

This infographic presents information on individuals registered through Individual Registration and Receptions in the Population Registration and Management Ecosystem (PRIMES) through December 31, 2022. The data presents demographic and geographic information, the identification of Specific Protection Needs, and the assistance provided by UNHCR to persons of concern.

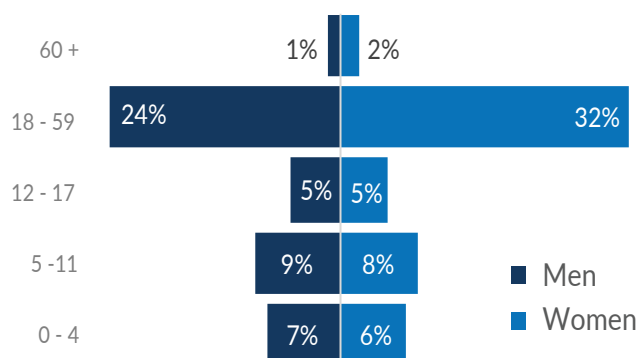

Number of registered individuals

54% of the cases registered in PRIMES are women.

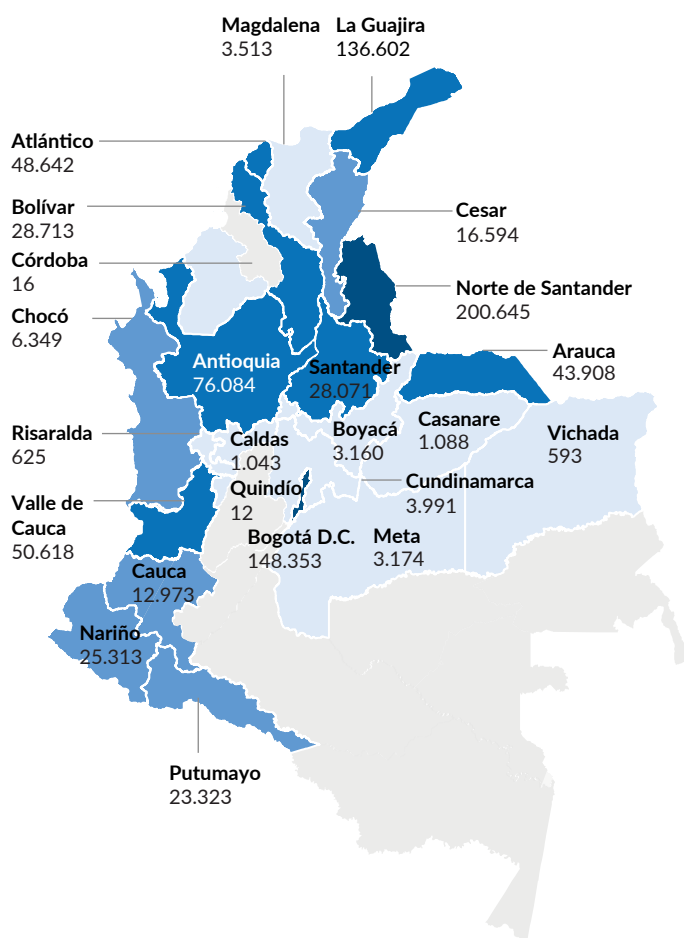

Age ranges¹

The average age range of people registered in PRIMES is between 19 and 59 years old.

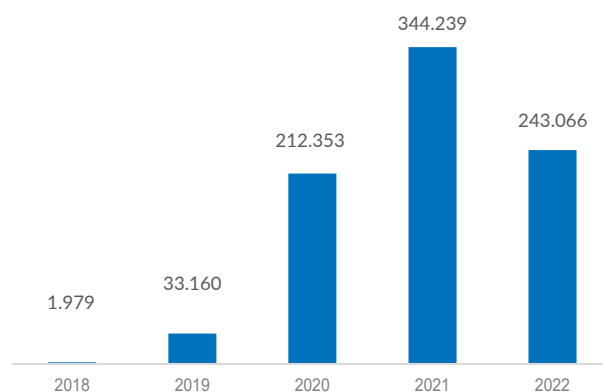

Geographic distribution of registrations by department

Evolution of PRIMES registrations*

Between 2020 and 2022, UNHCR and partners conducted more than 65% of the total registrations in PRIMES: 863,763.

Number of individuals registered annually

PRIMES partners and users in 2022***

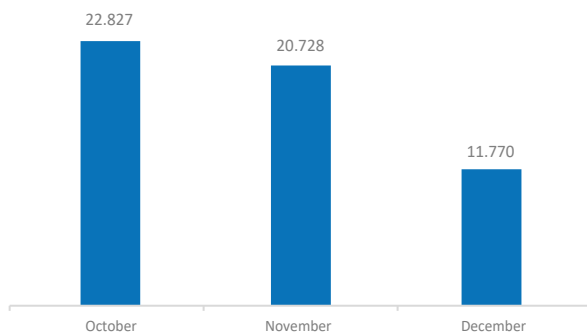

- 40 partners² use the PRIMES ecosystem: 30 local partners, 8 national partners and 2 governmental partners.
- 614 active users, of which 459 (75%) are partners and 155 (25%) UNHCR.

