

TARGETS

As specified in RRP5

300,000 Refugees with access to safe drinking water in camps.

300,000 Refugees in camps with access to sanitation facilities

250,000 Beneficiaries with improved access to WASH services in host communities

135,000 Beneficiaries of WASH in schools, youth/child-friendly spaces and public places

550,000 Beneficiaries of hygiene promotion and hygiene kits

Current Planning Figures

515,013 Total Person of Concern as of 1 September 2013

137 million USD required

NEEDS

WASH services will be initiated, designed and implemented in camps in Jordan, with special emphasis on the design parameters to ensure that the needs of women, children, disabled and elderly are considered in the planning and implementation phase. Priority will be given to households living in temporary settlements, female-headed households and the needs of children, disabled and elderly.

Improving the water supply infrastructures for host communities with the largest concentrations of refugees will be another priority, which is critical to reduce tensions over water availability especially during the summer months. Schools in camps will be provided with WASH services, while schools with refugee children in host communities of Mafraq, Zarqa, Irbid, Maan and Amman Governorates will have improved WASH infrastructures.

OBJECTIVES

- 1 Ensure regular access for Syrian refugees living in camps to sufficient and safe drinking water; secure and clean sanitation and hygiene facilities which are culturally appropriate for both genders, giving consideration to those with special needs.
- 2 Improve access to WASH services and facilities to vulnerable Syrians and urban and rural host communities.
- 3 Rehabilitate and install gender appropriate water and sanitation facilities for boys and girls in schools, youth/child-friendly spaces and public places in camps and host communities.
- 4 Establish and maintain effective mechanisms for WASH coordination at national and sub-national levels

KEY AUGUST DEVELOPMENTS

KAP survey: final version now ready, focusing on household subscribers, and identifying illegal and legal connections. UNICEF with the MoW and YWC has already identified priorities (immediate, medium and long term).

Co-ordination: Sector agreed to hold one "National WASH sector coordination meeting" to discuss host communities as major agenda item but will also discuss issues related to camps.

Host Communities: Agreed that an objective/substantive assessment in host communities of WASH situation does not exist and is required. It was agreed that the WASH Coordinator will try to find funding for carrying out such an assessment on urgent basis.

ACHIEVEMENTS TO DATE

- 50,867** Syrian refugees connected to the water network
- 122,017** beneficiaries have received water trucking services
- 144,884** beneficiaries with access to adequate latrines
- 122,017** beneficiaries with access to shower facilities
- 201,920** beneficiaries reached through hygiene promotion
- 122,017** beneficiaries with access to solid waste collection and disposal services.
- 12,540** beneficiaries of WASH in schools

WASH RESPONSE

Overall % of target achieved as per sectoral targets.
(Note : Total current refugee population figure is at 50% of target.)
