## Important information

The work of UNHCR, the United Nations Refugee Agency, is entirely humanitarian and guided by internationally recognized principles of humanity, neutrality, impartiality and independence. UNHCR provides assistance and emergency relief to forcibly displaced persons and their host communities within Myanmar, including following the earthquake of 28 March.

As part of the assistance distribution, UNHCR and its trusted partners collect some of your personal data to keep a record of the items provided. This includes your name, the number of family members in your household and their sex, the items you received, your signature and phone number as well as the name of the place where you are living.

Following the distribution, you might be randomly selected and contacted by UNHCR's trusted partner who will enquire about the distribution and the use of the distributed items. To this end, UNHCR may share your personal data with our trusted partner.

If you have any **questions** or would like to **share any suggestions or complaints** regarding UNHCR assistance and/or the items you received, you can reach UNHCR by:
