\*No reports were received from EES on 18th except for Owiny kibil (Magwi county)

Figure 1: Central Equatoria State Epidemic curve as at 18 July 2014

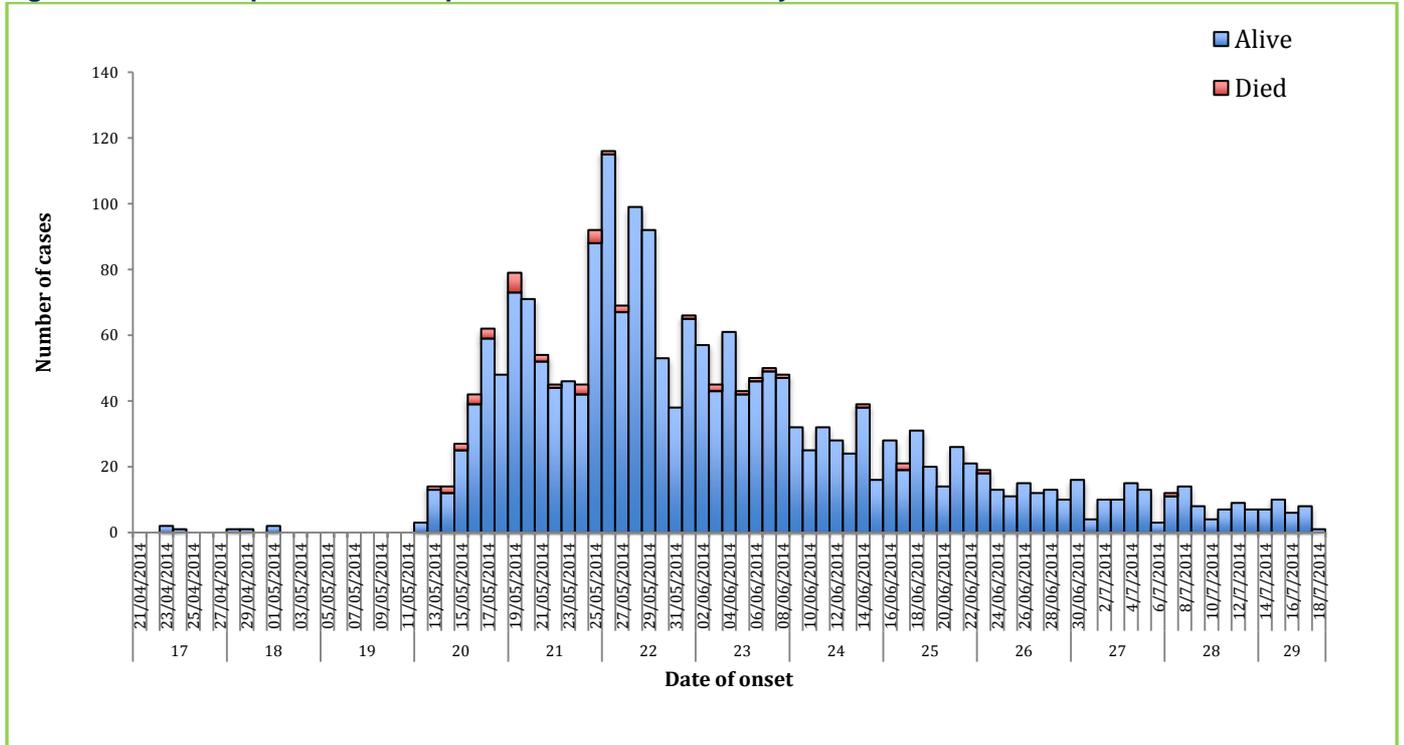

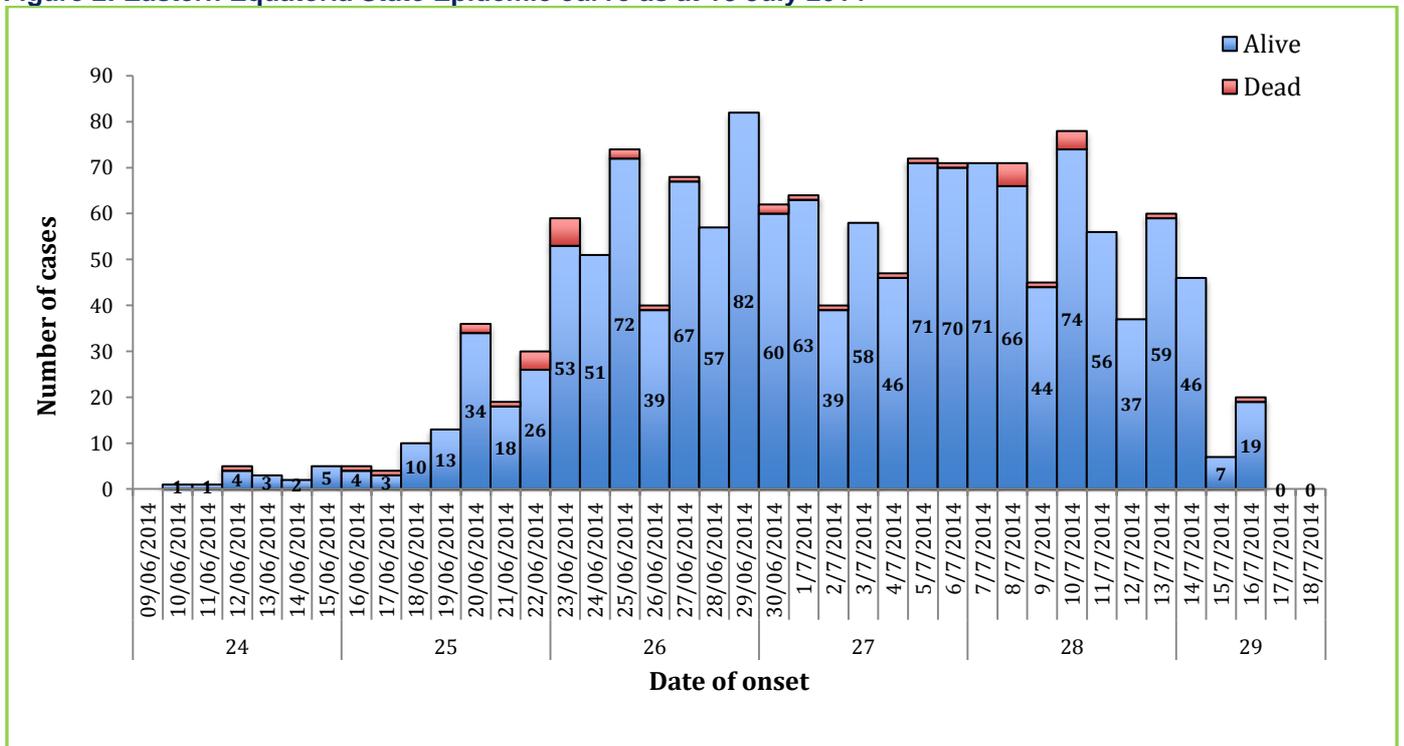

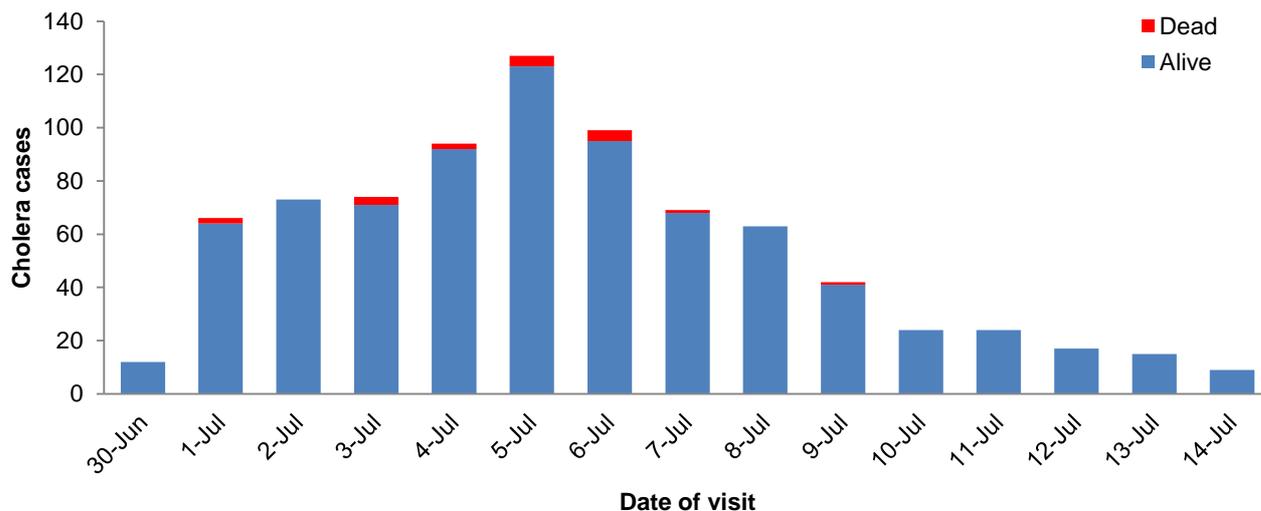

Figure 2: Eastern Equatoria State Epidemic curve as at 18 July 2014

**Figure 3: Upper Nile State Epidemic curve as at 15 July 2014**

**Table 3: Areas that continue to report suspected cholera alerts as at 17 July 2014**

Date of notification	Details of the alert	Area	Action
05/07/2014	The number of suspected cholera cases in Malakal PoC has risen to 53 with two deaths. No new cases have been admitted in the CTC for the last two days.	Malakal PoC	Cholera cases are being managed in the MSF CTC in the PoC. Health Cluster meetings are ongoing to coordinate the response. Active surveillance and contact tracing remain a priority in PoC 2&4. Laboratory test results for the four samples sent to the National Reference Laboratory are pending. Two epidemiologists from the WHO are on the ground to support response efforts.
05/07/2014	The number of AWD (suspected cholera cases) in Bol PHCU/CTC has risen to 20 cases with 6 deaths.	Bol, Lul Payam, Fashoda county, Upper Nile State	The set up of MSF and ICRC CTC in Bol has been completed and another in Kodok. Health partners including MSF, CORDAID, & ICRC together with Fashoda county health department team are coordinating preparedness & response efforts through regular health cluster meetings. WHO supported the response with one DDK kit, cholera RDTs, and Cary Blair media.
01/07/2014	A total of 50 suspected cases including two deaths have been reported from at least five payams in Kapoeta North County. There are three patients admitted in Irwoto PHCC CTC	Kapoeta North, Eastern Equatoria State	Case management is ongoing in Irwoto PHCC/CTC where three patients are currently admitted. Laboratory test results for the three samples submitted to the National Public Health Reference Laboratory are still pending.

Many thanks to the staff at CTCs, MoH at national level and state levels, especially the Department of IDSR, who have helped to gather the information presented here. Situation Reports are posted on the WHO website: <http://www.who.int/hac/crises/ssd/en/> as well as on the Humanitarian Info webpage: <http://southsudan.humanitarianresponse.info/clusters/health>.

The MoH/WHO surveillance team welcomes feedback and data provided by individual agencies. Given the fast evolving nature of this epidemic, errors and omissions are inevitable: we will be grateful for any information that helps to rectify these. Send any comments and feedback to: E-mail: [outbreak\\_ss\\_2007@yahoo.com](mailto:outbreak_ss_2007@yahoo.com), **The Toll free numbers for the ambulance are: Gemtel: 9999, Vivacell: 0952000098 and the toll free for alerts is Zain: 0912000098.**
