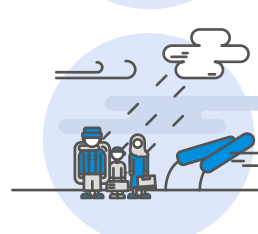

Partnership in its dimensions of localization, support to state authorities, strengthened partnership with other UN agencies and strategic partnership with some key national and international NGOs

CCCM/GSAT as a lever for an adequate response on each of the 6 strategic priorities

Area based approach (ABA) as the entry point for all UNHCR interventions in the affected regions of Burkina Faso

Climate change: Environment/energy/renewable energy promotion

5 IMPACT STATEMENTS

01

By 2025, PoCs to UNHCR have a legal framework that is conducive to the protection of their rights

02

By 2025, PoC are integrated into national services and programs

03

Communities and local structures are independent and have the capacity to take the lead in emergency response by 2025

04

PoCs are provided with civil registration and identity documents by 2025

05

A comprehensive response to the needs of people of concern and host communities is ensured through the promotion of durable solutions with Government support by 2025
