### RECENT HIGHLIGHTS

- To address the consequences of disruptions in critical services in eastern Ukraine, including education, health care, and social protection services, UNHCR continues prioritizing life-saving humanitarian assistance and interventions that help mitigate protection risks. UNHCR complements and reinforces the capacity of national and local systems through timely provision of protection assistance including legal aid, child protection, non-food items, emergency shelter and housing support, with the aim of enabling internally displaced people (IDPs) and returnees to recover and attain durable solutions, where possible.
- In parallel, in refugee hosting countries UNHCR has been advocating for the effective socio-economic inclusion of refugees in national systems through expanding access to education, employment, housing, social welfare, medical and other services. UNHCR has been providing refugees across the region with language training and job counselling, whilst promoting social cohesion interventions to strengthen community support and expand refugee access to social and economic opportunities.

# COORDINATION

## UKRAINE

In Ukraine, UNHCR leads three Clusters, namely Camp Co-ordination and Camp Management (CCCM), Protection, and Shelter and Non-Food Items (NFI). The CCCM Cluster was activated in March 2022 and coordinates eleven UN and NGO partners across three hubs, with the aim of supporting 400,000 people in collective sites in 2023. The Protection Cluster consists of 136 partners, including sub-clusters (57 partners under General Protection) and operates through five coordination hubs to reach an anticipated 7 million people in 2023. The Shelter and NFI Cluster coordinates 97 active partners across five coordination hubs, targeting 3.3 million people in 2023 with NFI kits, emergency shelter and housing repairs. UNHCR also co-chairs the Protection Strategy Working Group under the Humanitarian Country Team, and the Accountability to Affected Populations Working Group. Through its leadership in these areas, UNHCR promotes the centrality of protection, as well as meaningful engagement and participation across the response.

## REGIONAL REFUGEE RESPONSE

The [2023 RRP](#) aims at ensuring refugees' access to protection and assistance on a non-discriminatory basis, with a special focus on refugees at risk of becoming vulnerable. Whereas the 2022 RRP focused primarily on the urgent provision of protection services and humanitarian assistance, the 2023 plan places an emphasis on refugees' socio-economic inclusion, in recognition of the challenges faced by refugees due to their prolonging displacement. Support is foreseen to institutions, services and facilities used both by refugees and members of host communities, which will be crucial for promoting solidarity and social cohesion between host and refugee communities. Inter-agency Refugee Coordination Forums (RCFs) led by UNHCR, and specific sectoral groups, will continue working at country level in Belarus, Bulgaria, the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, the Republic of Moldova, Romania, and Slovakia to support the efforts of the concerned governments.
