NEXT UPDATE : 14 June 2016

Below you can find and download all documents uploaded to the UNHCR Greece Webportal ([click on the file title to download](#)). You can also access the list of all documents directly online by visiting: <http://data.unhcr.org/mediterranean/country.php?id=83>

Pre-Registration handout , brochure and posters (AR/EN)

Between the end of May and the end of July 2016, teams from the Asylum Service will visit sites where refugees and migrants live on the Greek mainland. This process is called “pre-registration”. The purpose of pre-registration is to give you an opportunity to ask for asylum, if you are afraid to return to your home country because you fear for your life or safety. Depending on your individual case, it is also possible that you can ask to be transferred to another European country or join a family member in another European country. The options that are available to you depend on your individual case and the laws of Greece and the European Union. Pre-registration documents are uploaded under guidance tab on the webportal.

Site Profiles

Site Profiles Greece: A document that provides detailed information on sites. This document allow better planning and address gaps that are highlighted.

Profiling of Afghans and Syrian as of March 2016

Profiling of Syrians and Afghans: In the month of March 2016, 27,000 people made the journey across the Mediterranean to Greece bringing the total of arrivals in the first three months of the year to 151,400. In 2015, there were 856,000 sea arrivals. UNHCR initiated a data collection and analysis exercise with support from the Joint IDP Profiling Service (JIPS) in order to better inform the wider community on the profile of refugees arriving to Greece, and improve immediate response and longer term planning. The exercise focused on Syrian, Iraqis and Afghan arrivals.

Weekly Accommodation/ Relocation Report

At the EU Leaders' Summit on 25 October 2015, UNHCR committed to establish 20,000 accommodation places and to support the Government of Greece's efforts to increase their reception capacity for asylum-seekers by 30,000, yielding to a total of 50,000 reception places. People seeking asylum in Greece, prioritizing the most vulnerable. A **weekly report** that presents the information contained in the database is published. The direct link on the webportal is:
