# October 2014 Explanatory Notes

This Indicator Report provides a monthly snapshot of the regional response to the South Sudan Situation. The indicators included report on the Post 15 December 2013 South Sudan caseload only. The report is prepared through collaboration with the reporting country and the Regional Support Hub, Nairobi.

The notes below provide further contextual information on various sector indicators:

## REGISTRATION

Only Level 2 registration is conducted within Kakuma.

## SGBV

A total of 199 SGBV survivors were assisted through various interventions including cash assistance, therapy and counseling, IGA grants, NFIs and sanitary materials and home visits.

## HEALTH

No maternal deaths were reported in October. CMR and U5 mortality rates remained as indicated throughout the month.

## NUTRITION

The methodology used in Kenya is Weight for Height. 299 children were screened for malnutrition during the reporting period.

## EDUCATION

The school age population in Kenya is as follows:

- Pre-primary: 3 – 5 years
- Primary: 6 – 13 years
- Secondary 14 – 17 years

In Kakuma the education coverage at all levels is very low: pre-primary are only 26% of eligible children (those aged between 3-5 years), primary education coverage for the age group of 6 –13 is at 46% and 2% for secondary education.

## ACCESS TO ENERGY

Only 20% of the required ration of firewood is distributed to beneficiaries due to lack of sufficient firewood.
