

# Iraq : RRP6 MONTHLY UPDATE - MARCH

## BASIC NEEDS

**26,352** persons were assisted by the sector

### NEEDS ANALYSIS:

The priority needs as identified by the Sectoral Working Group are:

- Provision of Core Relief Items (CRIs) kits on arrival
- Replacement of CRIs
- Provision of CRIs based on seasonal requirements
- Enhanced logistics distribution and capacity for Core Relief Items

These priorities include both Camp and Non-Camp refugee populations.

Up to 13,000 Insulation kits for family tents were distributed during November/December 2013. Initial observations showed that the insulation kits had a marked effect on the temperature inside each tent.

For the purpose of planning for 2014/2015 winterization program, a survey is being conducted among the refugees who received a tent insulation kit during 2013/14 winter. The results of the survey are expected by May 2014.

### MARCH HIGHLIGHTS:

- Distribution continued without major interruptions in pipeline.
- During the reporting period, UNHCR and its partners replaced worn tents together with the winterization kits.
- All new arrivals in camps received the arrival package.
- There was an increased distribution of kitchen sets due to gap filling.
- Continued distribution of tent insulation kits.

### REFUGEE POPULATION IN IRAQ :

219,579

Current Refugee Population

400,000

Expected Refugee Population by end-2014

MARCH DISTRIBUTION BY ITEM AND PERSONS COVERED
