Introduction

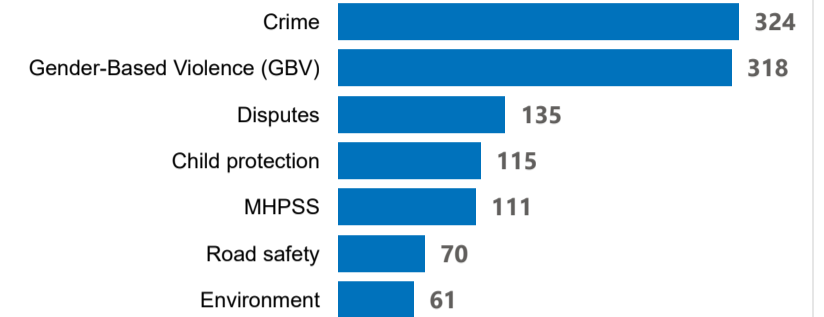

This dashboard shows the analysis of the reported incidents between the refugees and/ or the host communities in all the refugee settlements and the surrounding areas with a detailed analysis of the trends and the incident types. The data shown covers the period of November 2020 when the conflict mapping began in Palorinya Settlement to Jul 2024. This provides insights in to the nature of security incidents and conflicts in the settlements shown over the past 4 years.

Note: Initially the tool was launched in Palorinya Settlement then it was nationalized, some settlements had not reported by the time of this update.
