

IRAQ: RRP6 MONTHLY UPDATE - JULY 2014

SHELTER

As of June **48,340** refugees benefited from improved shelter e.g. tent foundations and cooking areas;
17,125 refugees benefited from new/replacement tents.

JULY HIGHLIGHTS:

Gawilan Camp: total families relocated from transit site to the Permanent site is 468 (168) in July after UNHCR implemented 1,817 tents foundation with kitchens and government did the electricity grid.

NEEDS ANALYSIS:

The objective of the sector is to provide adequate and targeted shelter support to Syrian refugees living in camps, in order to reduce vulnerability and physical settlement issues within the camp.

All individuals arriving in transit centers and camps will be prioritized for emergency shelter provision, while those who have been settled longer than six months will be assisted with replacement tents and plastic sheeting as well as materials to further build up the cement walls around the tents.

Notwithstanding that the main focus for the shelter sector are the camp refugees, there are some urgent needs for the non-camp population.

These include advocacy for continued refugee residency in host communities, upgrades to the dwellings of refugees living in non-camp settings, and the prevention of informal settlements in urban areas.

In this non-camp setting, families that include persons with specific needs (PSNs) will be targeted for assistance first, while mixed approaches will be taken for those non-PSNs.

Community outreach and protection services will be engaged in the beneficiary selection, so that those benefiting from shelter assistance will be based on demonstrated need.