*Note: Data are for cumulative figures from 2018 and through December 31, 2022 **Not all information disaggregated by sex and age is available for all individuals *** Information as of January 16, 2023.
¹ Calculated from available information from individuals registrants and the focal point of reception groups. Does not represent the total number of individuals. ² Acción Contra el Hambre - ACH, Aldeas Infantiles SOS Bogotá, Alianza por la Solidaridad, Bethany, CESVI Overseas, CISP, Colectiva Justicia Mujer, Confenalco Antioquia, COMFIAR, Corporación Ayuda Humanitaria, Corporación Mundial de la Mujer, Corprodinco, Cruz Roja Colombiana Seccional Antioquia, DRC, Fundación Amiga Colombia Venezolana - FAMICOVE, Función de Atención al Migrante - FAMIG, Fundación Renacer, Gobernación de Norte de Santander, Heartland Alliance International - HAI Cali, HIAS, Humanity & Inclusion, Makikuna, Malteser, Minuto de Dios, NRC, Opción Legal, Opción Legal - Proyecto PAOs, Pastoral Social Barranquilla, Pastoral Social Cali, Pastoral Social de Apartadó, Pastoral Social Guajira, Pastoral Social Ipiales, Pastoral Social Pasto, Pastoral Social Tibú, Pastoral Social Tunja, Personería Buenaventura, Profamilia, Save the Children, SCALABRINI, Secretariado Nacional de Pastoral Social - SNPS, Universidad de Antioquia.

Evolution of PRIMES registrations in 2022*

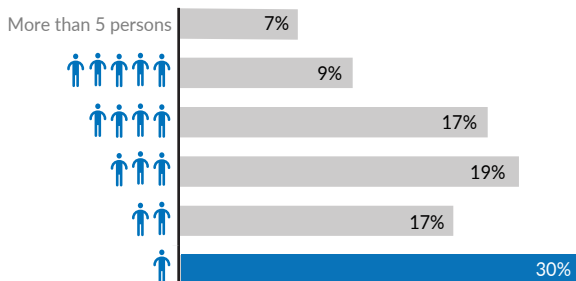

During the fourth quarter of 2022, there were more than 55,000 registrations conducted in PRIMES. In the month of December there were fewer registrations than the previous months due to the end of the year vacation period.

Number of individuals registered monthly between October and December 2022

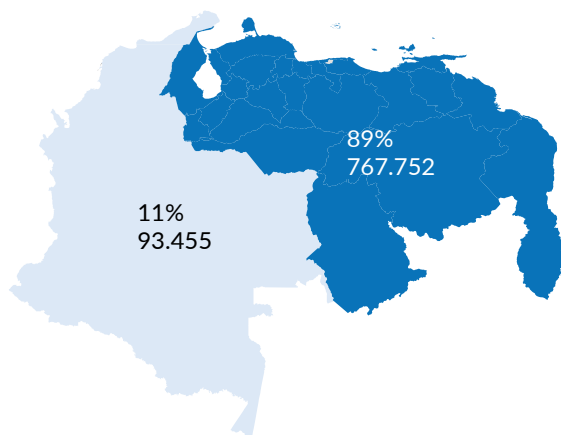

Average group size

More than 50% of the registration groups are comprised of 1 to 3 persons.

Country of origin

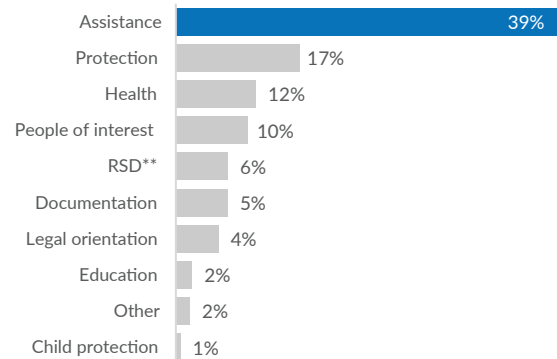

Most people (89%) report Venezuela as their country of origin, 11% report Colombia

Guidance and assistance provided

39% of the orientations provided are related to information request about humanitarian assistance, followed by protection requests (17%).

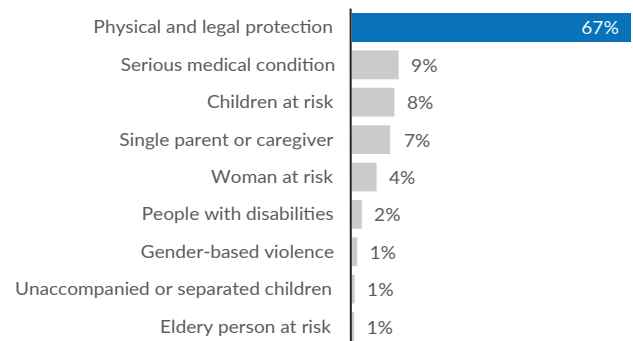

Communication categories

Specific Protection Needs (SPN)

The Specific Protection Needs make it possible to identify the vulnerabilities that people present and the protection risks they face. In this sense, people may have one or several SPNs, and these may change during a given period.

SPNs Categories

Main subcategories of SPNs registered in PRIMES

-  **28%** Unmet basic needs
-  **27%** Without legal documentation
-  **10%** Without access to services
-  **7%** Children at risk of not attending school
-  **6%** Father/mother/or single caregiver in charge of the household

Among the local number of SPN, 28% have unmet basic needs, with difficulties in achieving a adequate standard of living, including access to food, clothing, housing, water, sanitation and health care. 27% of people are without legal documentation, meaning that they either do not possess any documentation or are in an irregular situation; some might be at risk of statelessness
