KEY HIGHLIGHTS ON REFUGEE RETURNS

The return of **41,660** South Sudanese was verified and reported in May 2024. There is a slight increase (**24%**) as compared to the returns recorded in the month of April 2024.

The slight increase is due to insecurity in some of the Countries of Asylum especially Sudan, reduction of food ration and lack of employment and livelihoods opportunities in some parts of the Country which impacted the spontaneous refugee returns to South Sudan during the reporting month.

Most of the returns in May 2024 were from Sudan coming through Wunthou (Joda) while returns from Ethiopia came through Jekow and Pagak in Upper Nile State.

This information on returnees was validated through UNHCR - IOM, RRC joint border monitoring on Sudan, Ethiopian and UNHCR Spontaneous Refugee border monitoring interviews on Uganda, Kenya, Democratic Republic of Congo, Ethiopia and Central Africa Republic during month of May 2024 in areas of return in the following **10** states; Upper Nile, Central Equatoria, Northern Bahr el Ghazal, Western Bahr El Ghazal, Unity, Jonglei, Warrap, Eastern Equatoria, Western Equatoria and Lakes. Most of the verified returnees were from Sudan (**63%**) while (**31%**) were from Ethiopia and less than **10%** were from Uganda, Kenya, Democratic Republic of Congo and Central Africa Republic.

PUSH FACTORS

The most cited reasons for leaving Country of Asylum include:-

- I- Insecurity in country of asylum (**21%**)
- II- Lack of employment, livelihood and economic opportunities (**17%**)
- III- Reduction of a food ration in Refugee camps (**10%**).

Contributing partners

The most cited reasons for returning to South Sudan from Country of Asylum include:-

- I- Reunite with family members (**13%**)
- II- Improvement of security situation in South Sudan (**9%**)
- III- Assess land/property/ housing (**10%**)

KEY PROTECTION CONCERNS AT BORDER POINTS AND IN AREAS OF RETURN ARE:

The most cited protection concerns at border points and in areas of returns include:-

- I- Loss of Belongings, Exploitation (Corruption, Extortion) (**13%**)
- II- Exploitation (Corruption, Extortion) (**11%**)
- III- Freedom of movement/sieges (arrest or detention) (**11%**)
- IV- Confiscation of personal identification documents (Confiscation of Refugee card or Ration card) (**5%**)

METHODOLOGY

UNHCR in collaboration with Relief and Rehabilitation Commission (RRC) and partners monitors cross-border movements in areas of high return and at 42 border entry point with Sudan recording the highest border entry points. Information is collected regularly at border points and in areas of high returns through KII and FGD. The information was then triangulated with data collected during physical observations, and meetings with local authorities, faith-based leaders, law enforcement agents, and immigration officers at border entry points and areas of returns.

Disclaimer: The number recorded is only indicative, and it covers the borders where UNHCR and partners currently have presence. It is most likely that more returnees are arriving to South Sudan than recorded due to using unofficial border points and/or travelling at night.
