HUMAN TRAFFICKING TRENDS 2023

- New forms of exploitation emerged in the context of the war;
- Decrease in the number of THB cases being disclosed (361 cases this year vs 1,010 cases in 2021)
- Increased use of online recruitment for sexual exploitation and advertising of sexual services;
- Significant increase in demand for sexual services provided by Ukrainian women,
- Introduction of the temporary protection increased resilience;
- The United Nations Office on Drugs and Crime (UNODC) predicts increase in the number of Ukrainian citizens identified as victims of human trafficking by the end of 2023.
