# AGENDA

- 01 Update from the Refugee Coordination Forum**
- 02 Health WG: updates, Q&A, gender considerations**
- 03 Gender Considerations for Winterization**
- 04 CLEAR Global Presentation**

# GENDER CONSIDERATIONS FOR HEALTH WG

1

Ensure that the Health and Nutrition WG data collection and baselines capture **sex-age-disability disaggregated data** (SADDD).

2

Undertake a **gender analysis** of the health and nutrition sector and **inform the RRP** and other relevant plans.

3

Ensure that **women, girls, men and boys** and at risk-groups such as the older people, LGBTQI, persons with disabilities, female-headed households, women with chronic diseases, women cancer survivors etc. **are consulted and inform** health and nutrition WG planning.

4

Include **gender mainstreamed and gender targeted interventions**, gender sensitive indicators and target in workplans and **introduce the IASC Gender with Age Marker** to all health and nutrition WG programmes/projects.

**THANK YOU!**
