UNHCR Representation in South Sudan

Population Overview

Registration Summary

Legal status: All | Country of Origin: All | Office: All | Report Year/Month: 6/2024

As of June 30th, 2024, South Sudan hosts a significant refugee and asylum seeker population. The registered refugee count is 468,759 individuals across 109,521 households, with an additional 5,536 individuals registered as asylum-seekers in 4,122 households. This totals to 474,295 individuals across 113,643 households in 23 locations throughout the country. Most refugees are Sudanese, comprising 94.6% of the total refugee population (443,516 individuals). Other significant refugee populations include those from the Democratic Republic of Congo (2.9%), Ethiopia (1.1%), the Central African Republic (0.5%), Eritrea (0.5%), and other nationalities. Notably, about half (52%) of the refugees are female, and women and children together make up 81% of the total refugee population. Among the refugees, 39% are aged between 18 and 59, and 58% are children (0–17 years old). Most refugees are located in Upper Nile and the Unity States, accounting for 88% of the total refugee population.

Socioeconomic Summary

Based on the 474,295 refugees and asylum-seekers registered, women outnumber men, most holding secondary education yet struggling to find work beyond subsistent farming and field labor. Young adults stand as the majority, grappling with the challenges of unemployment and single parenthood. This glimpse of their socio-economic profile hints at their resilience, with every statistic bearing witness to a life uprooted, yearning for the stability of formal employment and a secure future

* *Marital status and work experience is only applicable to registered individuals above 18 years.*
