UPDATE ON ACHIEVEMENTS

Operational Context

PUNTLAND

The number of persons arriving from Yemen to Bossaso has decreased, but still remains unpredictable, despite the cessation of hostilities and diplomatic efforts underway in Yemen. Larger displacements may still occur.

SOMALILAND

Since March 2015, 9,966 new arrivals (3,323 families) have been recorded in Somaliland, including 1,941 Yemenis, 7,877 Somalis, 114 Ethiopians and 23 people of other nationalities. Number of new arrivals in Berbera remain relatively low.

Achievements

Protection

PUNTLAND

During reporting period, three boats arrived in Puntland from Yemen. Two in the port of Bossaso, on 5 and 10 April, and one in Caluula, on 10 April.

At their point of entry, the new arrivals were assisted with refreshments provided by Danish Refugee Council (DRC), transport from the port to the Reception Centre and biometric registration for all arrivals. Three meals a day are provided for up to five days by WFP to all new arrivals at the reception Centre.

SOMALILAND

On 30 March a boat carrying four Yemenis arrived in Berbera from Aden. The following day, another boat arrived carrying two Yemeni nationals (two households) who reported that they had paid 100 USD to travel from Aden (Ma'alla port) to Berbera. On 1 April, a third boat carrying 13 individuals (nine households), seven Yemenis and six Somalis reached Berbera on board the "Al Amir", having paid 150 USD for the crossing from Yemen to Somaliland. The new arrivals did not report any case of armed, physical violence or GBV during their journey.

Reception services were provided by DRC, UNHCR and Somali Red Crescent Society (SRCS) teams. The entry formalities were duly conducted by the Government agencies and the Immigration office operating at the sea-port of entry. There were no undocumented foreigners among the newly disembarked. All persons were found to be in good health condition, and, after provision of food and water, they were accommodated in the Reception Centre.

Basic needs -including water, food and emergency health care facilities- have been made available for the new arrivals at the Centre. Comprehensive Community Based Rehabilitation in Somaliland (CCBRS) conducted vulnerability assessments for the provision of Onward Transportation Allowance (OTA) by IOM. Most new arrivals reported that the ongoing war in Yemen had forced them to leave their country and that transportation between towns and cities inside Yemen is very difficult, if not altogether impossible in some provinces.

Among the new arrivals, two women were identified as persons with special needs. A SGBV survivor (who was raped in Yemen a year ago) and an elderly disabled woman who cannot walk. Both were referred to CCBRS for further assistance. The elderly disabled woman was also referred to IOM to facilitate an airplane ticket to her final destination, Mogadishu.

All people of concern were provided by DRC with non-food item (NFI) kits, water and accommodation at the Reception Centre.

Returns to Yemen

Forty Yemeni refugees spontaneously returned to Yemen on 23 March, claiming that they were returning to places that are safe and stable and that their departure was motivated in part by their not having received their monthly subsistence allowance.

Registration

The Ministry of Resettlement, Rehabilitation and Reconstruction (MRR&R) has suspended registration activities.

PUNTLAND

Yemeni refugees continue to receive medical assistance through UNHCR Implementing partner Gruppo per le Relazioni Transculturali (GRT), during biometric registration in case of medical emergencies and after registration in all other cases. Médecins du Monde (MDM) operates eight Mother and Child Health centres (MCHs) where all persons, returnees included, can receive free primary medical assistance.

SOMALILAND

New arrivals in need of medical assistance continue to receive assistance from IOM. Eight medical cases have been referred to IOM for medical assistance, among them a case of a woman who had suffered a spinal injury while in Yemen and a TB patient who has been under treatment for four months.

Food Security and Nutrition

PUNTLAND

The Puntland Students Association, contracted by WFP, provided cooked meals to all new arrivals that were welcomed in Reception Centre 2 in Bossaso. Three meals a day for up to five days.

SOMALILAND

DRC, in collaboration with WFP, provided cooked meals to all new arrivals.

Water and Sanitation

PUNTLAND

Water, both drinking and for other uses, is provided at the Reception Centre in Bossaso. Sanitation is provided by UNHCR through staff hired by the Ministry of the Interior.

