PRIORITIES

- Find a second site to place all the new arrivals but also decongest the camp and move some residents to the new site
- Improvement of water supply system
- Ensure the inclusion of the profiles of IDP communities in a protection analysis/strategy
- Strengthening of security measures within the camp
- Enrolment of children in primary school
- Improve psycho-social support

Joint UNHCR and Government's protection screening ongoing before registration of new arrivals; sensitization against cultural practices favoring SGBV in refugee, displaced and host communities.

Psychosocial support and referral capacity of district hospital needs to be increased; health staffing to be increased; Cholera prevention activities to be intensified.

Food basket improved during June distribution by adding vegetables; blanket Supplementary Feeding Program activities ongoing

Standards in camp not yet reached; ratio is 16 l/ind/day. Hygiene promotion activities have been increased. Water trucking provides 60% of the water supply.

2,681 family shelters built out of which more than 300 by the refugees themselves; 1,068 family tents and more than 170 community shelters established for over 5,000 refugees.

Only 50% of primary school-aged children are enrolled in school due to lack of classrooms (24 classrooms for 10,000 children), lack of teachers and non-enrolment in country of origin. UNHCR plans to build more schools.

2,795 women and men including from host communities will benefit in 2015 from livelihood activities/vocational training.
