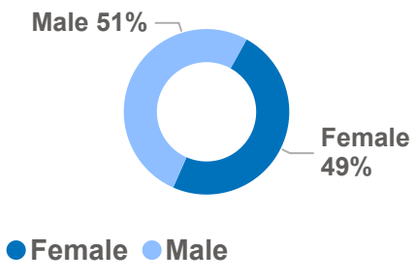
Data as of 31 May 2025

# Sudan Situation

# Refugees and Asylum-seekers Movement and Presence

## Refugees and asylum-seekers recorded at the border points



**370,774**

**# Individuals arrived**

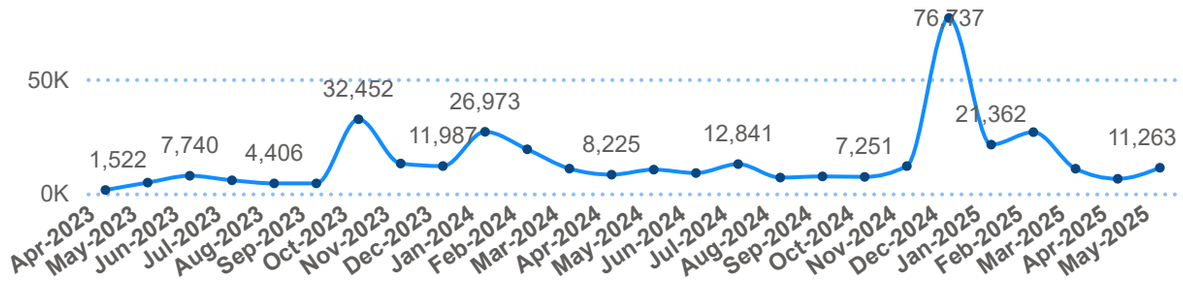
| | |
|---|---|
| Sudanese | 98.9% |
| Eritrean | 0.8% |
| Other | 0.3% |

The refugees and asylum-seekers arrival data is based on the joint border monitoring of RRC, UNHCR and IOM collected at official border points. The data does not include refugees/asylum-seekers who crossed through un-official border points or at night, when the monitors are not present. This data set excludes South Sudanese returnees and third-country nationals.

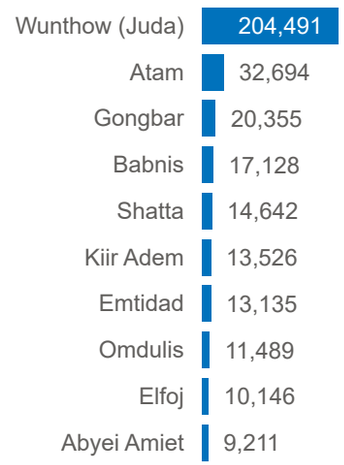
| Children 0 - 5 Years | Children 6 - 17 Years | Adult 18 - 59 Years | Elder 60 + Years |
|---|---|---|---|
| 17% | 31% | 49% | 3% |

**Arrival Trends**

**11,263** refugees and asylum-seekers arrived in May 2025



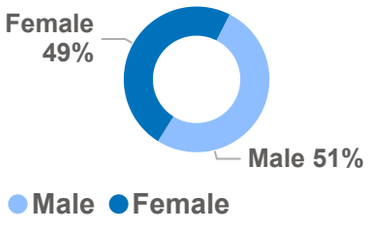
## Individuals arrived by top ten border points



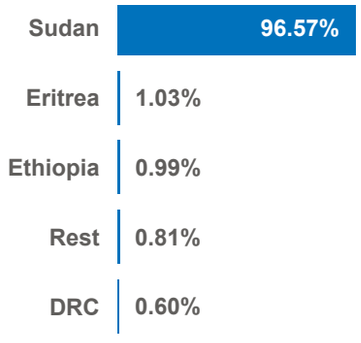
## Refugees and asylum-seekers presence at camps and transit centres - proGres

**238,562**

**Individuals Registered**



**Registered individuals by nationality**



The refugees and asylum-seekers data is comprised of people officially registered at refugee camps/settlements in UNHCR's proGres database. Data on arrivals at border points and presence in camps/settlements may vary due to people crossing at unofficial border points or finding their own way to these sites for registration.