Shelter and NFIs

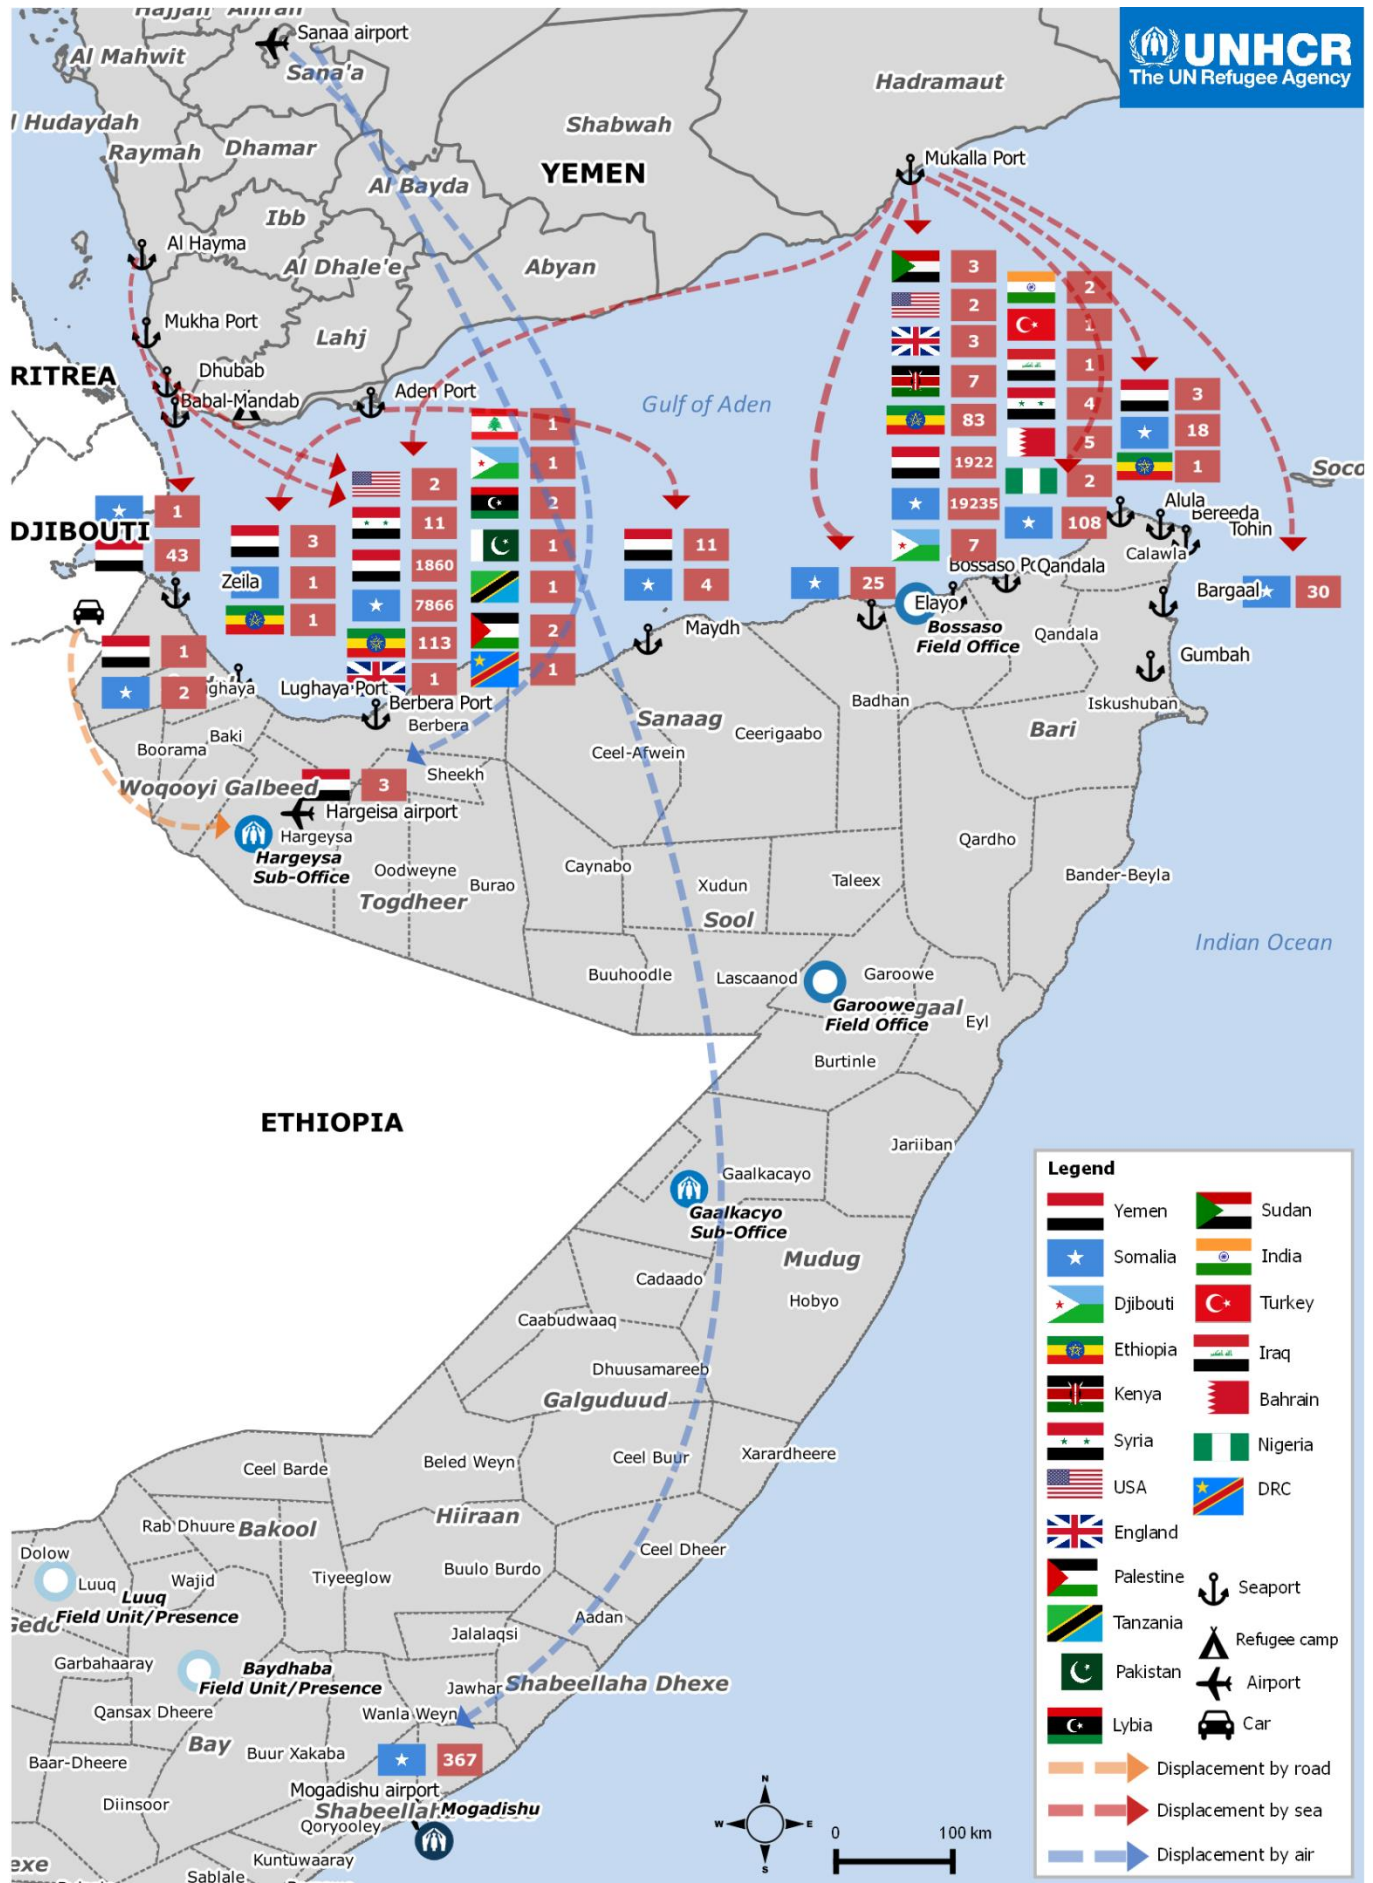

SOMALILAND

Since the beginning of the Yemeni crisis, 877 Core Relief Item (CRI) kits have been distributed to vulnerable new arrivals. Five CRIs have been distributed to vulnerable families who arrived between 31 March and 1 April.

Logistics

PUNTLAND

During the reporting period, 18 Somali returnees from South and Central Somalia were provided with Onward Transport Assistance (OTA) to enable them to reach their places of origin. So far in the month of March, 87 Somali returnees from South and Central Somalia have been provided with OTA to reach their places of origin in a safe and dignified manner.
